HENRY SCHEIN®
BRAND PRODUCTS

HENRY SCHEIN PRIVATE BRAND:
Quality Products, Affordable Prices, and Outstanding Service.

Why choose Henry Schein Brand?
The products you use in your health care facility have to be of the highest quality, whether it's reliable tools you use for a procedure or supplies that prevent the spread of infection. But because you're running a business, the price of those products is always a factor when you're making a purchasing decision.

That's why we're proud to offer products with the Henry Schein Brand that improve both the patient experience and your bottom line. And we stand by our products with the outstanding quality that customers have known for more than 85 years.

Medical & Surgical
Henry Schein Brand features a wide selection of medical and surgical supplies designed to deliver the reliability and safety you need to run an efficient practice.

Laboratory
Explore our diverse portfolio of laboratory supplies, including equipment, POC readers and analyzers, and rapid diagnostic tests, all made to meet your practice needs.

Equipment
Diagnose, monitor, and effectively treat your patients with our comprehensive selection of medical equipment and equipment supplies.

Welcome to the latest edition of the **Henry Schein's Sports Medicine, Foot & Ankle and Student Health Product Guide.**
We would like to thank you for your loyalty and for giving us the opportunity to earn your business by serving your needs.

A Note from the Director of National Sales, Athletics and Schools Division: Eric Kearns

Dear Valued Customer,

We are grateful for the opportunity to earn your business!

Henry Schein's Athletics and Schools Division has risen to be a leading distributer for Sports Medicine and Student Health Medical Supplies/Equipment.

Our core customers include:

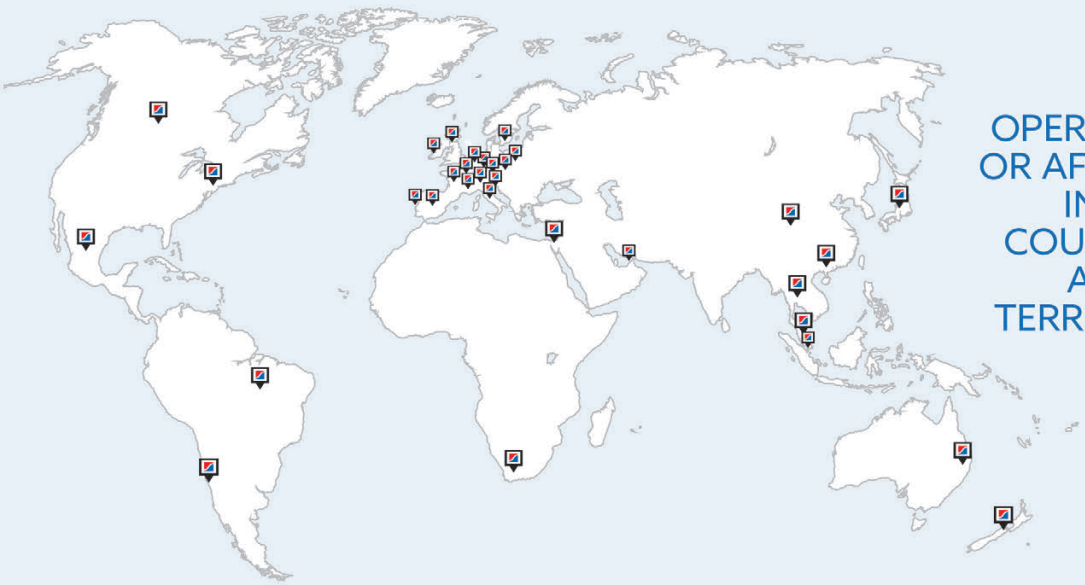

- Athletic Trainers
- Physical Therapists
- Strength and Conditioning Coaches
- Dieticians
- Student Health Clinics within Higher Ed and K–12
- School of Nursing
- School of Medicine
- Lab and Research

Rely on Us to be your sole source for supplies and solutions. Our robust product offering fits the needs of any potential buyer on campus and with our five strategically located distribution centers, we deliver most orders anywhere in the country within 1–2 business days. Our team of Sales Professionals are second to none and put the customer experience as their top priority. Trust in us to make the ordering process an afterthought by coupling speedy response time and our desire for customer satisfaction.

We have proven to customers time and again that we are trusted advisors by helping them overcome any obstacles that come their way. Our dedication to social responsibility and helping others is well documented and as a company ***"we do well by doing good!"*** We look forward to having an opportunity to earn your business and allow us to show you the ultimate customer experience!

Thank you and Welcome to the Henry Schein Family!

1.7 million

SQUARE FEET OF DISTRIBUTION SPACE.

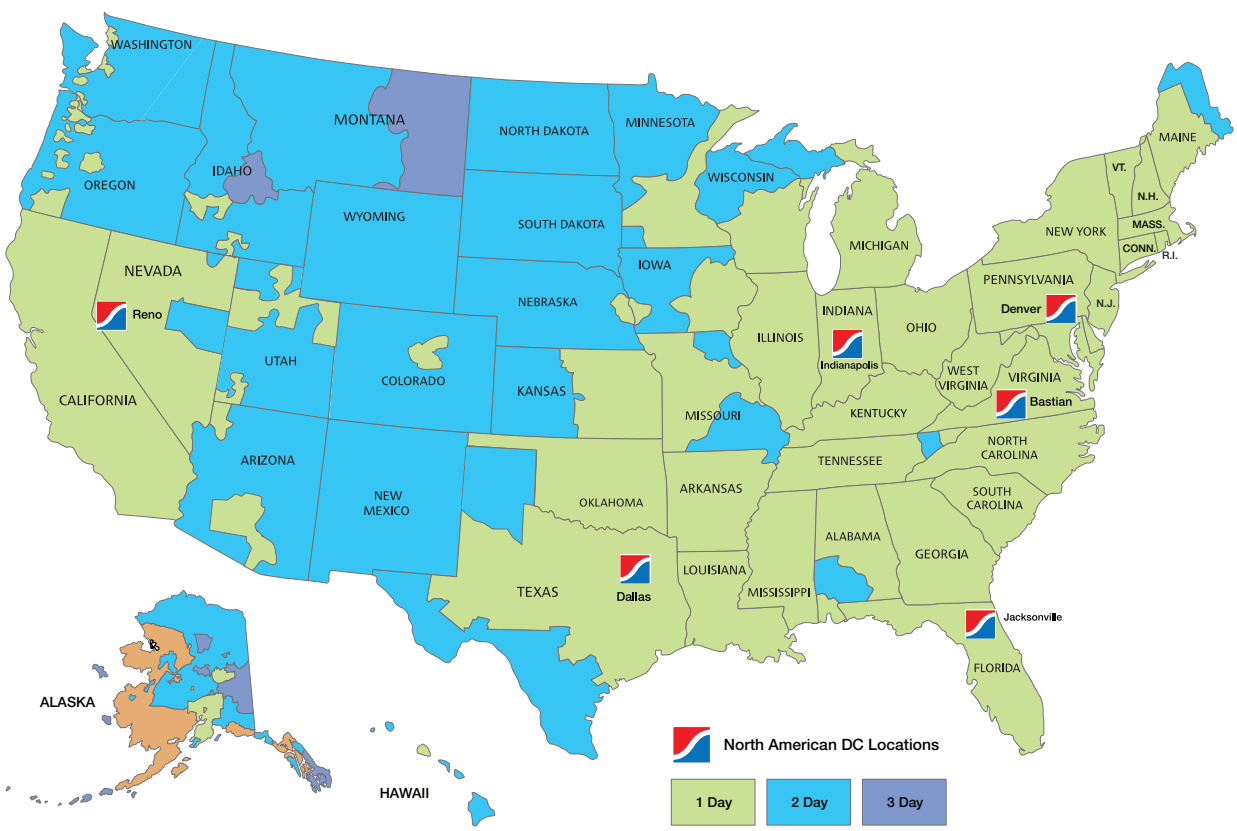

That is equivalent to about

30 football fields or 361 basketball courts!

At **Henry Schein Medical**, distribution starts with the highest-quality, FDA-approved products selected from suppliers that have met or surpassed regulatory standards and our Vendor Approval Process. From there, our technology-driven, temperature-controlled distribution and logistics network ensures product viability and consistent order accuracy.

To help ensure 99% order accuracy and health care product integrity, our distribution centers feature:

- Voice-directed picking
- Radio frequency
- Smart conveyor sorting
- Cart picking with dimensional data
- 24/7 temperature monitoring with generator backup
- Refrigerated, frozen, and controlled room-temperature storage capabilities

HENRY SCHEIN®
MEDICAL | ATHLETICS & SCHOOLS

The Annual Henry Schein Medical Athletics & Schools **Rising Star Award**

RISING STAR

In honor of (NATM) National Athletic Trainer Month we award an annual Rising Star!

Athletic trainers show up for their athlete's day in and day out! Dedicating countless hours to mentor, support, and train the athletes in their care. To show our support across the U.S., we will elevate distinguished athletic trainers from within the community who have:

- Exceeded Expections
- Stood out among their peers
- Went above and beyond their requirements
- Displayed unsung contributions within the industry

The Award is based solely on their community:

1. The rising star is nominated by their peers.
2. Based on predetermined criteria, 6 finalists are selected by the recognition committee.
3. Voting on the Rising Star winner is left in the hands of our social media followers and community.

Don't miss this annual event! Follow us on Facebook, Instagram, and Twitter.

Dear Valued Customer,
Thank you for your loyalty and trust in our Henry Schein team members. The **Sports Medicine, Foot & Ankle, Student Nurse, University Health Care Product Guide** is a comprehensive reference guide with a broad array of products and services in multiple segments, supporting health care professionals in making informed purchasing decisions.

In the pages that follow, you can browse through the following selections:

- Exclusive products and services available only from Henry Schein
- The latest core and digital equipment, small equipment, and supplies
- Equipment service, financing, training and support to keep your practice up and running
- Athletic Training Room and Practice room design services to create an environment that meets your unique needs
- Henry Schein Custom Branding offering products to build your brand and promote your practice

In addition to our extensive product and solutions portfolio, we are committed to ensuring we meet your needs. With the ongoing volatility in today's cost of goods and services, we continue to see prices fluctuate almost daily. This means the prices we list for products in our product guide can become outdated immediately after it is printed.

To ensure that you have access to accurate pricing information when making your product selections, we have removed pricing from the product guide and ask that you scan the QR codes with your phones or visit our website at **www.henryschein.com/athletics-schools** where you will find real-time pricing.

We greatly value your business and look forward to providing you with an outstanding shopping experience, whether through our product guide, website, or by working with one of our expert Telesales Representatives or Key Account Managers, whose trusted advice can help you build the Practice/Training Room/Lab you have always envisioned.

Contact us at **1-800-323-5110**

California customers please use website when ordering for Prop 65 information.

Recoil™ Cohesive Tape

4-yd Rolls

Recoil is an "industry-first" product; there is nothing else like it. It is a highly elastic, high-recovery, super-thin and water-resistant cohesive tape. It is a thermoplastic elastomer that is not textile-based, nor is it nonwoven. It is ideal for a multitude of needs and applications and facilitates doing things with tape never before possible. Combined with current approaches, Recoil dramatically changes the feel and efficacy of finished work.

Useful for infinite applications:
- Wrist wrap: Recommend 3½": Basic wrap in 2 passes in about 8 seconds
- Ankle wrap: Recommend 2": Great for heel locks and figure 8s
- Thumb/finger wrap: Quick and effective
- Head wrap: Provides constant compression; stays in place

KINESIO

Kinesio® Tex Gold™ Tape

Cornerstones of the Kinesio® taping method: Tapes over and around muscles in order to assist and give support or to prevent overcontraction. Applies stretch to the tape or target area in order to create space under the skin and create the desired effect on the musculature. Affects change in deeper layers of fascia by manipulating the skin and muscle. Creates space underneath the skin to improve circulation and lymphatic drainage. Utilizes a number of corrective techniques to promote correct muscle and joint function. Provides pain relief by targeting the pain and the source of the pain. Uses single "I strips or modifications in the shape of an "X", "Y" or other specialized shapes. Applies to base of tape with no tension to create pull toward the base. Zinc-free and not made with natural rubber latex. Water-resistant.

DARCO

Body Armor Elastic Tape

An elastic sport and therapy tape for kinesiology taping. It is designed to the same thickness and elasticity of the epidermis of the skin. It allows longitudinal stretch of 30%–40% of its resting length. The tape is used in treatment of muscle, fascia and tendon symptoms and for performance enhancement by way of continuous receptor stimulation. The natural healing process is enhanced due to improved circulation in the taped areas.

CanDo Kinesiology Tape

This skin-friendly tape is made from cotton/rayon fibers, is hypoallergenic, and not made from natural rubber latex. Features a wave-like acrylic adhesive on one side that pushes sweat and moisture away from the tape. It can be stretched lengthways by 30% to 40% and is water-resistant and air-permeable, meaning it does not come off in the pool, sauna, or shower.

Dynamic Tape—The Biomechanical Tape

Dynamic Tape is highly specialized and designed to contribute genuine mechanical force into the kinetic chain. Working like a bungee cord, the unique, strongly elastic Dynamic Tape aims to absorb load, contribute to force generation, improve biomechanical efficiency, and modify faulty movement patterns. Load reduction combined with powerful neurophysiological effects may provide prompt pain relief, reduce metabolic demand, facilitate recovery, and improve function.

MuscleAidTape™

Strengthen Performance • Muscle Pain Relief • Facilitate Healing

The wave-patterned adhesive design of MuscleAidTape™ allows it to have the same flexibility as human muscles, so it offers a gentle, yet effective way to re-educate the neuromuscular system, improve blood circulation, and relieve pain by providing comfort and stability to your body. Provides excellent air permeability to let skin breathe while allowing sweat to evaporate. It is also water-resistant. It's the perfect aid to provide people of all athletic levels with everyday muscle pain relief.

FEI FABRICATION ENTERPRISES INC.

KT TAPE PRO

An elastic sports tape that relieves pain as it supports muscles, tendons, and ligaments. When applied correctly, it reduces pressure to tissue which reduces discomfort and pain. It lifts the skin, decompressing the layers of fascia, allowing for greater movement of lymphatic fluid and helping to remove waste products, cellular debris, and bacteria.

AMERIGEL

Helix3 CP™ Collagen Powder

Helix3 CP® particles increase bioavailability to deliver the benefits of collagen to the wound immediately. Helix3 CP® powder is indicated for the management of burns, sores, blisters, ulcers, and wounds. Helix3 CP® absorbs 40 to 60 times its weight in fluid and contributes up to 10 times more nondenatured collagen protein than competing products. Maintains an optimal moist wound environment to support moist healing of draining wounds. Helix3 CP® contains no additives, synthetics, or fillers and is effective in all wound phases.
HCPCS Coding: A6010–Powder

Product highlights:
- 100% Type 1 bovine collagen
- Nonhydrolyzed native collagen
- Biodegradable and biocompatible
- Can be used in combination with topical agents

PRO Orthopedic Tubular Knit Compression Bandages

4½" x 11-yd Roll
These high-end, cut-to-fit compression bandages offer the best performance value in the industry while outperforming more expensive competitors. They're made of a durable, tubular, heavy knit material with a high spandex content that maintains a preferred amount of compression without stretching out over time. The material has moisture-wicking features, absorbs minimal moisture and is fast-drying, providing a cooling effect appreciated by athletes in warm environments. Ideal for securing protective padding, equipment, or ice bags. Machine-washable and reusable.

BOA® IV Constricting Band

The BOA's patented design features a Quick Click connector and 2-finger quick release for added efficiency. It is no longer necessary to tie (and often re-tie) a constricting band. The BOA decreases time on task for treating trauma patients, or patients with poor vascular access.
#30-0009
(499-7779)..... ea

Combat Application Tourniquet (C-A-T®)

The C-A-T is a true, one-handed tourniquet proven to be 100% effective by the U.S. Army's Institute of Surgical Research. Tests proved that the C-A-T completely occluded blood flow of an extremity in the event of a traumatic wound with significant hemorrhage. The C-A-T® utilizes a durable windlass system with a free-moving internal band that provides true circumferential pressure to the extremity.
Tactical Tourniquet..... ea
Specify:

#30-0023, Orange	**(499-7780)**
#30-0001, Black	**(499-7818)**
#30-0033, Blue Trainer Tourniquet	**(499-7782)**

C2 Emergency Bandage

Designed for quick and easy application, this sterile, nonadherent pad can be used to apply pressure to any site. It can be easily wrapped and secured, and has an additional feature (similar to a tourniquet) to further constrict blood flow.
#FCP-03, 4"
(197-7129)..... ea

SAM® XT Extremity Tourniquet

Engineered to preserve life. Weather-resistant hook-and-loop system functions when fully submerged, providing maximum security in the harshest weather. Durable nylon construction distributes force as targeted pressure for maximum strength and flexibility. Able to bend on smaller extremities without breaking. Innovative auto-lock technology activates locking prongs, eliminating slack typically found in other tourniquet applications.
Tourniquet..... ea
Specify:

#SAM XT-C, Orange	**(700-2843)**
#SAM XT-M, Black	**(700-2844)**

QuikClot® Combat Gauze® LE

A strip of soft, white, nonwoven, and Z-folded hydrophilic gauze. Impregnated with kaolin, an inorganic mineral that is safe and effective in accelerating the body's natural clotting cascade without any exothermic reactions or use of animal or human proteins. Contains an X-ray detectable strip for easy identification. Packaged in an easy-tear pouch. 5-year expiration date.
#350, 3" x 4-yd
(700-0709)..... ea

HENRY SCHEIN®
BRAND PRODUCTS

Rely on Us™

Henry Schein Brand products are designed to be cost-effective with exceptional value. We offer you solutions to meet your professional needs and make your practice more efficient. You will find many product options that help you achieve greater patient satisfaction and enhance your productivity. Our products have met high standards to earn the Henry Schein Seal of Excellence—your 100% guarantee of satisfaction.

Rely on us to provide a broad selection of cost-effective products and ultimately, to improve your bottom line.

Let Henry Schein focus on the details, so you can focus on caring for your patients.

RELY ON US FOR QUALITY, SELECTION, PERFORMANCE, AND VALUE!

TOPICAL SKIN ADHESIVE

(Histoacryl®)

Sterile, 0.5-mL
Single-Patient-Use
Plastic Ampules

- FDA-approved liquid adhesive consists of n-butyl-2 cyanoacrylate
- Available in both regular (translucent) and blue formulations
- Both polymerize in seconds upon being exposed to water or water-containing substances such as human tissue
- Forms a strong bond that seals wounds quickly
- Inhibits growth of bacteria
- Provides a precise, controlled application
- Won't clog or dry out when opened
- Flexible version available for longer incisions and more flexible coverage

Specialist® Cast Padding

Cotton/Rayon Blend, 4-yd Rolls
The micropleated construction offers optimal conformability, protection, and ease of application without tucking and tearing. Micropleated fibers fit every contour without slipping. Moisture from the casting material relaxes the crimped fibers, resulting in a uniformly smooth surface. Can be used with either plaster or synthetic casting tape.

Specialist® Plaster of Paris Bandages

3-yd and 5-yd Rolls
Uses a time-tested formula and manufacturing process that produces a consistent plaster. Plaster is uniformly coated and firmly adhered to gauze. Has a high dry/wet plaster retention, so more plaster is applied to cast and not wasted in wrapper or dip bucket. Has an early green strength to reduce time that cast is vulnerable to distortion. Fast Set (blue label) sets in 5 to 8 minutes; Extra Fast Set (green label) sets in 2 to 4 minutes.

- Excellent strength and consistency
- High dry/wet plaster retention
- Early green strength
- Low exothermic reaction
- Smooth finish
- Moisture-resistant packaging

casting tape

3M™ Scotchcast™ Plus Casting Tape

4-yd Rolls

Water-activated resin lets you control working time according to application needs. High and early strength allows for weight bearing in 20 minutes and provides a durable cast with less chance of breakdown or the need for costly repairs or replacements. Lightweight for easy mobility. Stretches to conform well to contours for a more comfortable fit. Porous weave allows the skin to breathe.

3M™ Scotchcast™ Soft Cast Casting Tape

4-yd Rolls

Made from unique fiberglass material that remains semirigid and flexible to allow for mobility to accommodate specific patient requirements. Tape is easy to apply and remove for fast application and enhanced patient comfort. Soft, pliable cast edges improve patient comfort. Ideal for use in combination with rigid Scotchcast casting tape, as soft edges provide additional comfort. Each roll is individually packaged in a sealed, dated pouch for easy inventory and use. Allows you to control the degree of support desired by varying the number of layers used to meet individual treatment needs.

CANDO®

Stockinettes and Precut Thumb Splints

The stockinettes are liners that can be used under fracture casts and braces. They conform to the shape of the body, preventing wrinkles from forming under the cast or brace. Available in cotton or nylon. The cotton material works great with plaster casts. Orfit Colors NS (Non-Stick) Precuts offer quick and easy orthoses creation. The material provides a splint with color that can boost patient morale and improve compliance with splint wear. It has a nonstick coating that allows for temporary bonding during application.

HARTWELL MEDICAL

Extremity Splint Set

Set of 3 splints that provides a solution to almost every possible splinting situation. From dislocated shoulders to angulated wrist fractures, these splints are supple and conforming, yet durable and easy to clean. Duffel-style carry case holds all 3 splints and the compact manual vacuum pump.
#EV3000
(499-0890)..... ea

HARTWELL MEDICAL

Standard Vacuum Mattress Set

Provides fast, effective, and comfortable immobilization by molding to the specific contours of the patient's body, reducing pressure point tenderness and rehabilitation time. Its thermal insulation decreases the potential for hypothermia. It is easy to use, comes with 6 padded handles for easy lifting, and is X-ray- and MRI-compatible. Compact carrying case enables it to be stored in an interior or exterior compartment. Durable manual pump evacuates mattress in less than 25 seconds.
#MT 3075-6
(499-2379)..... ea

MDI

Immobile-Vac™ Splints

Rapid fixation with unique strapping means no hassling with hook-and-loop straps and less time in the field. Quick cleanup is possible with completely removable straps and the elimination of areas that could trap fluids. User-friendly valve eliminates the problems associated with manipulating a complex valve while wearing gloves or working in the dark. Durable handle design allows the weight to be transferred to the handle straps, not the handle-to-unit connection. Remoldable for quick and easy adjustments in situations where swelling may occur. Chambered beads provide even rigidity and eliminate the problem of all of the beads falling to one side. Performs in a variety of conditions, raging from extreme temperatures to extreme environmental settings like water, and snow. X-ray-, CT-, and MRI-compatible materials allow for fixation from the place of injury through final treatment.

Orfit® Classic Splinting Material

Features and benefits:
- Minimum resistance to stretch
- Maximum drape—ideal for creating intricate shapes and contours
- 100% memory
- Material will return to its original shape and size when reheated
- Moderate rigidity
- Molded material splints flex slightly with force, especially the perforated, thinner materials
- Circumferential splints increase rigidity

HENRY SCHEIN®

ONE STEP+ IFOBT KITS

CLIA-waived procedure. User-friendly test; no dietary or drug restrictions. Greater test accuracy (elimination of most false positives). For detecting human hemoglobin in stool where test can be performed directly from patient's fecal sample. Test can be used for routine annual screening as well as a diagnostic test for detecting gastronomical bleeding at any time, based upon physician's professional assessment of patient's symptoms. Different ICD-9 and CPT® codes are required for reimbursement when used diagnostically.

- Patient takes home stick and card only (instead of taking home buffer tubes)
- 30-day sample stability (compare to 4–8-day stability)
- Monoclonal; no dietary restrictions
- Clean, in-office sample handling
- Multiple-site accuracy

25-Test Complete Kit
(900-4413)..... 25 tests/kit

HENRY SCHEIN®

URISPEC® PLUS URINALYSIS READER & URISPEC® 11-WAY URINE STRIPS

Provides dependable urine status results to detect early stages of many diseases, such as diabetes, kidney disease, and urinary tract infections. Instrument-read results have long proven to be advantageous for both busy health care professionals and patients. Comprehensive interface options and the optimized printouts minimize risk associated with manual transcriptions. Reliable results can be obtained virtually immediately at the point of care.

- CLIA-waived
- Readings eliminate subjectivity of visual color interpretation, which makes urinalysis simpler and more reliable
- Features no-touch operation: After strip placement, measurement starts automatically, which makes urinalysis faster and more hygienic
- Easy switch between different test strips: Urispec Plus is for use with Urispec 11-Way, 5-Way Plus, 4-Way, and GP+A urine test strips

(570-1309).....ea
Contains: 1 Urispec® Plus Urinalysis Reader & 12 bottles of Urispec® 11-Way Urine Strips.

HENRY SCHEIN®

URISPEC™ URINALYSIS CONTROLS

For Most Brands of Routine Urine Dip Sticks and Pregnancy Tests

A bilevel product packaged in plastic tubes and dropper bottles. Controls are liquid, ready-to-use, and are designed to validate urinalysis reagent strips. Packaged in plastic dip tubes and dropper bottles, they are convenient and easy to use. Long open- and closed-vial stability at 2°C–8°C for 2 years unopened, or 90 days once the Dip Control is opened, and 180 days once the Drop Control is opened. This allows the user ample time to utilize the product before expiration, resulting in cost savings.

- Values for all pregnancy test brands
- Assays for common brands of urine dip for routine urinalysis (2 parameter-10SG)
- Control for urine tablet test
- Includes values for micro albumin, creatinine, and hCG
- Two distinct levels (normal and abnormal)
- Closed vial dating up to 2 years with refrigerator storage

3 Bilevel Sets, 15 mL/Tube (6 Vials)
Dip stick in tube, with open-vial stability of 90 days at 2°C–8°C.

GENERAL®

Protein & Urine Refractometer

Use this instrument to test athletes for dehydration dangers. These result from lack of adequate amounts of fluids in the body due to athletes "keeping weight" by dehydrating themselves intentionally. Refractometers test the amount of protein in the urine and find if the athletes are engaging in dangerous behavior to maintain their weight class. Measure the specific gravity and refractive index of urine, blood serum, plasma, albumen, and protein. Easy to use, rubber hand grips to block heat, cushioned rubber eyepiece, and non-roll stand. Automatic temperature compensation. Includes plastic pipette, carrying case, and calibration screwdriver.

Protein/Urine with ATC Case
(796-5062)..... ea

Features:

- Metal body
- Calibration screen
- Rubber hand grip blocks hand heat
- Cushioned rubber eyepiece
- Non-roll stand
- Prism mounted in high-impact plastic
- Specifications:
- Range: 0–12g/dl protein in serum
- Resolution: 0.2g/dl, 0.005sg, 0.005 RI
- Applications: Protein/urine with automatic temperature compensation
- ATC

Atago PAL™-10S
Digital Urine-Specific Gravity Refractometer

The PAL-10S is a digital, handheld, compact refractometer that measures urine-specific gravity. It is used by many sports teams, universities, and clinics. To operate, place a few drops of urine on the prism and press the "Start" key. The urine-specific gravity value will be displayed on the LCD instantly. The instrument can be rinsed under running water between uses.

CARDIOCHEK® PLUS ANALYZER

Fast, Accurate, Efficient Lipid and Glucose Results at the Point of Care

Recognizing the strong connection between heart attack, stroke, and diabetes, the CardioChek® Plus Analyzer provides rapid, on-site blood-chemistry values and measurements to help identify at-risk individuals.

- Fast: On-site lipid and glucose results in as little as 90 seconds; simple, quality-control testing
- Portable: compact and lightweight, easy to transport and store; handheld and battery-operated; and room-temperature test strips
- Patient-friendly: fingerstick with sample size of 1.1 µL to 40 µL
- Wireless communication: easy data transfer
- Measures total and HDL cholesterol, triglycerides, and glucose
- Calculates LDL and non-HDL cholesterol as well as TC/HDL and LDL/HDL ratios
- Certified accuracy
- CLIA waived
- Meets NCEP guidelines for accuracy and precision
- FCC- and ISO-certified wireless communications
- CRMLN-certified for CHOL and HDL tests
- FDA cleared

Xpert® Xpress Strep A

- CLIA-waived, real-time RT-PCR molecular test results
- No confirmation required for negative results*
- Sample type: throat swab (ESwab™ in liquid Amies)
- Integrated QC in every cartridge
- Single-use, self-contained cartridge reduces waste and risk of contamination
- Room temperature (36°F–82°F, 2°C–28°C) reagent storage

#XPRSTREPA-10, Xpress Strep A
(129-6941).....10/box

*Follow-up testing by culture is required if the Xpert Xpress Strep A test result is negative and clinical symptoms persist, or there is an outbreak of acute rheumatic fever (ARF).

Highly accurate, molecular results faster and more accessible than ever before.

Solana bench top instrument a mere 9.4" x 9.4" x 5.9"

- **Optimize your throughput** with Solana's ease of use and flexibility.
- **Treat more patients** in less time. Test a single specimen or batch up to 12 at once, allowing for **prompt patient management**, even when volumes are higher.
- **Stay connected** using Virena®, a wireless cloud-based system that allows you to manage secure and HIPAA compliant de-identified data, **in near real-time**, for improved operational efficiencies.
- Solana has made molecular diagnosis **surprisingly affordable**! Now you can get **molecular results** without the molecular price tag.

For more information, contact your Henry Schein Account Manager.

QUIDEL | Solana | with the power of Virena | *The* Accurate. Sustainable. **Molecular** Solution.

QUIDEL

Solana Molecular Testing Platform

Solana is a benchtop instrument that combines Quidel's proprietary helicase-dependent amplification (HDA) with fluorescence detection to deliver molecular results you can trust, faster than ever before. The Solana testing system is easily accessible and can be seamlessly integrated. Solana's workflow is easy and flexible, capable of testing a single specimen or batching up to 12 tests at a time. Solana offers an intuitive, touch-screen interface with guided operation and customizable settings. The instrument possesses 4 USB ports, bar-code technology, an external printer, and LIS connectivity. Results are reported on the screen, stored in the instrument and can be saved to a USB drive, printed, and/or sent to the LIS. Solana also comes with the power of Virena®, Quidel's proprietary wireless data management and surveillance ecosystem.

QUIDEL

Sofia® 2 Analyzer

Offers an easy-to-use interface, customizable settings, flexible workflow, barcode technology, and Virena® connectivity. Results are reported automatically on the screen and can be stored in Sofia 2, optionally printed on an external printer, or sent to Virena. Sofia 2 has 2 modes that can be used depending on your workflow requirements: Walk Away mode may be most convenient for reading a single patient sample. Advance Result Technology (ART) can provide results in as few as 3 minutes. Read Now mode may be most convenient for reading several patient samples.

Sofia 2 features:

- Accurate, objective and automated results in as few as 3 minutes
- Excellent performance compared to molecular and viral culture methods
- Flexible, dual-mode testing and simple, CLIA-waived procedures for a variety of laboratory environments
- Secure, remote instrument management through the Virena ecosystem
- Integrated data management automatically stores test and user history
- User and patient ID captured with onboard barcode scanner

QUIDEL

Sofia® Influenza A+B FIA Test

This CLIA-waived test uses advanced immunofluorescence-based lateral-flow technology to detect influenza A and B viral nucleoprotein antigens in nasal and nasopharyngeal swab and nasopharyngeal aspirate/wash specimens taken directly from symptomatic patients.

- Enhanced assay sensitivity
- Results in 15 minutes
- Accurate detection with nasal swab, NP swab and NPA/wash samples
- Nasal swab sensitivity (A/B): 90%/89%; specificity (A/B): 95%/96%
- NP swab sensitivity (A/B): 97%/90%; specificity (A/B): 95%/97%
- NPA/wash sensitivity (A/B): 99%/88%; specificity (A/B): 96%/96%
- Room temperature storage
- 21-month shelf life from date of manufacture
- For use with Sofia Analyzer (sold separately)
- CLIA-waived for nasal and nasopharyngeal swabs

BD Veritor™ Plus System

The wireless BD Veritor™ Plus System provides health-care providers and laboratorians in physician offices, clinics, hospitals, and integrated delivery networks (IDNs) with objective, lab-quality immunoassay test results within minutes. This fast and accurate solution streamlines the point-of-care (POC) diagnostic workflow and allows providers to quickly review patient results and determine the appropriate treatment in a single consultation. The new system can help detect infectious diseases such as influenza A and B, respiratory syncytial virus (RSV), and group A strep while the patient is still on site, which can enable faster decision-making for an earlier intervention opportunity.

- Faster access to test results: Help inform appropriate and targeted treatment decisions
- Improved workflow: The BD Veritor™ Plus Analyzer improves workflow with an Analyze Now or Walk Away mode, providing test results (with a print-enabled function) and aiding in decision-making while the patient is on site
- Improved traceability: The BD Veritor™ InfoScan module can scan 3 different identifiers (operator ID, specimen ID, and test kit/lot) that can be locally recorded, printed, or downloaded, and reduces hands-on time through automated documentation
- Modularity: Provides a unique solution to meet each testing site's preference
- Connectivity: BD Veritor™ InfoSync module provides the same benefits as BD Veritor™ InfoScan. Connects and documents tests results across multiple sites and can integrate with a hospital electronic medical record or laboratory information system
- Advanced particle technology: Enhances sensitivity by using a proprietary process to produce highly stable, modified colloidal metal particles.
- Adaptive read technology: Compensates for background. Nonspecific binding helps improve specificity to reduce false-positive results

#256066, Veritor Plus Analyzer
(126-5527).....ea

BD Veritor™ System Flu A+B Test Kit

The first CLIA-waived flu A+B test referenced against PCR, a higher sensitivity standard than culture. Device is ready to insert into reader 10 minutes after sample is added.

- Positive percent agreement (A/B): 82.1%/74.6
- Negative percent agreement (A/B): 98.6%/99.6%
- Positive agreement vs. PCR for current visual read rapid tests ranges from 10% to 70%
- Streamlined workflow: Provides a digital result in <11 minutes, with <50 seconds of hands-on time

#256045, Flu A+B Test Kit

SureTemp® Plus 690 Electronic Thermometer

Combines the speed of ear thermometry with the accuracy and reliability of traditional oral thermometry. Takes fast, 4–6-second oral temperatures, 10-second pediatric axillary and rectal temperatures, and 15-second adult axillary temperatures.

- Accurate to within +/- 0.2°F (0.1°C)
- Interchangeable, removable probe wells to reduce the risk of cross contamination
- Large LCD readout can display temperatures in Fahrenheit or Celsius
- Last-temperature recall
- Convenient storage for 25 probe covers
- Takes about 6,000 readings on 3 AA batteries

SmartCuffs 4.0

With its AI-powered processor and proprietary limb occlusion pressure (LOP) algorithms, this model is one of the most intelligent blood-flow restriction (BFR) cuffs available. Its patent-pending iBFR LOP calibration can find LOP in as little as 10 seconds. By taking a percentage of LOP, the user can objectively know how much they are restricting blood flow for their given body structure, taking out all of the guessing, for a truly easy and quick experience. Its exclusive Tri-Pressure Technology features 3 distinct and highly effective BFR modes.

ProBP 2400 Digital Blood Pressure Device

The Welch Allyn ProBP 2400 is not a typical electronic blood pressure device. It is an affordable, professional device that can be trusted to accurately measure patients' blood pressures despite many common underlying circumstances. It provides a consistent technique that's not assured with manual blood pressure gauges. And it does so at a budget-friendly price that other professional blood pressure monitors with the same features don't offer.

Features:
- 3-Reading Average Mode can give a broader view of patient's true blood pressure
- Irregular heartbeat detection provides data to assist in making testing decisions
- Manual Mode allows the device to serve as a digital gauge when auscultation is indicated
- Microprocessor-controlled deflation rate provides consistent technique
- Built-in folding handle allows the user to carry it safely and comfortably

ProBP 2400
(672-0180).....ea
Contains: ProBP 2400 Device with 2,400 mAh NiMH battery installed, 1 adult cuff, 1 large adult cuff, 1 power supply with 4 mains blade adapters (US, UK, EU, AU), directions for use CD & calibration certificate.

Connex® ProBP™ 3400 Digital Blood Pressure Device

Small enough to carry everywhere, with the same accuracy as Welch Alyn industry leading vital signs devices, the Connex® ProBP™ 3400 digital blood pressure device is a smart choice for just about every clinical setting. SureBP™ technology lets you take fast, accurate blood pressure readings in just 15 seconds, while USB-wired connectivity lets you send them straight to your EMR/HIS. Cuffs purchased separately. The ProBP™ 3400 is not intended for neonatal use.

OMRON

HEM-907 IntelliSense® Digital Blood Pressure Monitor

The most recent advancement in digital, noninvasive blood-pressure monitors. Engineered for accuracy, precision, and clinical effectiveness, it is mobile, easy to use, time-saving, and versatile. Developed specially for professional use in a clinical setting, including physician's office, hospitals, or other point-of-care environments.

- Automatic inflation level setting allows for automatic cuff inflation
- Average Mode measures up to 3 readings and averages the total, according to current blood pressure, for a more accurate measurement
- Large, easy-to-read display
- Auto cuff pressure control for manual (auscultatory) measurement
- Quiet operation
- Quick-and-easy one-button operation

Connex® Spot Monitor

Features an easy-to-use, vivid touchscreen display and provides accurate vital signs measurement, including blood-pressure averaging, spot checking, interval monitoring and custom scoring across patient populations. Device connects wirelessly to an EMR and accurately sends vitals to the patient chart from the point of care to help improve efficiency.

- Designed for the physician-office environment with an easy-to-use, vivid touch-screen display
- More accurate hypertension diagnosis without slowing down your workflow thanks to automated blood-pressure averaging
- Improved capabilities for assessing respiratory conditions such as COPD, asthma, and community-acquired pneumonia (CAP), thanks to integrated professional-grade pulse oximetry
- Increase staff efficiency and eliminate data-entry errors with wireless transfer of vital signs directly into an EMR

ADView 2 Diagnostic Station

The ADView 2 is the only truly modular diagnostic station that grows with your needs. Start with blood pressure and choose temperature or pulse oximetry options at the time of purchase; we'll ship your ADView 2 fully configured and ready to go. Or add new modules and accessories in the field, anytime, as you need them. Our user-expandable, connect-and-go construction makes upgrading effortless.

- Clinical-grade Advantage™ BP technology from SunTech Medical
- Contemporary, compact design with an integrated handle and easy-to-read display
- Manual blood pressure mode for real-time verification
- Customizable average mode options
- Next-generation EMR-ready with HL7 messaging for electronic data transfer
- Network-enabled with built-in Ethernet or optional Wi-Fi
- Lithium-ion power for longer-lasting battery life and a lighter weight
- Built-in memory with up to 99 charting sessions
- New Pediatric Mode to ensure accurate measurements for younger patients
- Firmware upgradable

Easy on-PC Spirometry System

The Easy on-PC uses the power of your PC, laptop, or tablet, leveraging True Flow ultrasound technology for a complete spirometry solution. This PC spirometer uses pediatric incentives, displays inspiratory and expiratory real time curves, and offers challenge testing. Some of the essential features include:

- Flexible EMR capabilites
- Trending
- Selectable predicted values and interpretation
- Automated quality control
- Supports multiple languages

Accutorr® 3 Spot Check Monitor

This compact, lightweight, and portable spot-check monitor is ideal for low-acuity areas of a hospital. It is easy to transport from bed to bed, either by its integrated handle or a compact rolling stand. Its touchpad user interface makes it simple to use. The Accutorr 3 offers a standard RS-232 interface that allows for the direct export of vital signs data into an electronic medical record (EMR).

- Comfortable carrying handle
- Lithium-ion battery provides up to 22 hours of continuous use
- 4-button user interface allows simple navigation through all of Accutorr 3's parameters and settings
- Easy selection of adult, pediatric, and neonatal patient size settings
- Available SpO_2 technology includes Masimo SET® (standard) or Nellcor® OxiMax®
- Optional Mindray SmarTemp® or Welch Allyn® SureTemp® Plus temperature

Spot™ Vision Screener

A handheld, portable device designed to help users quickly and easily detect vision issues on patients from 6 months of age through adult. Spot screens both eyes at once from a nonthreatening 3-foot distance. The touchscreen display allows for one-touch activation, simple management of patient data entry, and easy configuration for both vision screening and autorefraction applications.

Features:
- Supports AAP screening guidelines for early detection of amblyopic risk factors
- Automated screening provides thorough, objective, and easy-to-understand results
- Easy to use, easy to implement, with minimal user training required
- Adequately powered for mass screening events
- Captures readings 97% of the time, helping to screen otherwise difficult patients
- Wireless printing and WiFi-enabled for easy export of data
- Manual exports available via USB port
- Uses lights and sounds to help engage children

#VS100S-B, Vision Screener Set (Includes Carrying Case)

Hillrom

Suresight™ Vision Screener

- 5-second automatic test makes patient compliance easier
- Lights and sounds engage child's attention
- Measures and indicates abnormal reading automatically—no provider interpretation required
- Operates at a nonthreatening 14" (35 cm) distance
- Minimal cooperation is required, making it equally effective for children, disabled patients, and those with a language barrier
- Screens for common vision problems, including nearsightedness/farsightedness (myopia/hyperopia), astigmatism (asymmetrical focus), and anisometropia (unequal power between eyes)

Ear Wash System Plus

With enhanced water pressure and unique Hydrovac action, this award-winning system is the obvious irrigation choice for any practice. It eliminates messy overflow by automatically dislodging, removing, and disposing of earwax, making it the easiest, cleanest, most effective way to remove cerumen.

- Simplicity of operation; quick and easy to set up Pressure regulation: regulates the output pressure to prevent damage to the tympanic membrane or ossicular chainPortableTemperature indicator/ control: light will turn green when water is at body temperature and will automatically turn off if water gets too hot Suctioning action: reduces messy outflow Multifunctional disposable tip: provides a seal at ear canal; has an outflow channel to direct water back to drain, and a filter in tip to collect cerumen, thus allowing practitioner to see when cleaning is complete; can be used on children and adults1-year warranty

OAE Hearing Screener

The next generation in objective hearing screening technology, designed to address the challenges practitioners face when screening infants, newborns, toddlers, preschool, and school-age children. Objective screening, paired with breakthrough technology, make this hearing screener an ideal tool when testing for otoacoustic emissions. Rapidly screen newborns and infants with minimal cooperation required. No behavioral response required for those too young to respond or who have trouble sitting still. Tests are fast; just 3 button pushes turn on the device and complete tests on both ears in approximately 8–16 seconds per/ear (assumes DPOAE screening with 2–4-second averaging).

SC-539 Event and Split Timer Stopwatch

This stopwatch features 1/100-second resolution, 24-hour timing range; 2-memory recall of finish times, and Pro Action snap-back push buttons that offer great feel. The display is twice as large as that of most stopwatches for easy reading of results. Use the SC-539 to track the progress of fitness, rehab, or lab activities. Offers simple operation for volunteers, and umatched quality for coaches, trainers, and professionals.

The Robic SC-539 offers superior quality and features not found on any other $15 stopwatch:

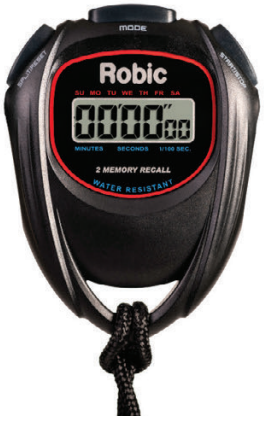

- A pull-tab to prolong life
- Battery hatch makes battery replacement a breeze
- True 3-atm water-resistant construction: use it with confidence in any weather
- Jumbo-sized LCD display with very large digits make results easy to read
- Oversized push-buttons with professional-quality snap-action for accuracy
- Use as a single event stopwatch or take unlimited multiple split times

Heat Stress Trackers

The most user-friendly WetBulb Globe Temperature (WBGT) meter on the market detects when heat-related conditions are unsafe well before your body does. With this handheld, portable, measurement tool and environmental data logger, there's no need for distilled water or bulky globes. Getting accurate measurements couldn't be easier: just hold the Heat Stress Tracker in the area of interest for instantaneous and average WBGT measurements. Set the appropriate WBGT thresholds for flag warnings and the loud buzzer. Bright LED beacon and on-screen warnings provide instant notification of dangerous conditions. 5-year warranty.

Full-featured weather meter—Measures wind speed, maximum wind gusts, temperature, humidity, pressure, wind chill, density altitude, and more.

LiNK wireless data communication—Adds a compass for tracking wind direction, expanding its usability to include HAZMAT response. Measures headwind at the running track.

Tracks and logs over 10,000 sets of time-stamped data—Data log can be transferred to a mobile device wirelessly with the LiNK wireless communication option and Kestrel LiNK app, or to a PC/Mac with either the accessory Kestrel LiNK dongle or waterproof USB data transfer cable (available separately).

Vane mount—Allows hands-free measurements.

XTREME RESEARCH CORPORATION

SkyScan EWS-PRO Lightning Detection & Early Warning System

The only professional-grade portable lightning detection and early warning device available today. A self-contained instrument with the electronic sophistication to detect lightning strikes over 40 miles away, and to accurately track a storm's approach with an audible horn and large LED visual alerts. The LED alerts are in 4 ranges, providing vital information when the storm is moving toward, away or parallel to your position. The audible horn is set by the user to any strike range to make storm tracking easier.

EWS-PRO Features
- Accurate digital microprocessor with patented dual antenna receiving system
- Built-in 12-volt rechargeable power source, operating for 7+ days on a single charge
- Loud 95 db alert horn, with adjustable range setting
- Rugged weather-resistant case
- Low battery indicator
- Thunderstorm alert that warns of severe large storm cell approaching.
- False signal filtering feature to warn against any possible location interference
- Accurate identification software that eliminates alerts to harmless cloud-to-cloud lightning activity

ZOLL

ZOLL AED Plus®

Bringing Lifesaving Defibrillation to Everyone

The only AED with CPR feedback and an ECG waveform. By supporting CPR as well as defibrillation, this device can help every unresponsive victim. Features Real CPR Help®, a tool that is able to actually see what user is doing and provides audio and visual prompts to help them do it with confidence and clarity. Provides a one-piece electrode for accurate placement. Uses consumer lithium batteries that are easy to replace, long-lasting, and inexpensive.

PHILIPS

HeartStart FRx AED

Designed for conditions too demanding for many other AEDs. Simple to use. Offers on-demand CPR coaching. Calm, clear voice instructions are precisely timed to the responder's actions, guiding the responder every step of the way. Weighs just 3½ lb. Simplify the rescue of a child with the Infant/Child key. Unique in the industry, the Infant/Child key turns the HeadStart FRx into a pediatric defibrillator, which means just one pad set works for adults, children, and infants to simplify the rescue. Automatically conducts self-tests each day. Philips' high-current/low-energy therapy ensures a potent defibrillation dose, while at the same time, minimizing side effects that are harmful to a fragile heart.

- Simple to use
- Offers on-demand CPR coaching
- Calm, clear voice instructions
- Infant/Child key turns unit into a pediatric defibrillator
- Weighs just 3½ lb
- Automatically conducts self-tests every day

AED Trainer 3

The AED Trainer 3 reflects the unique functionality of the Philips HeartStart® FR3 AED, and provides a realistic training experience for emergency responders to deliver optimal therapy when facing cardiac arrest. The instructor can change scenarios by pressing the buttons on the device itself or by using an optional remote control. During each scenario, the remote control lets the instructor pause, change, or introduce new challenges, to test how students respond to a variety of situations, enhancing the learning experience.

Contains: 1 of each: Adult Pad-Pak™ battery/electrode cartridge, carrying case & HeartSine Saver EVO software.

SSCOR

Quickdraw® Aspirator

The first medical aspirator to be powered by alkaline batteries: no need for charging. Two alkaline battery power options are included. The first option: disposable alkaline battery pack that will power the unit for 3 continuous hours. When the battery pack is depleted, simply replace it with a fresh battery pack. The second option: a battery holder that houses 10 AAA batteries (not included) and will power the unit 60–100 min. When the batteries in the battery holder are depleted, simply replace them with fresh ones. This device provides suction as efficient as a large aspirator and weighs only 2.6 lb, small enough to carry in a “first-in" kit and taken to the patient’s side where it is needed. It can function as an extremely efficient handheld suction device or as a small, yet powerful and effective traditional suction pump. LED on the side monitors battery voltage of the alkaline battery pack and lights to alert the user when voltage is becoming low and should be replaced.

- Lightweight, portable suction device
- Fits in airway or "first-in" bag
- Two battery options: a sealed alkaline battery pack and an alkaline battery holder for use with 10 AAA alkaline batteries (not included)
- Vacuum setting: >500 mmHg or approx. 80–100 mmHg
- Clearly labeled battery-condition indicator
- Has a IPX4 rating for protection against ingress of fluids
- Can be used as a handheld or traditional suction device with tubing, tips, and catheters
- CE marked
- 1-year warranty

#2403
(700-2486)..... ea
Contains: 1 of each: canister with 1-meter patient tube, alkaline battery pack, AAA battery holder, Hi-D® suction tip & quick-start guide.

dynarex

Oral Airways, Berman Type

- Disposable airways are made of polypropylene (PP)
- Provide superior performance
- Allow unobstructed passage: unique perforated midway openings assure ventilating channel, and permit access to a suction catheter even if airway shifts or is partially occluded
- Strength: reinforced bite-block prevents collapse of airway
- Flexibility: smooth, non-brittle finish permits easy insertion without danger of breaking when distorted
- Less trauma: greater accessibility of suction catheter permits removal of secretions at a faster rate

FERNO

Head Immobilizer

Large ear holes for monitoring the patient's ear canal. Closed-cell foam construction provides excellent support. Dual-purpose head supports are tapered on one side so they can be used with a flat backboard or the scoop stretcher. Minimal interference with X-ray, MRI, or CT scanning procedures. Waterproof plastic coating makes it easy to clean and prevents bacterial growth within components.

(672-3771)..... ea

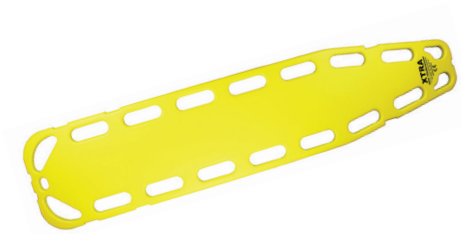

FERNO

Model 65 Scoop™ Stretcher

Enables the immobilization of the patient in the position found. Open center permits patient to be X-rayed while immobilized on it. Sturdy, lightweight aluminum construction. Can be easily stored in backboard compartment, under squad bench, or within stair chair cabinet. Separates in half during application and removal. Adjustable length. Three burgundy quick-release patient restraints included.

inMotion

In-Motion Pro Series Crutches

Unique Design: Crutch works as a system of specialized features. Upper-body leverage obtained from the unique design combines with the spring release to return positive energy back to the patient.

Ergonomic/Anatomical Handgrip: Works with spring to absorb impact energy and to keep pressure away from sensitive areas of the hand and wrist.

Spring Assist/Shock-Absorbing System: Works with the underarm cradle to keep the motion downward as the spring compresses, eliminating underarm jamming.

Folds in half for travel and storage.

PROTEAM 3D BUILDER

Customize and visualize your furniture with 3D Builder. 3D Builder let's you design the perfect treatment table or taping station to fit your needs. It's never been easier to personalize your athletic training room!

PRO-OPTIONS TABLE

- Designed to allow you to customize to meet your specific needs… it is as easy as 1-2-3.
- Choose your cabinet style – open cabinets on both sides of table or cabinets on one side of table with solid back.
- Add optional elevating split leg feature and/or gas-spring backrest.
- Customize each compartment with any of five possible options (some restrictions apply).
- 2" thick high-density foam uphostered tops.
- 3mm high-impact PVC edges on all doors and drawer fronts.

- All cabinets must be fastened to the wall (fasterners not included)

Stor-Edge™ Medical Cabinets

Our fully modular, cost effective Stor-Edge Medical Base and Wall Cabinet line is functional, durable, aesthetically pleasing and designed for multiple applications. All cabinets are handcrafted in the US and are available in several wood or laminate choices. Choose to apply custom branding to carry your brand throughout your treatment area.

Pair multiple cabinets together, ask about custom-built options for a fully functional treatment space or choose from one of our cabinet groupings. Continuous countertop and toe kick available for a run of base cabinets.

Cabinets come standard with the same color laminate on the outside and inside, as well as the doors and drawer fronts. Custom color options are available upon request. Mounting hardware not included.

STANDARD FEATURES:

- Available in wood or laminate finishes
- (1) Adjustable shelf in each doored cabinet (Not available in sink cabinets)
- 110˚ Euro hinges on doors
- Full extension drawers glides
- Black wire pull handles
- Right or left hinges available on single door cabinets
- High pressure laminate countertop with backsplash
- Black toe-kick plate on base cabinets
- Some assembly required (Backsplash ships not attached)
- Mounting hardware not supplied

Designing better care.

Ritter 224 Barrier-Free® Examination Chair

The number of elderly and obese in the U.S. is steadily growing, and over one fifth of adults in America are disabled. Assisting patients with mobility limitations onto exam chairs has become a frequently performed task. Although caregivers working in health-care facilities are in one of the most at-risk professions for musculoskeletal disorders, little has been done to evaluate and reduce risk. The Ritter 224 is designed to offer low and high positioning heights so you can provide the best care to all patients, whether treating the elderly, expectant mothers, or patients with disabilities.

550 Podiatry & Wound Care Chair

Provides easy patient ingress/egress and equal access for patients with disabilities. As with all 550 chairs, it comes equipped with SmartTech™. Using a combination of MTI's Smart Controller™ and Smart Safety™ technologies, SmartTech is a centralized computer controller that enhances safety, reduces energy consumption, and provides smoother movement and additional memory options. ComfortSync™ provides a smooth and independent 7" automatic power extension of the footrest as it follows the natural relationship of the patient's leg; that allows it to also accommodate taller patients. Includes a standard base.

- ADA compliant with any base version (standard, swivel, or mobile)
- Soft and sleek design with an ultrathin backrest
- Height: 18¾"–39½"
- Length: 73" plus an additional 7" headrest extension
- Width: 25"
- Patient load capacity: 725 lb

Chair with Standard Base
(136-9269).....ea

529 Series Podiatry/ Wound Care Chair

The gold standard in podiatry and wound Care, MTI's 529 Series chairs raise the bar with ADA compliance and patented ComfortSync™ and SmartTech™ technology. Bearing an increased patient capacity of 725–850 lb, caregivers can have confidence in the rock-solid steel construction that lies beneath the refined touches and premium upholstery.

- Power lift, back, and tilt (no lift on 528)
- 11" powered foot extension section concealing a pull-out, stainless-steel debris tray
- Integrated tapered head and backrest
- Foot control with 4 dynamic, user-programmable positions
- Programmable home and ADA home positions
- Removable slide-back patient arms
- 18¾"-39" seat height (528 fixed at 21")
- ADA-compliant seat for easy ingress and egress of elderly patients or those with disabilities (with transfer support)
- 24" seat width (529W: 30" wide)

Hi-Lo Treatment Table

3 Sections, Black Upholstered Top, Adjustable Backrest

Top-of-the-line table that is economical and easy to use, and has numerous features. Measuring a very spacious 73" x 29", it raises and lowers within a height range of 16" to 34". This low starting height enables easier access to the table for patients in wheelchairs as well as an easier exit from the table's exam surface. This 3-section table allows both the backrest and the headpiece to be adjusted. Head of the table is its own 11" section that can raise or lower to aid in patient comfort and clinician ease. Quick ship.

Welch Allyn Green Series™ Exam Light IV

Perfect for the OB/GYN office or for specialties that require very focused light in specific areas, the GS Exam Light IV provides you with 3 times the typical light output and features a highly flexible light pipe that is twice as long as conventional pipes. And with a compact, unobtrusive head, it ensures pinpoint accuracy and provides true tissue color rendition during an exam. Utilizing white LEDs, the GS Exam Light IV provides a whiter, brighter light than halogen and consumes less energy. 5-year limited warranty to include the LED light source and power supply only.

seca

seca 554 Medical Body Composition Analyzer

With Ultrasonic Height Measurement

An effective training program needs validated data to determine a baseline, set attainable goals, and motivate athletes with valuable insights. seca BIA solutions provide medical and sports professionals precise data into body fat percentage, skeletal muscle mass, body water and many more parameters by using bioimpedance analysis (BIA). Their BIA assessment is a noninvasive, 24-second analysis that provides insights from the inside out. Provide athletes with real data and track progress to support their training and fitness goals.

- seca's enhanced BIA technology is the result of a long-term collaboration with medical experts and researchers in the field of body composition
- Validated as the only BIA solution for all components with the most accurate reference method (gold standard). This includes the complex comparison with a whole-body MRI for muscle mass and the 4C model for fat mass or fat-free mass
- Rapid 24-second assessment of vital body composition parameters, e.g., percentage of body fat, visceral adipose tissue, skeletal muscle mass, and body water
- Educate athletes with custom visuals that show trend analysis and progress over time
- Integrated handrail ensures reliable, repeatable results
- Capacity: 800 lb/300 kg

TANITA

WB-800AS plus NTEP Class III Certified Legal for Trade Digital Scale

The WB-800 plus series scales are perfect for those instances where absolute measurement of weight gain or loss is a necessity. These incredibly durable, yet portable, professional-grade scales are perfect for any busy practice, gym, or clinic. Available in 3 formats: portable, with a column-mounted display, or with an integrated height rod. All feature an extended capacity and oversized low-profile platform, with instant-on activation of digital weight and BMI to accommodate a wide range of clients and patients with fast, accurate results. The RS-232 and USB outputs provide straightforward digital data for EMR integration. Separate digital display and a movable platform make this product perfect for those patients requiring a little more room, such as pregnant women and larger patients.

TANITA

TBF-400 Total Body Composition Analyzer

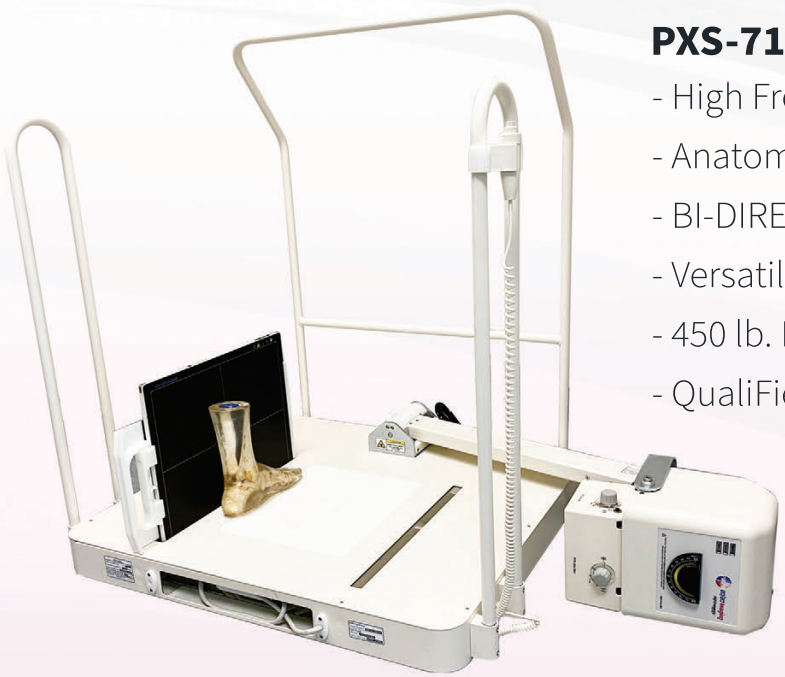

The TBF-400 features an industry-leading weight capacity of 600 lb. The user-friendly LED lamp-guided navigation makes programming simple. In less than 10 seconds a detailed analysis is provided on the built-in thermal printer—no need for special forms. Printed readings include weight, body fat %, fat mass, fat free mass, water mass, basal metabolic rate, and body mass index. Convenient indicator lights and graphs help the provider review the results. The TBF-400 can be configured as a portable model, or with a column kit to present a more clinical design. EMR-ready with multiple outputs, including RS-232, USB, and SD card. When used with Tanita HealthWare software (sold separately) the body composition data from the TBF-400 can be stored on a PC to provide custom data recording, tracking, and analysis for an unlimited number of users.

- Portable design is well suited for both in-office and remote/travel use
- High-capacity (600 lb), ideal for bariatric applications
- Oversized platform positioned low to the ground for easy on/off
- Within 5% of DEXA, at a fraction of the cost
- EMR-ready with straightforward digital outputs and optional Bluetooth wireless
- On-board printing—no special/costly paper required

Tiger DRX-C Podiatry

Most Advanced Cesium Flat Panel DR & X-Cel X-Ray Solution

The Industry Leading DR and Podiatry PACS Solution

Tiger DRX-C is the only true DR Panel X-Ray detector solution for the podiatry market. Using modern CESIUM technology provides superior image quality. Tiger DRX-C allows podiatrists the logical and modern solution when converting to Digital X-Ray or upgrading from older technology.

Tiger DRX-C comes with a handled detector encasement that is designed for increased maneuverability and durability. Our specialized encasement has been designed to fit exclusively into our ADA conformant orthoposer. At 3.5" tall, it's simple to position patients using X-Cel's exclusive tilt-head, bi-directional functionality.

TigerView is a Podiatry Specific PACS software that understands the needs of the practitioner and has been developed with 30+ different podiatry measurements. Comprehensive AP and Lateral tool sets provide for quick and efficient patient diagnosis. Reward yourself with the newest and most logical workflow designed to simplify the experience and enhance the interaction as you look at superior image quality.

Tigerview offers complete turn-key solutions. Available upgrades to the DRX-C solution: Wireless panel, TigerView CLOUD, TigerView Mobile, TigerView Portal and TigerView back-up.

Standard Tigerview X-Cel packages include:

- X-Cel bi-directional x-ray generator
- X-Cel ADA compliant ortho-base
- X-Cel ergonomic panel encasement
- 23" computer
- TigerView Podiatry PACS software
- Five viewing software licenses
- Bridges to EMR, EHS & PMS
- On-site install and training

THE IDEAL MINI C-ARM FOR YOUR CLINICAL

Advanced Touchscreen Interface

The advanced OrthoTouch™ user interface allows seamless operation of system controls while still allowing for keyboard functions. OrthoTouch™ provides a familiar experience — similar to a smartphone or tablet — that enhances interaction while viewing detailed anatomy.

24" High Resolution Monitor

With Mobile DI, the 24" high resolution diagnostic widescreen monitor* allows for a 20% larger viewing area. The 1920 x 1200 resolution provides exceptional image quality showing fine details of relevant anatomy and a wider viewing angle for increased visibility.

** DIN 6868-157 compliant*

Additional Procedures

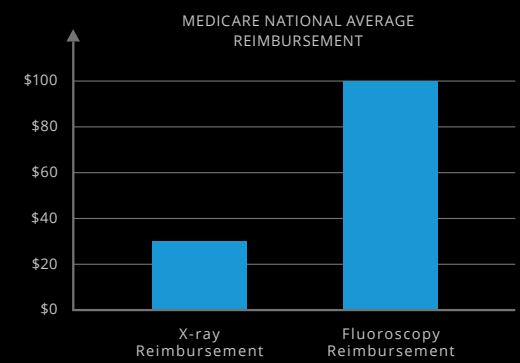

Mobile DI allows for additional procedures in the office, improved workflow, and patient satisfaction. Benefits include reductions in patient lead times and established CPT codes for increased reimbursement.

- Motion studies
- Weight-bearing views
- Joint stability tests
- Shallow pin removals
- Fluoroscopic needle guidance
- Stress views
- Dynamic views
- Unorthodox views
- Closed reductions
- Arthrography

Increased Reimbursement

With Mobile DI, fluoroscopy can be used in the office allowing physicians to bill for additional procedures. Medicare national reimbursement starts at $50–$100 and, typically, only 3–6 fluoroscopy procedures per week are required to recover the cost of Mobile DI.

- 76000: Fluoroscopy, up to one hour — $49
- 77002: Fluoroscopic needle guidance — $96
- 77071: Stress view — $49
- 73580: Radiologic exam, knee, arthrography — $119

Henry Schein®

ELECTROSURGICAL GENERATOR AND HIGH-FREQUENCY DESICCATOR

This electrosurgical generator is a high-frequency desiccator with cutting ability. One half of the unit is the Henry Schein High Frequency Desiccator. The other half is an electrosurgical generator that features 50 watts of cutting power and coag capabilities—plenty of power for most cutting procedures performed in the doctor's office.

- 40-watt high-frequency desiccator
- 2 machines in 1 convenient package
- Adjustable in 1⁄10-watt increments in the first 10 watts, in monopolar and bipolar
- No grounding pad is required during desiccation mode
- 4-year warranty

#A952
(570-0582)..... ea

Henry Schein®

HIGH-FREQUENCY DESICCATOR

Designed and engineered to be the most reliable and durable desiccator available today, this unit's life is prolonged by incorporating the latest in chip technology and reducing the number of internal parts, thereby generating less internal heat. Post-procedure and long-term cleanup are simplified by its nonabsorbing, nonstaining, high-impact plastic case.

- 40-watt high-frequency desiccator
- Adjustable in 1⁄10-watt increments in the first 10 watts, in monopolar and bipolar
- More accurate power with Universal Power Control 100-240 VAC
- Less to do and less to buy makes this the most cost-effective and user-friendly unit on the market
- This desiccator is a ground reference unit, which means no grounding pad is required
- 4-year warranty

(570-0583)..... ea

Bovie
Operating with precision™

Aaron® OR|Pro Electrosurgical Generator

The Aaron ® OR|PRO was designed in conjunction with OR clinicians to provide a safe, user-friendly generator to meet all operating-room procedure performance demands. This innovative, energy-based device offers 13 modes of surgical energy delivery. Special modalities include the advanced Bovie bipolar, auto bipolar options, and special laparoscopic modes.

- 10 doctor presets for quick setup between procedures
- Offers 2 modes of pure cut, 4 modes of blend, 3 modes of coagulation, bipolar coagulation and Bovie FCFS™ technology
- Designed with state-of-the-art safety features
- Backed by a 4-year manufacturer's limited warranty

Operating with precision™

Aaron Smoke Shark™ Smoke Evacuator

Designed to be easy to use and is extremely effective at smoke and particle removal at the operative site. While designed for use with all electrosurgical generators, it is also excellent for use in controlling laser smoke.

Features:

- Easy to operate
- Quiet and effective smoke evacuation
- Long-life, 18-hr filter
- Low cost per procedure
- Excellent particle capture

Vscan Air™

Wireless handheld ultrasound that enables whole-body scanning and delivers crystal-clear images.

It helps you make clinical decisions by quickly ruling in or out a wide variety of conditions, without compromising image quality for portability.

- Easy to use, intuitive to navigate and optimized for your mobile device*
- Complete both deep and shallow exams with a simple flip of the 2-sided probe
- Withstands everyday handling from scratches to drops and even a rainstorm**

Visit henryschein.com/GEVscanAir or contact your Henry Schein Sales Representative for a demo.

* Compatible with a variety of Android™ and iOS® mobile devices
** Probe withstands drops: tested to Military drop standards (MIL-810G). IP67 waterproof, compatible with high level disinformation techniques.

Active Boot Bumper

This sleeve is designed with a gel pad on the front and back of the ankle to absorb shock and protect from abrasion while releasing medical-grade mineral oil that moisturizes the skin. The Boot Bumper works best to protect the skin while wearing athletic footwear, including ski boots, skates, and cleats.
#7202, Large
(127-1520)..... ea

Active Ball of Foot Cushions

The thin gel cushion sits between 2 layers of fabric and fits easily inside most footwear and athletic shoes. The gel provides relief to the metatarsal heads and is ideal for relief from calluses, small neuromas, and metatarsalgia. Unique, 3-layer design for maximum cushioning. Absorbs shock and pressure on the ball of foot. Washable and reusable.
#7215
(127-1544)..... 2/pkg

Active Oval Lace Bite

Designed using an oval gel pad that guards the dorsal aspect of the foot from pressure, friction, and pinching from shoelaces. Protects against pain from ski boots, skates, cleats, and other athletic footwear.
#92846
(136-7733).....ea

SILIPOS® Innovative Gel Solutions™

Active Gel Bunion Sleeve

The gel bunion sleeve contains a soft gel pad between 2 layers of fabric. Cradles and protects the bunion from abrasion and pressure. The thin design easily fits inside socks and most footwear without getting caught or snagged. Anatomically designed to comfortably conform to the shape of the bunion. Washable and reusable. Hypoallergenic and not made with natural rubber latex.
#7213
(127-1516)..... ea

Active Gel Splints

The gel splint is ideal to wrap and immobilize jammed, sprained, and broken fingers and toes. The medical-grade mineral-oil gel provides a comfortable cushion between the affected fingers or toes that prevents rubbing or irritation. Can be worn underneath socks and in shoes. Washable and reusable. Hypoallergenic and not made with natural rubber latex.
#7218
(127-1510)..... 6/pk

Active Gel Corn Pads

The round gel pad relieves pressure and friction caused by corns, calluses, and blisters. The gel releases medical-grade mineral oil that moisturizes and softens the affected skin. Contains soothing vitamin E and aloe. Suitable for most shoe types and sizes.
#7205
(127-1523)..... 2/pkg

Cooling Dermal Pad

Assists in protecting the shoulder and back area from abrasion and friction during contact sports. Use with medical tape for best results.

SILIPOS® | Silipos.com

THE BEST GEL FOR ACTIVE LIFESTYLES

Cushions and Protects

Because of it's visco-elastic or fluid like nature, our patented gel absorbs impact, pressure, shock and vibration.

Insulates Against Friction & Irritation

Our Active Gel and amazing elastic moves with the skin reducing friction, abrasion and burning sensation.

Comfort for Sore Areas

Naturally supple and moist our Gel conforms to the contours of the body and stays in place so you can resume your active lifestyle.

Helps in Healing

This unique Gel helps to improve skin elasticity and is clinically effective in minimizing scarring.

Durable and Long-Lasting

Stretch it up to 50 times it's size, the Gel will not bottom out or lose its shape. It is washable and reusable yet will retain all its unique benefits. Odorless, nontoxic and hypoallergenic, the Gel does not support bacterial growth and is dermatologist tested.

X-large: Male, 9½+; Female, 10+ **(261-4610)**

MEDI-DYNE HEALTHCARE PRODUCTS

Tuli's® Heavy-Duty Heel Cups

Tuli's double-ribbed, heavy-duty heel cups are the most advanced shock-absorbing heel cups available today. The primary force of the heel strike is absorbed by the larger and higher waffle pattern while the lower and denser waffle pattern absorbs the high-pressure and final force spike of heel strike. Perfect for sports activities. Sold in pairs.

Heel Cups..... 1 pair/pkg

Specify:

Small, Under 80 lb	**(103-5237)**
Regular, Under 175 lb	**(582-3617)**
Large, Over 175 lb	**(582-3589)**

MEDI-DYNE HEALTHCARE PRODUCTS

Tuli's® Classic Heel Cups

Protect heels in biomechanically designed cradles that provide relief from heel pain. Tuli's patented multicell, multilayer "waffle" design absorbs shock and returns impact energy just like the system naturally found in feet. Sold in pairs.

Heel Cups..... 1 pair/pkg

Specify:

Regular	**(893-2803)**
Large	**(893-0266)**

MEDI-DYNE HEALTHCARE PRODUCTS

TuliGel™ Heavy-Duty Gel Heel Cups

TuliGel is a specially-formulated polymer that is lighter, softer, and more resilient than that used in other heel cups. The unique character of TuliGel, combined with our patented waffle design, provide the ultimate in shock and vibration absorption. Use for high-impact activities.

Heel Cups..... 1 pair/pkg

Specify:

Small, Under 90 lb	**(893-5283)**
Regular, Under 175 lb	**(893-3825)**
Large, Over 175 lb	**(893-5516)**

MEDI-DYNE HEALTHCARE PRODUCTS

Tuli's Polar Bears Dual-Density Heel Cups™

Cups combine state-of-the-art TuliGel™ with our patented waffle design to create a combination, along with the warranty, that ensures that you will be getting one of the best-performing, highest-quality heel cups in the world. Sold in pairs.

Heel Cups..... 1 pair/pkg

Regular, Under 175 lb	**(893-9672)**
Large, Over 175 lb	**(893-8795)**

PediFix Medical Footcare

Action Orthotics™, ¾ Length

These orthotics offer immediate, effective support for instant comfort and more natural foot function. The design helps bolster biomechanics, alleviating pressure and offloading uneven stress on the forefoot. Perfect for bunion afflictions. Arch support lifts weak or flat arches to soothe heel, leg, and lower-back pain. Deep heel cup supports stabilization of the foot by aligning it with the ankle, knee, and hip. ¾-length style fits atop existing shoe insoles.

Orthotics.....pair

DARCO ProMotion® Plus Full-Length Insoles

The ProMotion® Plus insole features a full-length Poron® cushioning layer that provides greater comfort and doesn't bottom out long-term. The polypropylene shell provides a stable and firm shape with a well-contoured heel area for maximum comfort. The blue polyester fabric is treated with antimicrobial protection to help reduce foot odors from perspiration.

Indications:
Over-pronation, plantar fasciitis/heel pain, foot and arch pain, ankle and knee pain.

Directions:
Remove shoes' existing insoles and replace with Darco ProMotion insoles.

Care instructions:
Wipe with a damp cloth. Do not submerse in water. Allow insoles to air dry.

Semi-Rigid Carbon Fiber Insert

Flexible carbon fiber shoe insert used for foot injuries that need additional support. Often used for turf-toe, mid-foot sprains, metatarsal stress fractures, toe fractures, prevention of recurring chronic injuries, and transition from rigid insert to semi-rigid as injury improves.

- Half the weight of spring steel inserts
- Twice as rigid as spring steel inserts
- Will not rust
- Can be used for either right or left foot
- Sold as each, not as a pair

PRO-TEC ATHLETICS

Metatarsal Lift Compression Pads

Alleviate conditions of “fallen" metatarsal arch, ball-of-foot pain, Morton's neuroma (irritated nerve endings), and bursitis. Provide comfortable lift to the central metatarsal heads, absorbs stress, and reduces strain. Felt is covered between neoprene and Cool Max material, increasing the pads' durability. Peel-and-stick application allows you to find correct location to target relief. Sold in pairs.

Pure Stride Orthotics

¾ Length and Full Length

Pure Stride Orthotics are only dispensed by medical professionals. They provide quick pain relief in the arch, heel, and metatarsals. These orthotics are made up of 4 layers to ensure comfort. The first layer is an antibacterial mesh, the second is a soft, heat-moldable EVA that helps cushion the foot, the third is a polypropylene shell, and the fourth is a high-durometer EVA. The heel area has a recessed, 2-cm Poron® layer to help cushion the heel. Sold in pairs for men and women.

#4013, Small: Men 5–6½; Women 6½–8½	**(728-2453)**
#4014, Medium: Men 7–9½; Women 9–11	**(728-0691)**
#4015, Large: Men 10–12; Women 11½–12	**(728-8195)**

Work Insoles

These insoles stand up to stress and strain, providing anti-fatigue support that won't quit. The ACE™ shaped by Superfeet insole sculpted heel cup and arch-hugging contours match that of the foot to relieve pressure on feet, knees, and back. Heavy-duty memory foam delivers support to combat foot fatigue on hard surfaces. The insoles mimic the way feet are intended to move. Ultra-plush forefoot pad adds cushion where it's needed most. Shock-absorbing heel cushion disperses impact from ground forces.

Insoles..... pair

Specify:

Medium, Men: 8½–11; Women: 9½–12	**(139-8688)**
Large, Men: 11½–14; Women: 12+	**(139-8689)**

Dr. Aktive OrthoSole® Thin

Orthotic insoles that improve weight distribution and alignment with customizable arches and a metatarsal design. These high-quality insoles provide a perfect solution for clinicians looking for an easy "fit and go" solution. Unique Poron® urethane layer and antimicrobial, abrasion-resistant top cover provide shock absorption and comfort, while the low-profile design allows them to easily slip into most shoes.

Powerstep®

ComfortLast® Cushioning Insoles

Maximum Cushioning, Full Support, Full Length Insoles combine shock-absorbing gel technology and slow-recovery foam for maximum comfort. Plush cushioning throughout the full length of the insole and shock-absorbing gel at the heel soften the impact of each step. Feature VCT® Variable Cushioning Technology, a high-performance foam formulation that provides targeted and controlled cushioning with a soft, supportive feel. Foam softens and conforms to the foot over time, taking a custom-like impression of the foot. The anatomically contoured shape incorporates an arch support and heel cradle for enhanced comfort. Ideal for all-day comfort in any dress, casual, or athletic shoe, or increased support while walking or jogging. Prevent and alleviate metatarsal, arch, or heel discomfort, and sore, aching feet.

Powerstep®

PowerKids® Pediatric Orthotics, ¾ Length

Affordable, easy-to-use, prefabricated orthotics specifically designed for children. Provide fit and function comparable to custom-made products. The fabric-covered Poron® top layer provides durable shock absorption and cushion for extended comfort with antimicrobial qualities. The firm EVA base is durable and supportive for active wear. The integrated 2° medial heel post and deep heel cup provide rear-foot stability and extra motion control by properly positioning and cradling the heel. The built-in arch support vertically lifts and supports the arch and restores proper alignment to the midfoot and forefoot. Easy to fit and can be transferred from shoe to shoe. Sold in pairs.

Pinnacle Dress Insoles, ¾ Length

These insoles combine a supple top cover and dual-layer cushioning for unparalleled support in an even lower-profile design. The semi-rigid support shell is firm but flexible, providing increased comfort and stability. The ¾ length with tapered edge leaves extra room at the toes. Ideal for preventing and alleviating pain associated with plantar fasciitis, heel or arch pain and discomfort, mild to moderate pronation and other common foot conditions caused or inflamed by tight dress shoes.

Insoles.....pair

Powerstep

Powerstep® SlenderFit™ Fashion Orthotics for Women

Designed with the female foot in mind! Features an ultraslim, tapered profile that fits in most women's fashion shoes, including high heels, wedges, pumps, boots, sandals, and more. These premium orthotics are similar to custom-made orthotics and come in a prefabricated design with a unique S-shaped shell that cradles the heel and provides full arch support in any shoe. Built-in metatarsal cushioning under the ball of the foot helps alleviate pressure for increased comfort and protection. Antimicrobial top-cover fabric helps provide odor protection and dryness in a discreet black color for inconspicuous wear. Easily transferable from one pair of shoes to the next, these supports are easy to fit and require no trimming. Black

Mid-Leg Sock

A quick, easy, simple, clean, and accurate casting system for taking a mold of the foot, ankle, and leg for use in the fabrication of virtually all types of AFOs, gauntlets, and high-top custom boots. The sock is designed to provide a cast/mold that comes up the leg to approximately the mid-calf area. Each box comes with 10 socks, one protective cutting strip and tube, as well as 10 protective barrier baggies.

Socks.....10/box
Specify:

Small, Women's 4–5½	**(450-0019)**
Medium, Women's 6–10; Men's 6–9½	**(450-0020)**
Large, Women's 10–12; Men's 9–12	**(450-0021)**
X-Large, Men's 12–15	**(450-0022)**
Variety:	
1 Small, 4 Medium, 4 Large & 1 X-Large	**(450-0023)**

Ankle Socks

A quick, easy, simple, clean and accurate casting system for taking a mold of the foot, ankle, and leg for use in the fabrication of selected AFO devices and traditional custom footwear. The sock is designed to provide a cast/mold that comes up the leg to approximately 3" above the ankle.

Socks.....10/box
Specify:

Small, Women's 4–5½	**(450-0024)**
Medium, Women's 6–10; Men's 6–9½	**(450-0025)**
Large, Women's 10–12; Men's 9–12	**(450-0026)**
X-Large, Men's 12–15	**(450-0027)**
Variety:	
1 Small, 4 Medium, 4 Large & 1 X-Large	**(450-0028)**

Slipper Socks

An innovative solution for taking a foot mold. Quick, clean application. Accelerated cure time within 2 minutes. Slips off easily. Excellent conformity to the plantar surface of the foot.

Socks.....10 pair/box
Specify:

Pediatric: Kids' 9–Adult 1½	**(450-0018)**
Small, Women's 4–5½	**(450-0013)**
Medium, Women's 6–10; Men's 6–9	**(450-0014)**
Large, Women's 11–12; Men's 10–11½	**(450-0015)**
X-Large, Men's 12–15	**(450-0016)**
Variety: 1 Small, 4 Medium, 4 Large & 1 X-Large	**(450-0017)**

Pedi-Quick® 2-Sided Foot File

HydraTherm Units and HydraHeat Packs

These lines of heating units and hot packs can be paired together to provide a cleaner, safer, and more efficient clinical environment. The heating units feature composite, polymer tanks that are easy to clean and resist rust, microbial growth, and mildew. The heat packs feature a nonporous skin that allows for treatment at lower and safer temperatures. Like the tanks, the packs are also bacteria-resistant, lowering the risk of cross contamination between patients.

immersion cooling pod

POLAR PRODUCTS

Polar Life Pod®

Features:
- Compact and portable design
- Packaged ready for use in a convenient and transportable gym bag that weighs less than 10 lb
- Unlike large, cumbersome tubs, the Polar Life Pod® can be easily stored, rapidly set up, and quickly implemented
- Rapid setup and immersion of patient
- Requires just 40–80 gallons of on-site ice water, depending on the size of the individual
- Fits patients up to 7 feet tall and 400 lb. Fold the foot of the pod under to adjust to the height of smaller individuals
- Floating head support fits snugly in the hood

HENRY SCHEIN®

SAFETY INSULIN SYRINGES WITH NEEDLES

- Transparent locking safety shield protects the health-care worker during transportation and after use of the device. Shield can be locked with either a right or left twist. An audible click is heard to confirm the final locked position
- Revolutionary orbit cover eliminates the need to recap the needle after draw-up of medication
- Low dead space reduces medication waste
- Clear and bold gradations are easy to read

SAM MEDICAL

SAM® XT Extremity Tourniquet

Engineered to preserve life. Weather-resistant hook-and-loop system functions when fully submerged, providing maximum security in the harshest weather. Durable nylon construction distributes force as targeted pressure for maximum strength and flexibility. Able to bend on smaller extremities without breaking. Innovative auto-lock technology activates locking prongs, eliminating slack typically found in other tourniquet applications.

PHCbi

You Don't Worry About Vaccine Viability UNTIL YOU DO.

It takes a fraction of a degree to destroy the value of a vaccine. That's why you need stable, accurate temperature storage for every dose you manage. Let us worry about the details, so you don't have to.

Minimize uncertainty with PHCbi brand products

HIBICLENS

Antiseptic/Antimicrobial Skin Cleanser

Hibiclens® is a gentle, liquid antimicrobial skin soap that bonds to the skin and provides up to 24 hours of continuous killing action. Hibiclens is proven to kill many harmful bacteria, including MRSA, viruses and fungi. Washing with Hibiclens before contact with potentially harmful germs will significantly reduce the risk of infection.

Indicated for use as:

- A surgical scrub
- A patient preoperative skin preparation
- A health-care personnel hand wash
- A skin wound and general skin cleaner

Clorox® Broad Spectrum Quaternary Disinfectant Cleaner

Fast and effective disinfectant kills most organisms in 2 minutes. EPA registered to kill 90 different pathogens, including HIV, Hepatitis B & C, MRSA, VRE. Kills TB in 5 minutes. Formulated with powerful, alcohol-free agents to clean tough messes on almost any surface, including plastic and rubber. No pre-cleaning required. Fragrance-free.

- 33% faster than a leading quat*
- Only quat registered to kill representatives of all ESKAPE pathogens*, which cause two-thirds of all HAIs
- Kills MRSA, HIV, TB, VRE, Hepatitis B and C, and more
- 90 kill claims
- Kills bacteria in 2 minutes
- Fragrance-free
- Cuts through grease with powerful cleaning agents
- Gentle on surfaces
- No precleaning required for general disinfection

32-oz Spray Bottle
(309-0093)..... ea

Clorox® Disinfecting Spray II

Fresh scented spray that cleans, sanitizes, and disinfects nonporous surfaces throughout the dental office, including metal surfaces. Simply wipe and allow the surface to air dry. Meets AOAC efficacy testing requirements. Bleach-free, phenol-free, EPA-registered disinfectant.

Clorox® Urine Remover

Tough Urine Stains and Odors Don't Stand a Chance
Quickly breaks down urine to eliminate odors, and removes stains with the cleaning power of hydrogen peroxide. Specially formulated for hard-to-clean porous and soft surfaces.
32-oz Spray Bottle
(250-0278)..... ea

Clorox® Germicidal Wipes with Bleach

Destroys tough bacteria, mold, and mildew at their source, eliminating the potential for transmission of various microorganisms, germs, viruses, and allergens. Specifically formulated for cleaning hard, nonporous surfaces. These products offer expanded kill claims, and a shorter contact kill time (30 seconds on most bacteria, 1 minute on most viruses). Complies with OSHA's Bloodborne Pathogen Standard and AOAC testing requirements for hospital disinfectant.
Wipes are 8¾" x 9".

Stat*M* 2000 G4 Autoclave

The same renowned and trusted autoclave but with a new, contemporary look and connectivity that is the first of its kind. Its advanced technology allows a direct channel of communication through the Internet. Still powered by SciCan's signature steam technology to provide sterilization and dryness at speeds faster than conventional chambered autoclaves, the STAT*M* has been drastically upgraded with an extremely high level of interactivity.

Dimensions: 5.9"H x 16.3"W x 19.5"L
Cassette Size: 1.4"H x 7.1"W x 11"L

- Cycle times: 6 minutes unwrapped, 14 minutes wrapped
- Large 3½" high-resolution touch screen offers a vivid display of messages and current cycle information, all with extraordinary clarity
- Technology offers a platform with endless possibilities. The product expansion and modes of communication will provide visibility from every facet, from usability to troubleshooting
- Uses fresh, steam-distilled water with every cycle
- Dri-Tec drying system for fast dry loads

(138-7207).....ea
Contains: 1 of each: cassette, waste bottle, drain tube, instrument rack for wrapped & unwrapped instruments & STATmat.

Rigidlite Gameday Kit

Comes with 10 removable modules that feature the RigidLite Tape Carrier and 9 clear-top zippered bags made from components that keep their shape when empty. These modules and bags allow for maximum customization of your kit and give you quick access to your supplies. “Slick” nylon side fabric ensures modules slip in and out of the kit with ease. Kit is constructed out of a rigid PVC skeletal system to provide structure, support, and organization by creating custom compartments for each of the 10 modules and preventing crushing of the bag. The kit’s outer shell protects your valuable equipment using a combination of thermoformed rigid foam and a rigid polyethylene shell laminated with 1680 ballistic nylon and ripstop materials.

Dimensions: 19" x 14" x 11"

(134-8712).....ea

STATPACKS

G3 Responder

This large-sized street pack is designed for medics who carry more. Boxy and compact, with ergonomic hauling, its unique design keeps the shoulder straps off the ground when accessing contents. Internal cells stack neatly and securely in many different configurations. This pack accommodates the First Aid QuickRoll Intubation Kit, Circulatory Kit, and Remedy Kit, as well as the stackable Cellular System. The aluminum track creates a bomb-proof secure point for the shoulder straps that allows for comfortable transport of most emergency medical equipment. Up to 4 of the Generation 3 standard cells will fit inside as this is the largest size of the EMS backpacks that are designed to use the Cellular System. Red.

STAT PACKS
STAT PACKS
CARRY ONLY WHAT YOU NEED.

Medslinger

Single ergonomic shoulder strap and breathable padded back make the pack comfortable to wear. Sling design allows wearer to swing the pack to front for quick access to contents without removing the pack. Quick-release adjustable buckle makes the shoulder strap easy to get into and out of. Reverse coil zippers open and close smoothly without catching, yet the zipper chain stays protected from dirt and wear. Its 2 main compartments are efficiently organized with transparent and mesh pockets for quick identification and access to contents. Large zipper pulls allow easy, quick access, even while wearing gloves. Reflective piping and tie-down loops for added nighttime safety.

AED/O_2/Trauma Backpack Plus

Boasts the same organization as the Ultra AED/O_2/Trauma Backpack but features a slimmer profile and a more economical price. This rugged, multipurpose pack is designed for easy organization, secure transport, and quick deployment of an AED and accessories, an oxygen tank, adjuncts, a trauma pack, and ALS supplies.
Interior dimensions: 21"L x 13¼"W x 8½"D
Exterior dimensions: 23"L x 14"W x 12"D
#32470R, Nylon, Red
(387-1194)..... ea

Also available in 1000-Denier nylon: Black (BK), Green (GN), Orange (OR), Royal Blue (RB); or in universal precautions vinyl: Black (BKUP), Green (GNUP), Orange (ORUP), Red (RDUP), and Royal Blue (RBUP).

Custom lettering and logos available at an additional charge.

Ultra AED/O_2/ Trauma Backpack

Allows for storing an AED, oxygen tank, and trauma pack in one bag. Gain quick access to any supplies inside the gusseted compartments or with tie-downs in the bottom pocket. Top-front pocket contains 3 divided gussets, a flat pocket and elastic supplies. Side compartments contain flat pockets, pouches, and elastic for supplies. Main compartment is divided by a removable panel and has zippered and gusseted pockets. Its 3 color pouches with windows hold any combination of supplies on lid, and the 2 pockets behind the pouches can hold documents. Rear of the main compartment can secure a D- or jumbo D-size cylinder, and corners are reinforced to resist wear by the regulator.
Overall dimensions: 23"H x 19"W x 12"D
#32440G, Nylon, Green
(499-3102).....ea

Also available in 1000-Denier nylon: Black (BK), Orange (OR), Red (RD), Royal Blue (RB); or in universal precautions vinyl: Black (BKUP), Green (GNUP), Orange (ORUP), Red (RDUP), and Royal Blue (RBUP).

Custom lettering and logos available at an additional charge.

AED/O_2 Backpack

The most compact of Iron Duck's AED/O_2/Trauma Backpacks, this multipurpose pack accommodates all BLS supplies in one pack for ease of organization. Gain fast access to an AED in the lower-front pocket, and organize "first-in" supplies in the upper-front pocket. Lid panel contains 4 removable color pouches and 2 flat pockets. Main compartment offers access to a D- or jumbo D-sized cylinder tie-downs; top and bottom corners are reinforced with hard plastic to prevent wear from the regulator. Mesh pockets in the same compartment hold airways, masks, and cannulas. Choose any carry option: handles on the top or side, a removable shoulder strap, or backpack straps. Strap storage pocket accommodates cervical collars.
#35132GR, Nylon, Green

Also available in 1000-Denier nylon: Black (BK), Orange (OR), Red (RD), Royal Blue (RB); or in universal precautions vinyl: Black (BKUP), Green (GNUP), Orange (ORUP), Red (RDUP), and Royal Blue (RBUP).

Custom lettering and logos are available at an additional charge.

IDX Module Packs

Expandable Drug Module stores medications in a compact case. Its notebook-style binding holds drug cards. Left side of the main compartment is configured with a flat pocket under 3 flat pockets covered by a row of elastic tacking to hold prefilled syringes. Right side offers an elastic pocket to hold Stick-It or Sharps Shuttle. Red.

Intubation Module organizes intubation supplies in a compact case. Inside left panel contains a flat, zippered pocket with elastic tacking for blades. Center panel is configured with a row of elastic tacking at the top to accommodate airways; a clear pocket holds ET Tubes. Inside right panel is configured with 2 clear pockets with elastic tops to hold topical anesthetics, lubricating jelly, adult and pediatric stylets, bite sticks, and CO_2 detectors. Green.

IV Module carries a complete set of emergency IV supplies in a trifold-style, compact case. Inside left panel contains a clear pocket for tourniquets, alcohol preps, 2" x 2" pads, occlusive IV dressings, and saline locks, plus a row of 5 elastic loops for syringes. Inside center panel contains 2 clear vinyl pockets and 2 stacked clear vinyl flat pockets, plus a convenient tape dispenser. Inside right panel contains 3 elastic clear vinyl pockets: top pocket can hold a 50-mL to 1,000-mL bag of IV solution, the other 2 pockets can hold a 10-drop IV set and a 60-drop IV set. Yellow.

Active Ankle AS1PRO

This new ankle brace is for athletes who prefer the comfort and mobility of a lace-up with the added support and security of tape.
Features:
- Nonstretch vertical straps imitate the effects of the heel-lock technique in a tape-job
- 840 denier nylon shell is lined with neoprene for the highest level of comfort and fit
- New Pro Fit shell and forefoot cut for better fit and function
- Circumferential strap stabilizes and secures the brace and prevents slippage
- Speed-lacing eyelets offer fast application and greater comfort

Aircast® A60™ Ankle Support

Uses a pair of sleek stabilizers molded at a 60-degree angle to help prevent ankle sprains. Located on each side of the ankle, the stabilizers guard against ankle rollover by securely holding the ankle in place. Patented Breath-O-Prene® fabric keeps the A60 cool and comfortable while the anatomical design fits easily in athletic footwear without adding bulk. A single strap is used for both application and adjustment, eliminating time-consuming lacing.

MUELLER SPORTS MEDICINE

Soft Ankle Brace with Straps

Comfortable lightweight brace helps prevent ankle injuries and protects weak or injured ankles. Secure stirrup straps provide support on both sides of the ankle while the adjustable nonstretch stabilizing straps imitate effects of taping the ankle. Strong, 1000-denier polyester material eliminates the need for metal eyelets. Lighter than comparable braces on the market, and fits in most shoe styles. Fits either foot. Black.

MUELLER SPORTS MEDICINE

The One® Ankle Brace Premium

Our best just got better! With its improved fit and slender profile, The One® Ankle Brace Premium feels like having your ankle professionally taped by an athletic trainer. It's a reliable way to help prevent common ankle injuries when playing, including ankle strains. Also great for rehabbing inversion ankle sprains and eversion ankle sprains off the court. The secure fit helps support the ankle by slightly restricting awkward and irregular movements to encourage healing.

Features:

- Speed lacing system: Quickly cinch boot for a snug, comfortable fit
- Figure 8 strapping: Adjust compression and tension around the ankle
- 360° forefoot band: Hugs the plantar fascia and arch for stability
- Grip texture: Reduces slippage inside shoe
- Breathable fabric: Reduces moisture buildup between skin and brace
- Ballistic nylon boot: Forms a durable, bulk-free fit that also helps manage moisture

Ankle Lok®

- Exclusive Ankle Lok® offset panel traps the laces between the inner and outer flaps to hold the laces tighter longer than any other brace
- Full elastic back ensures complete unrestricted blood flow to the Achilles tendon and virtually eliminates the chance for blistering
- Internal U-shaped spiral stays provide extra support and further minimize the chance for ankle injury
- Short curved, heat-sealed arch fits the contour of the foot and is seamless, so it doesn't irritate the bottom of the foot
- Triple layer vinyl laminate provides durability and comfort
- Exclusive padded tongue option makes it easier to slip brace on and off. Easier application and comfort for fresh sprains
- Fits either right or left

BAUERFEIND®

MalleoLoc® Ankle Brace

Provides excellent stability and protection without compromising mobility. Does not impede the ankle's natural ability to balance and react. Offset brace sits on the outside front of the ankle bone and on the inside back of the ankle bone to minimize ankle rolling. Fits directly over the structures most often injured and leaves heel free for natural stabilization. Ideal for severely sprained ankles, recent injuries, rehabilitation of chronic/severe ankle instability, ruptured lateral collateral ligament of the ankle, and severe ankle instabilities.

- Special thermoplastic material is low profile, comfortable, extremely lightweight, and fits any type shoe
- Adjustable Velcro® straps for comfort and precise fit
- Not made with natural rubber latex

PRO

Vice High Ankle Stabilizer

The Vice High Ankle Stabilizer is designed by a professional football athletic trainer to firmly but comfortably pull the distal fibula and tibia together to reduce stress and support the ligaments of the lower leg that are involved in a high ankle sprain injury. The Vice is constructed of 100% neoprene rubber. It utilizes a graded, high-density foam insert to provide medial stabilization that works in conjunction with the Tri-Strap system to maximize stabilization. A comfort heel-strap maintains proper positioning in the shoe. The Vice will not change shoe size, is engineered to be ankle-specific, and must be ordered right or left. It is available in Black only in sizes Small, Medium, and Large, and is fully washable.

ATF® 3 Ankle Brace

The ATF 3 is a hybrid of the ATF® 2 and the XLP ankle braces and replaces both of those models. Inversion sprains (rolled ankle) account for approximately 85% of all ankle sprains. The ATF 3 ankle brace features a patented internal strapping system that self-adjusts to support the anterior talofibular ligament. This system helps protect against rolling the ankle without restricting jumping, speed, or agility.

Features:
- Patented internal strapping: Auto-adjusts to help prevent rolling of the ankle
- Improved lacing: Faster lacing plus more comfort across the top of the foot
- Reengineered stabilizers: Firm support while allowing a full range of movement
- Comfort mesh: Vented fabric helps manage heat and moisture

DARCO

Standard Surgical Trauma Shoe

This surgical shoe, with its unique semirigid sole, is built around a patented MetaShank™ forefoot support that provides more rigid control and better protection after osteotomies. The breathable mesh upper conforms to bony abnormalities of the foot and has a reinforced heel counter and padded heel collar to stabilize the rear foot and reduce slippage. Extra-long straps accommodate even the bulkiest dressings. Shoe conforms to foot throughout entire gait cycle.

PediFix

ShoeZap™ UltraViolet Shoe Sanitizer

Shoes are warm, dark, and damp—the perfect breeding ground for germs that can infect your feet and make them smell. More effective than sprays and powders that can leave a toxic residue, ShoeZap® is the fast, easy way to kill fungus and bacteria that cause athlete's foot, fungal nails, foot and shoe odor, diabetic infections, and more. Keeps shoes microscopically clean, more hygienic, and safe to wear. One-size sanitizer fits all footwear styles and sizes, so ShoeZap® will disinfect every shoe in your home and family—men's, women's, teen's, and children's. Shoes are the only article of clothing we never clean—until now.

DJO GLOBAL

AirSelect Standard Walking Boot

Offers a moderate level of support and Aircast's quality, effectiveness, and comfort in an economical model. Has a durable, semirigid shell that supports the limb while providing protection. Housed within the shell are 2 adjustable distal air cells that provide compression and support the malleoli. SoftStrike technology absorbs and dissipates shock, while the lightweight and lab-tested rocker sole combine to encourage a natural gait and a continuation of everyday activities.

Main indications:
- Stable fracture of the foot, ankle, or lower leg
- Severe ankle sprain
- Postoperative immobilization

DJO GLOBAL

AirSelect Short Walking Boot

Offers a solution to a number of indications related to forefoot, midfoot and hindfoot injuries, as well as some ankle injuries. Has a durable, semi-rigid shell that helps support the limb while providing protection. The preinflated front panel and 2 adjustable distal air cells, housed within the shell, provide compression and support. SoftStrike technology absorbs and dissipates shock, while the lightweight and lab-tested rocker sole combine to encourage a natural gait and a continuation of everyday activities.

Main indications:
- Metatarsal fracture
- Stress and stable fracture of the foot
- Bunionectomy, hallux valgus
- Soft tissue injury
- Severe ankle sprain

DJO GLOBAL

AirSelect Elite Walking Boot

Advanced walking boot, engineered to provide the ultimate in protection, comfort, and edema control. Has a durable, semirigid shell that helps support the limb while providing full-shell protection. Overlapping Duplex™ air cells line the shell, providing intermittent pneumatic compression for faster edema reduction. The front panel is pre-inflated, and combined with the overlapping air cells, provides a "total contact" fit. SoftStrike technology absorbs and dissipates shock, while the lightweight and lab-tested rocker sole combine to encourage a natural gait and a continuation of everyday activities.

McDAVID
#414 Jumper's Knee Strap
Features a semi-tubular buttress in a neoprene strap with a Velcro® closure for graduated compression of the patellar tendon. Ideal for patellar tendinitis (jumper's knee; runner's knee) and Osgood-Schlatter's disease.
- Applies constant, mild compression at the patellar tendon through the use of a unique tubular, nonslip buttress
- Reduces symptoms caused by patellar tendonitis (jumper's knee/runner's knee), and Osgood-Schlatter's disease
- Adjustable hook-and-loop closure for custom fit
- Ideal for patella support while running and jumping
- Fits right or left knee
- Protection Level II: Advanced
- One size fits most

(101-7788)..... ea
Available in Royal, Scarlet, and Black.

Cho-Pat®
"Original" Knee Strap
Offers symptomatic relief for acute/chronic pain associated with patellofemoral syndrome, Osgood-Schlatter's disease, iliotibial band syndrome, chondromalacia patellae syndrome (runner's knee), and degenerative arthritis. It reduces or eliminates inflammation and helps prevent knees from giving out. Measure circumference just below kneecap. Beige.

Cramer
Patellar Tendon Strap
Uses a specially shaped, molded foam pad to compress the patellar tendon without uncomfortable constriction of blood flow to the lower limb. Strap has a low profile and slim silhouette, and won't migrate during activity. Nonreversible.

Black; one size fits all
(101-2073)..... ea

PRO-TEC ATHLETICS

Knee Pro-Tec Patellar Tendon Strap

"The Original Neoprene Knee Strap"

Provides compression on the patellar tendon, helping spread pressure uniformly across the patella, reducing discomfort and irritation. This compression may also help stabilize the patella, improving its tracking. In addition, it absorbs stress to the knee, reducing vibrations in the femoral groove. Made from neoprene, tubing, plastic loop, and Velcro®.

Knee Straps..... ea

Patella Stabilizer Knee Brace

The kneecap is subject to a number of issues, including patellofemoral malalignment (when the kneecap is not aligned properly) and patellar subluxation (when the kneecap gets pulled as the body moves). Wearing our Patella Stabilizer Brace can help the knee move properly and decrease wear and tear on the knee joint. It also helps prevent unnatural knee movement caused by patella tracking issues. The brace features an anatomically shaped buttress that provides better compression, support, and comfort all around the knee.

Features:
- Anatomically shaped buttress: Shaped for better fit and support, plus more stability and cushion
- Venting window: Provides more breathability behind the knee
- 360° straps: Secure a comfortable fit that helps the brace stay in place
- Alloy coiled springs: Provide firm support while allowing a full range of movement

MuellerHinge™ 2100 Protective Knee Brace–Redesigned

Fits either leg, right out of the package–no need to set the brace for right or left leg. Secondary compression wraps help hold the upper and lower cuffs in place, and improved hinge adhesion to the cuffs adds durability. The lengthened hinge cover with a hook-and-loop connection holds the hinge cover in place and has been strengthened for durability as well. The hinge pockets also have been strengthened. Designed to protect the knee from lateral blows in all positions, the MuellerHinge™ helps protect the medial lateral ligament and helps reduce the possibility of hyperextension injuries. The patented Triaxial Hinge tracks the knee motion and allows maximum mobility. Fits either knee. One size fits most: fits up to 26" (66 cm) thigh; 18" (46 cm) calf.

Adjustable Hinged Knee Brace

The Mueller Green Line is cool, comfortable, and earth-friendly. Made with a material that is manufactured without the use of petroleum. The green inner lining is manufactured with recycled plastic PET bottles. Packaging is all recyclable and the ink is soy-based to bring the commitment to the earth full-circle.

Self-adjusting brace provides maximum medial-lateral support. Ideal for weak, injured and arthritic knees. The soft, nonpetroleum neoprene blend retains body heat to help relieve pain, promote healing and keep knee flexible. Wraparound design for easy on/off. Maximum level of support.

Hg80® Knee Support

Technology is the Story

Introducing an extension of the highly successful super-tech Hg80® line of braces: new Hg80 Sleeves, with a unique moisture-management system that provides lightweight, breathable support for peak performance and recovery. The new Hg80® sleeves are made of smooth, comfortable materials that offer soothing compression and key support points with gel buttress.

Features:

- Designed to help relieve pain associated with arthritis and tendonitis
- Aegis Microbe Shield Technology protects against microbial growth, controls or eliminates odors, stains and deterioration of the support
- Gel buttress targets compression just below the kneecap to help relieve pain
- Flexible springs help support both sides of the knee
- Conforms to the body in motion
- Performance moisture-managing comfort and breathability
- Won't bunch or bind

#421 Patella Knee Support

One of the most popular knee supports. It features 2 medial and 2 lateral spring steel stayswith adjustable straps and a superior horseshoe buttress to aid patella tracking. It lends minor ligament support and helps relieve symptoms of chondromalacia, patellar subluxation, and patellar tendinitis. It also features a long, 3⁄16" thick neoprene sleeve with nylon facing on both sides. Contoured and sized for optimal fit.

- Helps relieve symptoms of chondromalacia, patellar subluxation, tendonitis, and offers minor ligament support
- Superior padded buttress relieves pressure from patella
- Spring steel stays for support
- Adjustable straps with hook-and-loop closure provides custom fit
- Latex-free neoprene provides thermal therapy and firm compression
- Fits right or left knee
- Protection Level II: Advanced
- Black

#422 Dual-Disk Hinged Knee Brace

Features 2 wider, more stable hinges than standard knee braces. Incorporates dualdisk hinge with a floating pivot point to better accommodate natural gliding action of knee. Wider arms help dampen forces more efficiently. Neoprene sleeve provides therapeutic warmth, while a sewn-on patellar buttress aids in patellar tracking. Long, 3⁄16" thick neoprene sleeve with nylon facing on both sides. Polycentric hinge offers advanced support over simple hinged brace. Includes hyperextension stops.

- Polycentric hinge offers more advanced support over simple hinged brace
- Latex-free neoprene provides thermal therapy and firm compression
- Seamless, breathable perforated back panel provides improved comfort
- Reinforced hinge pockets for greater durability
- Wider hinge paddles for better support
- Fits right or left knee
- Protection Level III: Maximum
- Black

Self-Adjusting Knee Stabilizer

Patent Pending

Designed with unique features to maximize comfort and performance. Criss-crossing elastic straps above and below the knee provide self-adjusting support and compression while the new, softer, perforated fabric increases breathability for comfortable, all-day wear. A double interior buttress helps support the kneecap and assists with proper tracking of the patella. Flexible steel springs further help support both sides of the knee, and the wraparound design allows easy on and off.

Black. One size fits 12"–16" knees.
(259-0001)..... ea

MUELLER SPORTS MEDICINE

Advanced Patella Knee Strap

Helps maintain kneecap alignment while walking, running, jumping, or climbing. The gentle compression helps relieve pain by absorbing high-impact shock. The integrated, bilateral strap connects directly to the buttress so the tension can be adjusted directionally (more or less on each side) for patella tracking issues. Can also be worn above the knee for IT band (iliotibial band syndrome) help. The Advanced Patella Strap can be used to help manage patellar tendonitis, runner's knee, patella alignment issues, chondromalacia, arthritis, Osgood-Schlatter disease, and general knee pain.

Features:

- Custom-molded buttress: Super-comfortable support without pressure points
- Bilateral strapping system
- Directional adjustment of tension (great for patella tracking issues)
- Shaped strap: Wider in back for better fit and comfort
- Low profile

BAUERFEIND

GenuTrain® Knee Brace

Soft silicone pad around knee leaves it pressure-free and massages the soft tissue, improving circulation and passive stabilization. Meniscus wings with massage nubs exert soothing intermittent compression at the synovial cavity to reduce pain. Hoffa spots on both sides of the patella tendon stimulate the infrapatellar fat pad, promote healing, and reduce swelling. Flexible plastic stays with defined flex zones have integrated donning and doffing aids, making it easy to put on and take off. Softer knit behind the knee for a smooth fit. Designed to be worn during activity. Ideal for pain, swelling, instability, tendinitis (jumper's/runner's knee), meniscus tears, pre- and postoperative inflammation, mild osteoarthritis, and Osgood-Schlatter disease.

- Comfortable knit is lighter and more breathable
- Machine washable
- Not made with natural rubber latex
- Made in Germany with the highest quality standards
- Endorsed by the National Basketball Athletic Trainers Association (NBATA)
- Measure loose circumference 4¾" below center of knee (first measurement) and 5¼" above center of knee (second measurement)

MUELLER SPORTS MEDICINE

Hinged Knee Brace

Features a triaxial hinge to track the knee's natural movement and help prevent mediolateral movement of the knee. Also provides support to weak, injured, or arthritic joints.

- 360° straps to help maintain positioning on knee while providing secure comfort around the leg
- Anatomically correct patella to help stabilize, cushion, and protect kneecap
- Spandex heat and moisture management window behind knee for comfort and breathability
- Helps prevent hyperextension of knee

BAUERFEIND

MyoTrain® Thigh Brace

Faster and easier alternative to taping for thigh muscle injuries, such as muscle fiber tears or pulls, myosclerosis, or bruising (thigh knock). Special combination of the breathable, anatomical knit, the strap system, and 2 different pressure cushions—which can be added or removed as required—allows swelling to subside more quickly and helps accelerate the healing process. Compression pads can be cooled and applied immediately after injury to provide targeted compression to injured muscles, minimizing bruising and swelling and shortening the healing time. Controls muscle tone and helps prevent repeated injury. It does not loosen with wear and pressure can be individually adjusted. Immediately following injury, an additional, smaller acute pad can add targeted compression to stop hemorrhaging and the spread of hematoma. Larger functional pad adds compression to the area around the injury to minimize the edematous swelling that typically arises. Anatomical knit provides a proprioceptive effect, even when used without the straps. Can be used for muscle injuries (cramps, pulls, ruptures, and tears); prevention, especially against repetitive injuries; bruising; and additional support for follow-up treatment of muscle injuries.

- Both pads (acute and functional) can be added and removed, or brace can be worn without pads
- Velcro® straps make it easy to put on and remove and provide individualized compression
- Superior, cost-effective alternative to constant taping and retaping of thigh injuries
- Made in Germany with the highest quality standards
- From the knee joint, measure the circumference of the thigh at ¾" above the knee (first measurement), then measure the circumference 11¾" higher from that point (second measurement)

Brace.....ea

LumboTrain® Back Brace

Helps stabilize the spine, increase circulation, loosen tense muscles, reduce pain, and improve mobility. Features a viscoelastic pad with 26 raised nodules to provide a stimulating massage effect to the lower back muscles with every movement. Soft, stretchy, and breathable knit fabric conforms to the body for a natural fit. Soft edges at the border will not dig in to skin. Brace and pad work together to increase stabilization and proprioception. Ideal for lower back pain, degenerative joint/disc disease, osteoarthritis, postural disorders, strain, instability, post-epidural spinal injections, post-facet joint block/injections, post-discectomy, and spondylolysis. LumboTrain Lady is specially designed to fit the natural curves of a woman.

- Improved knit material
- Velcro® fastening and hand straps allow for easy application and adjustment
- Not made with natural rubber latex
- Machine washable
- Loose measurement of waist circumference 1" below belly button

Sully® Shoulder Stabilizer

On the outside, elastic straps attach with hook to the neoprene at any point, in any direction, and with any amount of force you choose. You can functionally stabilize, assist, or restrict movement according to the specific needs of each athlete. On the inside, the perforated, breathable, rubberlike neoprene grips the skin so the support moves with the athlete. It's as if the stabilization straps are attached directly to the body. The Sully comes complete with a highly adaptable, bifurcated neoprene strap, and 2 additional 4" neoprene straps. Worn by professional and amateur athletes in all sports! Measure biceps in a non-flexed position.

BAUERFEIND® Omotrain® Active Shoulder Support

This uniquely designed, knitted shoulder support guides and centers the glenohumeral joint, promoting mobility but inhibiting rotation for proper therapy. An adjustable, anatomically contoured silicone insert lies on the shoulder and provides intermittent compression of the soft tissue, leading to increased circulation and decreased pain, swelling, and subluxation. Anatomical knit with graduated compression at the edges prevents constriction of circulation. Lightweight, breathable knit will not retain heat and sweat. Ideal for pain, rotator cuff rehab, subluxation, post surgery, osteoarthritis, and hemiparesis. Titanium color; machine washable.
Sizing: Loose circumference of the largest part of the upper arm.

*AEGIS Microbe Shield® antimicrobial treatment is intended to protect the brace against odor, staining, and deterioration caused by bacteria and microorganisms. This treatment does not extend protection to the skin.

Tennis Elbow Strap

Helps relieve the painful symptoms of epicondylitis. The strap utilizes a conformed, dual-density, molded foam pad to compress and absorb shock and vibration of the forearm muscles. Pad can be positioned for treatment of medial or lateral epicondylitis. One size fits all.

(267-7769).....ea

BAUERFEIND

EpiTrain® Elbow Brace

Knitted elbow support with 2 anatomical silicone pads that surround the epicondyles and lie over the flexor and extensor muscles. Silicone pads leave epicondyles pressure-free and provide intermittent compression to the soft tissue of the joint, increasing circulation and reducing pain and swelling. Promotes proprioception to heighten sensory awareness in the elbow, improving joint stabilization. Graduated compression at the edges prevents constriction of circulation and rolling. Ideal for epicondylitis, elbow strains or sprains, overuse syndromes, pre- and postoperative conditions, and chronic edema.

- Comfortable, lightweight, and breathable
- Does not retain heat
- Machine washable
- Made in Germany with the highest quality standards
- Sizing: Slightly bend arm, loosely measure circumference of arm 4¾" below the lateral epicondyle

Hurricane Series Girdles

For football players seeking enhanced protection for the thighs, as well as an alternative to padded pants. The 5-pad girdle has hip, tail, and thigh pads. The 7-pad girdle has hip, tail, thigh, and knee pads.

- Hip, tail and knee pads utilize Cramer's new closed-cell EVA Spider Web pad system with high-impact absorbency
- Hip pads are positioned at the top of the waistband to help protect the iliac crest
- Thigh pads wrap front to back and combine the EVA Spider Web pad system with a layer of plastic to enhance protection
- Waistband is 2" wide
- Entire garment, including pads, can be machine washed and dried

5-Pad Girdle, White..... ea

XLNTbrain Sport Symptom Tracking

The XLNTbrain Daily Symptom Checklist

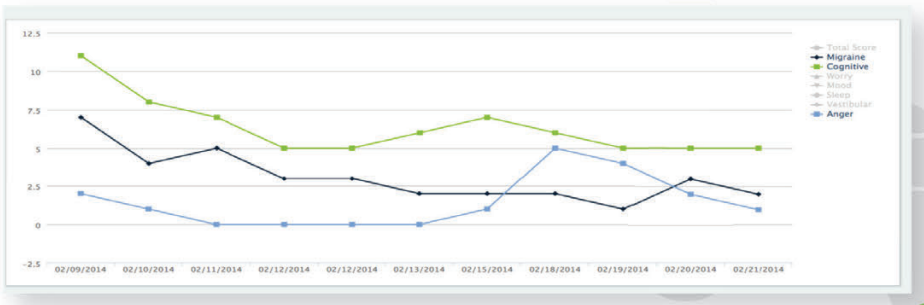

- **Assesses 35 concussion related symptoms across 7 domains**

- **Rated on a 0–3 scale**
  - Often and Very Often are Clinically Relevant

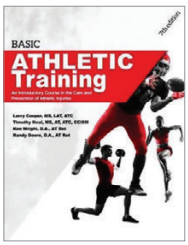

- **Reports are filterable by domain**

- **Symptoms are submitted at baseline and each day throughout recovery**
  - During concussion recovery an email reminder will be sent to the patient each day to remind them to complete their checklist
  - Symptoms filled out daily online or on smartphone app
  - Medical professional will receive a notification when there is a clinically significant change in symptoms
  - Ability to create an "Academic Recovery Care Plan" in accordance with the American Academy of Pediatrics Guidelines that has been mapped from the patient's symptoms

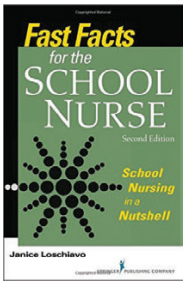

Basic Athletic Training 7th Edition

Includes updated text and all new anatomicals. Comprehensive instruction on the principles and practices of sports medicine and athletic training for beginning and intermediate students. An innovative CD-ROM allows you to view dynamic aspects of joint anatomy, dermatones and myotomes, and more.

Fast Facts for the School Nurse, 2nd Edition

By Janice Loschiavo, MSN, RN, HNCSN

This informative book will direct school nurses to the answers for many questions and to wiser counsel when a dilemma seems unsolvable. It is authored by a school nurse of publicly acclaimed distinction who brings a lifetime of experience to these pages. This concise reference provides quick access to information busy school nurses need every day to practice competently and efficiently. It is written for nurses who are transitioning to a school setting, yet has much to offer more experienced school nurses. The second edition has been substantially revised to address the Healthy People 2020 initiative to school-age children and their families, and to incorporate information about the push toward formal evaluation of school nurses. It discusses new technology and the effects of head trauma and other sports-related injuries on academic performance. New content, "Top 10 Timely Troublesome Topics for the School Nurse," deals with issues such as getting substitutes, and the prioritization of tasks for novice and substitute school nurses.

Human Brain Model

8-Part, Anatomical

Detailed model of the human brain that is medially divided. Both halves can be disassembled into the frontal with parietal lobes, temporal with occipital lobes, half of the brain stem, and half of the cerebellum. 5½" x 6¼" x 5½". Multicolor.

(136-7921).....ea

Heart Model

Anatomical, 2X Life-Size

This heart model is enlarged to twice the actual size for ease of observation and demonstration, making it perfect for patient education. Attachable/detachable bypass vessels allow demonstration of single-, double-, and triple-coronary bypasses. Use the bypass tubing, complete with built-in quick-connects, to instantly install single, double, or triple bypasses, representing grafts of the saphenous vein of the lower leg, to connect the ascending aorta to the coronary arteries. To demonstrate the anatomy of the normal healthy heart, simply detach all bypass vessels. Overall dimensions: 7" x 7" x 17". Multicolor.

(136-7934).....ea

Wolters Kluwer Health

Cervical Vertebral Column

A functional model of the 7 cervical vertebrae with normal intevertebral discs. Includes a segment of the spinal cord with the medulla, pons, cerebral peduncle, and nerve branches. Cannot be removed from stand. Not made with natural rubber latex. 5" x 6" x 7"

(840-3017).....ea

Mini Muscled Joint Model Set

Anatomical, ½ Life-Size

Set of 4 half-size joint models of the hip, elbow, shoulder, and knee. Education card size: 8¼" x 6¼". Multicolor.

(136-7933).....ea

Cervical Spinal Column Model

Anatomical, Life-Size

Full-size model features the occipital bone, brain stem, atlas and axis through C7 with herniated disc, T1, and T3. This model has a full nerve with the right side brachial plexus and a soft cerebellum. The muscles include levator scapulae, suboccipital triangle, longus capitis, and scalenus medius posterior and anterior. The right first and second ribs are also featured and include cartilage. 5½" x 6½" x 10" model with 6¼" x 8¼" key card. Multicolor.

(136-7929).....ea

Wolters Kluwer Health

Flexible Lumbar Section with Herniated Disk

Consists of 5 lumbar vertebrae, discs, sacrum, coccyx, spinal nerves, and spinal cord. Illustrates a dorsolateral prolapsed intevertebral disc. Sacrum has removable flap to reveal nerves. On stand, removable. 5" x 5" x 13"

Basic Resusci® Anne™ CPR Manikin

Designed to deliver comprehensive BLS training to EMS professionals. Provides realistic anatomical landmarks, compressions, ventilations, and head-tilt/chin-lift and jaw-thrust requirements to reinforce the correct techniques. Removable, decorated face is easier to replace. Uses the same convenient disposable airways as previous models. Features the Resusci® Anne™ Modular System "RAMS." This modular limb system allows the manikin to be configured for scenario-based rescue and advanced first-aid training in combination with CPR. Arms on full-body units are durable and allow more freedom of movement. Torso includes a track suit top; full-body unit includes a complete track suit; limb modules include a soft-pack carrying case.

MegaCode Kid

This realistic manikin is designed for training for a wide range of pediatric advanced lifesaving skills in prehospital emergencies. Programmable scenarios provide standardized training while customizable scenarios and real-time instructor controls allow adaptation to meet individual student needs. SimPad® PLUS system sold separately.
Features:
- Durable, rugged, and lifelike; made to withstand years of use
- Flexible manikin platform with multiple modules accommodates a wide range of training, including CPR, ACLS, trauma, first aid, and child-abuse awareness training in field, transport, and in-hospital settings
- Cardiac rhythms with synchronized pulses allow students to interpret and intervene using defibrillation, pacing, and drug administration
- Realistic pediatric airway for insertion of standard airway devices
- Realistic needle insertion and feel at the medial malleolus and tibial tuberosity for intraosseous infusion
- Intravenous drug administration via IV bolus or drip using the multivenous pediatric IV arm
- Allows for the auscultation of normal and abnormal heart, breath, and bowel sounds
- Speech increases realism of scenarios
- Preprogrammed and instructor-controlled scenarios can aid standardized teaching

Laerdal

MegaCode Kelly™ Basic Manikin (ECG Capability Only)

This realistic manikin is used for training in a wide range of advanced lifesaving skills in pre-hospital emergencies. It is educationally effective for training in advanced life support, targeting key skills of pre-hospital care providers. Preprogrammed scenarios provide standardized training while customizable scenarios and real time instructor control allows adaptation to meet individual student's needs. Optional accessories such as nuclear, biological and chemical (NBC), trauma, and bleeding-control modules add realism to the training scenarios.
Features include:
- Airway allows for insertion of standard airway devices including the LMA and Combitube
- Cardiac rhythms with synchronized pulses allow students to interpret and intervene using defibrillation, pacing, and drug administration
- Use of clinical monitors, defibrillators, and external pacers for practice of live interventions
- Instructor-controlled blood-pressure arm allows for realistic palpation and auscultation
- Systolic and diastolic pressures, ausculatory gap, and volume are variable
- Pupillary assessment of normal, constricted, and dilated pupils Intravenous drug administration via IV bolus or drip using the multivenous IV arm
- Chest tube insertion can be practiced at the left mid-axillary site, at the 4th and 5th intercostal spaces

Life/form® Advanced Venipuncture and Injection Arm

White
This revolutionary training arm provides complete venous access for IV therapy and phlebotomy, plus sites for intramuscular and intradermal injections. An extensive, 8-line vascular system allows students to practice venipuncture at all primary and secondary locations, including starting IVs and introducing over-the-needle IV catheters. The venous system simplifies setup with only one external fluid bag supplying artificial blood to all veins simultaneously. The dorsal surface of the hand includes injectable metacarpal, digital, and thumb veins.
(855-2899)..... ea

Life/form® Advanced Venipuncture and Injection Arm, Dark

Revolutionary training arm that provides complete venous access for IV therapy and phlebotomy, plus sites for intramuscular and intradermal injections. Extensive 8-line vascular system allows students to practice venipuncture at all primary and secondary locations, including starting IVs and introducing over-the-needle IV catheters. Venous system simplifies setup with only one external fluid bag supplying artificial blood to all veins simultaneously. Hand's dorsal surface includes injectable metacarpal, digital, and thumb veins. Antecubital fossa includes the median cephalic, median basilic, and median cubital veins. Venipuncture can also be performed along the basilic, cephalic, accessory cephalic, and median antebrachial veins. Intramuscular injections may be performed in the deltoid muscle, and intradermal injection sites are located in the upper arm. Intramuscular injections into the deltoid muscle are enhanced by the soft, lifelike skin and by the natural bony landmarks in the region. When using distilled water, intradermal injections will create characteristic skin welts at designated sites on the upper arm. Soft, flexible fingers are molded separately and include fingerprint details. Flexion of the wrist helps students develop manipulation skills. Replaceable skin rolls as the veins are palpated, and a discernible "pop" is felt when entering the veins. Valves in the veins can be seen and palpated on the skin surface. Simulated veins and skin are completely replaceable. Complete replacement kits are available and easy to use. To extend the life of the veins, an aerosol sealant is available to seal punctures and prevent leakage. 5-year warranty.
Complete Venous Access:
- Basilic vein
- Cephalic vein
- Digital vein
- Dorsal metacarpal vein
- Median basilic vein
- Accessory cephalic vein
- Extensive venipuncture system
- Flexible fingers and wrist
- Intradermal injections
- Intramuscular injections
- Median antebrachial vein
- Median cephalic vein
- Median cubital vein
- Replaceable skin and veins
- Thumb vein

Life/form® Adult Injection Training Arm Kit

Simple and easy to use, Life/form® Venipuncture and Injection Training Arms are the ideal way to teach venipuncture and injection techniques, including starting IVs and introducing over-the-needle IV catheters. This simulator ends the problem of finding willing volunteers, and helps to avoid patient injury and liability while students are learning new procedures. Realism begins with fine detail—right down to the fingerprints. But most important is the realistic feeling of puncture through the vinyl skin and latex veins. The skin actually rolls as you palpate the vein and the characteristic "pop" can be felt as the needle penetrates the vein. Veins are accessible at the antecubital fossa, along the forearm, and at the back of the hand, making it possible to practice venipuncture at any of the common sites. Practice of intramuscular injection is equally realistic. A foam pad simulates muscle tissue, and the boundaries are identified by natural bonelike landmarks. Life/form® Venipuncture and Injection Arms are designed with replaceable skins and veins. Complete replacement skin kits are available and easy to use. To extend the life of each skin/vein set, an aerosol sealant is available to seal punctures in the tubing and prevent leakage. Fluid supply stand not included. 5-year warranty. Size: 35" x 12" x 6".

Contains: A Life/form® arm with skin, 22-ga needle, butterfly set, infusion set, 3-cc syringe, 12-cc syringe, 1 pint Life/form® blood, fluid supply bags, instruction manual & hard carry case.

Nasco

Life/form® Airway Management Trainer

Simulates a nonanesthetized patient for practicing intubation, ventilation, suction, and CPR techniques. Features a durable, rugged, molded 1-piece construction as well as realistic size and anatomy. Anatomy and landmarks include nostrils, teeth, tongue, oral and nasal pharynx, larynx, epiglottis, arytenoids, false cords, true vocal cords, trachea, lungs, esophagus, and stomach. Allows users to practice oral, digital, and nasal intubation, as well as ET, EOA, PTL, and Combitube® insertion. Proper cuff inflation may also be practiced and evaluated.

Pediatric ALS Trainer

Accepts NG tube. Comes with soft carry case. Dimensions: 26" x 8" x 8". Ship weight: 6 lb.
Features:
- Bag-valve mask ventilation
- Intubation head
- Oral or nasal intubation
- Sellick's maneuver
- 3-lead monitoring
- Brachial pulse
- External chest compressions
- Jaw thrust
- IV sites in hand and arm
- 2 I/O legs for intraosseous needle insertion and aspiration of bone marrow
- Scalp vein for palpation
- Cranial sutures and fontanels.

Adult ALS Trainer with Carry Bag

Trainer includes teeth, uvula, vocal cords, glottis, epiglottis, larynx, arytenoid cartilage, trachea, esophagus, and inflatable lungs and stomach. Has oral and nasal airways for intubation. Use with manual, semiautomatic, and automatic defibrillators (AED). Rhythm recognition featuring 16 rhythms and variable heart rate. Package includes CPR head and soft carry case. Dimensions: 38" x 19" x 10". Ship weight: 31 lb.
Features:
- Anatomical landmarks including sternum and ribcage plus substernal notch
- Bag-valve mask ventilation
- Delivery of supplemental oxygen
- Palpation of carotid pulse
- ABC assessment
- Separate right and left lungs
- Auscultation of breath sounds
- Chest compressions and precordial thump
- Jaw thrust
- IV sites in hand and arm for venipuncture, intramuscular injection site
- Blood-pressure cuff placement

Nasco

Life/form® Advanced Child Airway Management Torso with Defibrillation, ECG, and AED

Trainer offers tongue swelling and laryngospasm in addition to all the features on the standard models. This trainer is perfect for practicing skills on pediatric patients and represents the size of a 5-year-old patient. Practice intubation, ventilation, suction, CPR, and jaw-thrust techniques. Realistic anatomy and landmarks include teeth, tongue, oral and nasal pharynx, larynx, epiglottis, arytenoids, false and true vocal cords, trachea, lungs, esophagus, and stomach. The trainer allows the user to practice oral, digital, and nasal intubation, as well as ET (endotracheal tube), EOA (esophageal obturator airway), PTL (pharyngeal tracheal lumen), LMA (laryngeal mask airway), EGTA (esophageal gastric tube airway), Combitube®, and King System insertion. Separate lungs for auscultation. Manual carotid pulse. Inflatable stomach bladder indicates esophageal insufflation. With its slightly anterior position, swelling tongue, and vocal cords, this trainer is great for introductory as well as advanced training. The trainer, with chest skin, allows the user to practice defibrillation using standard manual, automatic, or semiautomatic external monitor defibrillators. An internal load box absorbs the full strength of every shock to protect students and equipment. It is also possible to monitor the manikin, just like a real patient. Trainer is compatible with all standard brands and types of defibrillators, monitors, and patient simulators. Features 4 ECG sites and 2 defibrillation sites. Torso is designed to be the foundation of the Life/form® Child CRiSis™ system. Arms and legs can be added later to provide IV access, intraosseous infusions, and blood-pressure monitoring. Includes Interactive ECG Simulator (#LF03670IU), and Universal AED Trainer (#LF03740U). 5-year warranty.

STAT Manikin

This 6-ft, 1" STAT manikin demonstrates a giant step forward in manikin design. Joint range of motion is near human, and pinching in jointed areas is a lost art. Rib-cage motion mimics lifelike respirations. Multiple pulse points demonstrate blood pressure variations. Skills include: pulse, CPR, IM injection, advanced IV, intubation, 4-lead monitoring, and chest tubes.

(108-3018)..... ea

Nasco

Life/form® 15-Lead ECG Placement Trainer

Teaches up to 15-lead ECG electrode placement anatomically and provides visual feedback on the accuracy of electrode placement. Students will learn the placement of the electrodes on the adult trainer using anatomical landmarks such as intercostal spaces, midclavicular line, anterior axillary line, midaxillary line, and scapula. Features connection sites for 4 limb leads and V1 through V9, with the ability to attach right- or left-sided electrodes. The trainer does not provide ECG output signals, but simulations of rhythms and hands-free defibrillation can be performed by adding any ECG arrhythmia simulator directly to an ECG monitor. 5-year warranty.

Nasco

Life/form® Auscultation Training Station

Included with the Life/form® Auscultation Trainer and SmartScope™ (#LF01142U), the Auscultation Practice Board guides students through the transition from anatomical drawings to a 3-dimensional torso. Using the same technology as the Auscultation Trainer, the Anterior Auscultation Practice Board (#LF01190U) will cause the SmartScope™ to emit various sounds dependent on the location of the stethoscope. Includes Amplifier/Speaker System (#LF01189U), and Posterior Auscultation Board (#LF01199U). 5-year warranty.

(122-1182).....ea

Nasco

Life/form® Auscultation Trainer and Smartscope™

The instructor selects from a menu of heart and lung conditions by wireless remote control. The manikin presents itself as a real patient without visible auscultation sites. The student must palpate to identify correct auscultation locations, and will hear different heart and lung sounds as the Smartscope™ is moved to different locations on the manikin. A diagnosis of the condition selected by the instructor can be made by comparing the variations in sounds occurring at different sites—just like a real patient. Lung sounds can be detected at 5 anterior, 10 posterior, and 2 midaxillary locations. Students can practice auscultation at 6 anterior heart sites. The remote control does not have to be pointed directly at the manikin or SmartScope to operate. One remote control will operate all SmartScopes within a 100-ft range. Great for group instruction. Listen to the sounds by either using headpieces on the SmartScope or by connecting to an amplifier/speaker (not included). Range on the unit is up to 100 ft of remote access. Operates using 2 AA and 2 AAA batteries (included). 5-year warranty.

Lung conditions to select with the remote: bronchovesicular, bronchial, cavernous, coarse crackle, egophony, fine crackle, friction rub, infant, mono wheeze, normal lung, pectoriloquy, pulmonary edema, rhonch, stridor, vesicular, and wheeze.

Heart conditions to select with remote: aortic regurgitation, atrial septal defect, holosystolic, midsystolic, mitral stenosis, normal, PDA, pulmonary, stenosis, S3 gallop, S4 gallop, systolic click, and VSD.

Features:

- Invisible auscultation sites
- No internal speakers
- Completely wireless
- Palpable landmarks
- Remote controlled
- Heart and lung sounds vary at different sites
- Hard storage case included
- 5-year warranty

(132-0661).....ea

FEI

APT Performer

An active passive trainer (APT) device used for rehabilitation of the upper and lower extremities with improved features that benefit both patients and clinicians. While it includes industry-standard strength and symmetry training modes for upper and lower extremities as other active passive trainers on the market, only this device incorporates fine motor skills, allowing clinicians to assess patient progress in a whole new way. Its simple-to-use interface allows for a quick training setup with a bright 8" color touch screen that tilts and rotates for viewing ease and comfort. Treatment parameters can be customized and saved for future use with unique, engaging gameplay for all training programs.

#10-5990

(143-3925).....ea

CanDo

Heavy Duty Deluxe Pedal Exerciser

Comes with an LCD monitor. An inexpensive and portable exerciser for both the upper and lower body. Its wide leg spread and nonmarring feet keep it stable, even when patient has little muscle control. Wraparound, adjustable foot straps are ideal with or without shoes. Adjustable tension allows for easy changes in pedaling difficulty level. Unit can be used on the floor for foot pedaling or on the tabletop for hand pedaling.

#10-0717

(132-0432).....ea

CanDo

Pedal Exerciser

Portable lower- and upper-body exerciser. Use when exercise bicycle is not available or is contraindicated. Wide leg spread and nonmarring rubber feet keep exerciser stable even when patient has little muscle control. Wraparound adjustable footstraps for use with or without shoes. Assembled.

TRUEStretch 800S

- Provides a contained stretching area that allows users a safe platform for stretching to increase flexibility and reduce the risk of injury
- Eliminates the need for floor-based stretching or leaning uncomfortably over other equipment or an exercise ball
- Comes with an easy-to-follow exercise placard that is organized by muscle groups, features 30 different stretching exercises, and is displayed on the frame
- 7'9"H x 4'W x 5'D

(101-0027).....ea

SPIRIT FITNESS

AB900 Air Bike

This durable and comfortable bike is ideal for the rigors and hard use that a multiuser environment dishes out. This classic design of a classic modality is specifically engineered for the commercial environment, but its compact size makes it suitable for a home gym. Air-driven resistance delivers a simultaneous upper- and lower-body challenge. Its frame is made of commercial-grade structural steel. Dimensions: 37" x 13" x 52"

#10-7240

(138-5761).....ea

Assault AirBike

This stationary bike is air-based and upright with handles. The air-resistance system offers as much resistance as one can handle, by increasing as the user pedals harder. Its dual-action design synchronizes arm and leg movements to replicate natural motion.

#2003-01

(123-8422).....ea

Shuttle Balance

Able to be used in any environment, the Shuttle Balance is a safe, unstable platform that is portable, inexpensive, and has a small footprint. With a winning record of positive reviews from physical therapists and athletic trainers, it is used extensively in vestibular, balance, vision, and proprioceptive training programs. The Shuttle Balance simulates a slip-through motion in all horizontal planes and perturbates in both standing and seated positions for therapeutic and sport-specific treatments (fall prevention, whiplash, contact sports). Patients are challenged across all ability levels by adjusting platform height, stability, and degree of tilt.

Freemotion Dual Cable Cross

Enhances strength by allowing users to perform movements that mimic sport-specific activities. Functionally trains the muscles of the entire body to work together while building stability and coordination.

Features:

- Swivel pulleys: Pulley design ensures fluid cable travel and provides nearly unlimited range of motion
- Independently rotating arms: Each arm rotates vertically and horizontally with 12 vertical and 9 horizontal settings to accommodate virtually any movement pattern. Arms are counterbalanced for easy positioning.
- Independently moving handles: Handles can move independently for virtually unlimited exercise
- ADA compliant: Compliant with Americans with Disabilities Act for wheelchair accessibility

(135-5038).....ea

PB Extreme Adjustable Weight Bench

- Bench has a hydraulic piston assist for quick and easy workout adjustments
- Bench back adjusts to 5 positions (flat to 82°) and the seat can adjust to 5 positions as well
- Welded frame for strength and durability
- Handle and wheels allow for easy movement around the gym
- Measures 53½"L x 24"W x 18½"H when flat

Sandbells

This cross between a sandbag and a dumbbell is great to use for all dumbbell, kettlebell, medicine ball, and body-weight exercises.

- Disc shape challenges grip strength and gives it an unpredictable shape
- Made of a tough, stretchy neoprene—soft and safe!
- Each sandbell now comes filled, so there is no need to add material

Pro Fitter Exercise & Strengthening Products

Increases cardiovascular endurance and strength, and enhances muscle tone. A unique fitness trainer, the Pro Fitter improves the functional elements of balance, coordination, time, spatial awareness, and motor skills. Quiet, lightweight, durable, and low-maintenance, it helps in the redevelopment of strength and proprioception after hip, knee, and ankle injuries, and offers improved core stability for back, shoulder, and neck injuries. Whether it is part of an exercise or rehabilitation program, the Pro Fitter is the right choice.

Pro Fitter is shipped to you 100% assembled, and includes a rocking base Pro Fitter with fully independently flexing/rotating foot pads, 6 instantly adjustable tension settings, a 29-minute video, an information kit with a 2-year limited warranty, and a laminated exercise chart.

Mini Bands

Mini-Band lateral resistance tubing has a durable design—the bands will stretch up to 3 times their length. Effective for both upper and lower body training. By using resistance bands for dynamic warmup, you can target the hip and shoulder complexes. When used in conjunction with other exercises, these band sequences can help activate the core, as well as prime movers, synergists, and stabilizers in the hip and shoulder area. Mini Bands are 9"L x 2"W. Use them for lateral steps, leg extensions, and shoulder stabilization exercises. Monster Band is 20"L x 2"W. Use it for monster walks or for people over 6'2".

THERABAND®

TheraBand® High Resistance Band

Designed to improve sports performance, elevate fitness, and increase strength. The launch of TheraBand's highest resistance level bands comes with new, easily identified colors matching the progressive resistance levels. An ideal solution for improving flexibility, injury rehabilitation, and full-body workouts. In addition, each band includes a new visual resistance indicator that helps beginners and professionals visualize performance and improve technique.

- 41" loop, ¼" thick
- 4 easily identified colors of progressive resistance
- Ideal for assisted pull-ups, power lifting, Pilates, targeted stretching, toning exercises, and full-body workouts
- Great for adding tension to common exercises
- Comes with safety instructions and exercise chart
- Made from a highly durable, natural latex rubber

PERFORM BETTER

Superbands

Superbands are thick, extra-strong resistance training bands designed for heavy-duty exercise. Great for assisted chinups and dips, for developing lateral speed and forward acceleration via various walk, shuffle, lunge, and run-in-place exercises. Can be used during weightlifting to overload the bar and add resistance to exercises like the bench press, squat, and dead lift.

- Extremely effective for both upper and lower body training
- Can be used for a variety of strength, speed, flexibility, and rehabilitation exercises
- Extra-strong, long, 40" resistance bands designed for heavy-duty use

EXERTOOLS

Premium Dual Multi-Slant Board

Bends easily into 4 adjustable angles (10°, 20°, 30°, and 40°). Each independent foot plate locks in place for each angle setting. Folds flat for storage. Great for stretching and strengthening exercises.

(897-0036).....ea

PERFORM BETTER!

Regular Economy Balance Pad

Helps improve joint stability, overall strength, and alignment by creating a destabilized surface. Body weight causes person to sink into the soft mat, creating instability while performing exercises. Stand on the balance pad while performing squats, lunges, deadlifts, and reaching touches to improve stability and strength in the lower body and core. Advanced athletes can perform these moves on a single leg.

- Great for planks, push-ups and core work
- Dimensions: 17"L x 15"W x 2½"H

(131-8654)..... ea

PERFORM BETTER!

Airex Foam Balance Beam

Balance beam has a trapezoid design. Use with the wide side down for greater stability, and narrow side down for more instability. A great tool for working on static and/or dynamic balance, stabilization, and proprioception. Because of its yielding foam, the balance beam constantly challenges the user to maintain balance and to stabilize joints.

- Walk, step, or lunge across the balance beam to improve proprioception and dynamic stability
- Has the same material and gel-like feel as the Airex Balance Pad
- The soft, closed-cell foam is sanitized, does not absorb water, and is easy to wash
- Measures 64"L x 2½"H. Width is 9½" at the bottom and 6½" at the top
- 1-year guarantee

(119-9351)..... ea

AIREX®

Airex® Balance Products

Airex® foam balance pads and shapes for vestibular training and exercises. The difficulty level can be increased by stacking pads. These can be used for individual or group use.

BOSU®

Bosu® Balance Trainer Ball

Four products in 1: Stability Ball, Balance Disc, Wobble Board, and Plyo-Box. With the "bubble" side up, you can sit, stand, lie, kneel, or jump. With the Platform side up, you can do push-ups or even stand on it for an advanced balance workout. Virtually any exercise that can be performed on the ground can be performed on the Bosu, making that exercise more challenging and fun. Can be used for all training levels. More air makes the ball more stable. Not made with natural rubber latex, burst-resistant material is designed to hold people up to 350 lb. Weighs less than 13 lb. Measures 25" in diameter and 12" high when fully inflated.

ValSlide®

The ValSlide is a pair of discs that provide an unstable training surface that allows the user to simulate many slideboard exercises. Specifically designed for flowing, controlled range of motion that activates the muscles. Use to perform both upper- and lower-body exercises while engaging core stabilization. Makes exercise seem easier, while actually making the muscles work harder.
- Use to target multiple body parts, such as legs, inner thighs, and butt, all at the same time
- Intensify moves such as mountain climbers, lunges, and planks by adding a balance challenge
- Use to stretch and tone shoulders, chest, and back
- Great for side lunges, ab/adduction exercises, chest flies, one-arm slides, modified leg curls, and more
- Turns carpet into an unstable training surface
- Great for use on hardwood, tile, and linoleum floors when used with the ValSlide Booties (sold separately)
- Lightweight and portable, take them anywhere
- Dimensions: 10.1" x 5" x 2.2"; Weight: 1 lb
- Black

#1426-02
(125-1578).....ea
Contains: 2 ValSlide discs, 1 mesh carry bag & 1 ValSlide exercise sheet.

CanDo® Adjustable Ball Rebounder

Ideal for physical therapy, rehabilitation, and training sessions to improve strength, reflexes, and coordination. When used with weighted balls, the Rebounder is a fun way to improve conditioning, hand-eye coordination, and lateral movements.
- Adjusts at 0°, 28°, 33°, 39°, and 42°

First Place Drive Sled II

Improved design that allows for pushing and pulling resistance exercises.

- Vertical push handles can be taken out and placed on the other side of the sled for a quick change of direction
- Flat bottom and solid steel feet allow for smooth pushing/pulling on multiple surfaces
- Multipoint attachments allow for even load during pulling exercises
- Constructed of heavy-duty 11-gauge welded steel for maximum stability and durability
- Dimensions: 38"H x 30"W x 44"L
- Weight: 70 lb

#3601-01
(120-6743).....
Contains: 1 of each: sled, pair of vertical push handles, shoulder harness & drag strap.

Economy Flat-Bottom Weight Sled

A great resistance-training device for speed training and conditioning. Just add Olympic weight plates and start training.

- Flat bottom makes it ideal for use on a track, turf, or grass
- Ridges on the top of the weight-training sled allow for an easier grip when taking weight plates off
- Great for using with any style of Olympic plates
- Includes sled, harness, and drag strap
- Dimensions: 12½"H x 18½"W x 23½"L

#3603-01
(122-3437).....ea
Contains: 1 of each: sled, harness & drag strap.

Dual Low Push Handle Attachment for Drive Sled II

Handle has 2 different pushing heights (16" and 21"), allowing the user to change up grip and focus on staying low.

#3601-26
(135-6220).....ea

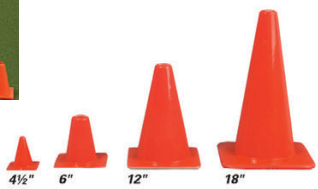

Extra Vertical Push Handles for Drive Sled II

MUELLER SPORTS MEDICINE

Therm-X®

Designed for use in rehabilitation and sports medicine, the Therm-X is intended to treat postsurgical and acute injuries to reduce edema, swelling, and pain. A flexible tool with digital accuracy when localized thermal therapy (heat or cold) is indicated. This innovative technology allows the user to select Heat, Cold, or Contrast, with a temperature range of 34°F to 110°F. The fluid passes through the garment with a tailored treatment area to concentrate the cold or heat where it is needed the most. Therm-X garments are bilateral to fit either left or right appendage and have high-end Velcro® to last the life of the garment. The inner face uses a ripstop nylon with a waterproof backing to prevent buildup of mold and mildew after cleaning. One size fits all.

Knee Garment TX0102

Hip Garment TX0108

Shoulder Garment TX0101

Back Garment TX0105

Features:
- Easy-fill tank uses Therm-X Coolant; does not require constant refilling and cleaning
- Intuitive touch screen with preprogrammed or customized protocols
- Liquid-cooled radiator and fan technology allows the Therm-X wraps to get colder and the machine to stay quieter
- High-speed USB charger for use of phone/tablet during treatment
- Therm-X is a Class II Medical Device and should only be operated by a licensed medical professional

Therabody
From the creators of THERAGUN

RecoveryTherm™ Hot and Cold Vibration Knee

This advanced, all-in-one device seamlessly combines heat, cold, and vibration therapy to optimize recovery and knee rehabilitation. With cold therapy, manage pain and inflammation. To reduce tension and aches, apply heat. And to maximize effectiveness, try vibration for increased blood flow. Germanium fabric naturally emits far infrared light to help regulate temperature, increase circulation, and enhance the body's natural healing process.

Squid Active Cold Compression

Our system offers the highest level of performance, comfort, and efficacy with a 15-minute treatment and set-up time of less than one minute. Squid provides intermittent cold compression using our proprietary sequential compression wrap and cold gel pack designed to direct edema away from the extremities and toward the heart, promoting venous return and enhancing circulation. Squid Full Recovery Systems include unit, wrap, and gel pack.

- Preoperative use: to reduce pain and swelling on the affected area as necessary
- Postoperative use: to reduce pain and swelling while enhancing local circulation
- Physical therapy use: a more effective alternative to traditional cryotherapy tools

mTrigger Biofeedback System

mTrigger uses surface electromyography (sEMG)-based instrumentation to measure the electrical activity produced by target muscle groups during physical rehabilitation. Set the maximum voluntary contraction goal for the target muscle(s) so that a voluntary effort is required during each rep of contraction or relaxation. Audiovisual feedback in the mTrigger mobile app provides real-time data to help patients achieve efficient neuromuscular re-education and put Clinical Bundle offers a bundled savings value and is a great option for clinics with multiple therapists or for those who wish to loan individual units out to patients for home use.

Back BioWrap

Patented, wearable compression electrode garments that provide compression while simultaneously allowing the delivery of BioWave's high-frequency active electrical field into deep tissue.

Key benefits include:

- Treats up to 6 times the volume of tissue compared to hydrogel electrodes
- Advanced silver-fabric permanent electrodes
- Provides compression plus high-frequency signal delivery into deep tissue
- No guesswork as to electrode placement location
- Reusable and easily cleaned
- 1-year warranty
- Treatment locations: back, knee, foot/ankle (high-ankle sprains and other foot/ankle injuries), thigh/calf (hamstring, quadriceps, and IT band strains), and hand/wrist*

BioWavePRO®

Professional, rugged, portable, patented high-frequency peripheral nerve stimulation system designed for use in athletic training rooms, on the sidelines, in hotel rooms, during meetings, and for travel. Provides immediate, deep, long-lasting relief from severe pain.

#BWP-S
(132-9418).....ea
Clinical data available at https://biowave.com/clinical.

Key benefits include:

- Immediate pain relief as intensity is increased and a 50–75% reduction in visual analog scale (VAS) pain scores
- Long duration of pain relief post-treatment—average of 8.3 hours of pain relief following a 30-minute treatment
- Very easy to use: no programming, just a Plus button to control intensity; electrodes are placed directly over locations of pain
- 86% adherence to treatment regimen: treatment is comfortable and feels like a deep, smooth pressure sensation
- Facilitates and accelerates rehabilitation
- Can be used during active range of motion (AROM) and passive range of motion (PROM) exercises and stretching to facilitate motion
- Removes the guarding effect associated with pain, allowing athletes to move more resistance through a greater range of motion and accomplish more during their physical-therapy regimen
- Due to BioWave's long carryover effect, there is little post-exercise soreness
- BioWavePRO can be used with BioWave's Hydrogel Electrodes, Percutaneous Electrodes, and Silver and Blue BioWraps
- Rechargeable battery system provides 18–30-minute treatments per charge

Dynatronics

Dynatron® 25 Series® Electrotherapy/Ultrasound

Reliable, easy-to-use electrotherapy and combination electrotherapy/ultrasound therapy. Each unit offers fully independent treatment setups and 5 stim waveforms, including interferential, premodulated, biphasic, high-voltage pulsed, and Russian stimulation. Exclusive Target and Target Sweep are available for interferential treatments. Choose 3- or 5-channel electrotherapy or combination electrotherapy/ultrasound. Combination electrotherapy/ultrasound units include 3-frequency ultrasound with 1-MHz, 2-MHz, and 3-MHz frequencies for flexibility in depth of treatment. Each combo device comes standard with one 5 cm^2 soundhead; optional 2 cm^2 and 10 cm^2 soundheads are also available.

Dynatronics

Dynatron Solaris® Plus

Powerful and versatile, these electrotherapy and combination electrotherapy/ultrasound devices allow fully independent treatment setups and access to exclusive TriWave light and ThermoStim accessories. Each unit includes the standard advantages of Dynatronics engineering, such as customizable treatments, quick treatment setup, and the popular Target touchpad to move the center of interference directly to the site of the patient's pain. In addition, it has the option of battery operation for portability. Solaris Plus is covered by a 2-year warranty and backed by the best customer service in the industry. Combination units include a 5 cm^2 soundhead.

- 6 stim waveforms: interferential, premodulated, high volt, biphasic, Russian, microcurrent, and fixed-frequency IFC/premod
- Accessories: Expand treatment capabilities by adding TriWave Light Pads, TriWave Light Probe, and ThermoStim Probe
- Solaris Cart: Equipped with 3 large drawers to store cords, accessories, electrodes, and other treatment supplies. Constructed with a low center of gravity to prevent tipping

Thork® Shock Wave

Microcontrolled by extracorporeal shock-wave therapy (ESWT), Thork Shock Wave can be used safely and effectively for both rehabilitation and aesthetic therapy. The mechanical cavitational and thermal energy produced by the Shock Wave is transferred to the patient through a radial shock-wave applicator. It presents maximum energy of 200 mJ, and the Shock Wave emission mode can be single or sequential, with adjustment of frequency of up to 22 Hz. The number of shots can be previously adjusted until 9999 or free mode (Free). The equipment is accompanied by 3 projectiles, one in the applicator and 2 spare ones. Each projectile presents a durability of 3 million shots.

Intelect Mobile® 2 RPW

A lightweight and compact design along with a quiet, built-in compressor make the Intelect Mobile 2 RPW (radial pressure wave) suitable for portable use, whether in the clinic or on the sports field. A user-friendly experience is at the heart of the Mobile 2 RPW's design. The simple, ergonomically laid-out controls enable all of the key parameters to be easily changed. A clear, illuminated LED display removes ambiguity when monitoring pressure, frequency, and number of pulses. Pulses can be initiated via a trigger button on the handpiece.
#2910-US
(135-7126).....ea

Intelect Focus Shockwave

In extracorporeal shock-wave therapy (ESWT), a wave is produced by a small explosion generated underwater inside an applicator. This wave is focused through a lens and transmitted into the tissue. This device electromagnetically generates an extracorporeal shock wave, producing a high-pressure peak in a very short amount of time (less than 2 seconds). This can penetrate deep into the tissue, up to approximately 4.7", with a precise focus on a small target, for treating heel pain due to chronic proximal plantar fasciitis.

lightforce therapy lasers

LightForce FXi

LightForce is proud to unveil the newly designed LightForce FXi. This popular laser-therapy system comes equipped with industry-leading Influence® technology, a comprehensive 2-year warranty, long-life battery operation, and comprehensive training resources.

User-dynamic system:

- Influence technology
- High-definition touch-sreen interface
- Built-in training resources
- Functional portability with long-life battery operation
- Instant replay your favorite protocols
- Flexible architecture for future upgrades
- Perfect Protocol™
- Empower delivery system
- 0.5–15 watts of therapeutic power

- **Specifications:**
- Laser type: Class IV, solid state
- Laser wavelength: 980/810 nm
- Laser power: 0.5–15 watts
- Operating modes: CW or pulsed
- Aiming beam: 650 nm, 4.5 mW
- Weight: 7 lb

lightforce therapy lasers

40W LightForce® XLi

With Empower IQ™ Delivery System

The 40W LightForce® XLi is a powerful laser. The increased power directly impacts the time needed to apply a therapeutic dose of light energy, allowing clinicians to decrease the time required to treat effectively. The higher power equips clinicians to treat deeper and faster while covering more tissue area with the new XL Treatment Cone.

The new Empower IQ Delivery System provides onscreen and in-hand recommendations to increase the accuracy of treatments.

- Smart handpiece provides guidance based on treatment-head selection and treatment pacing
- On-screen recommendations for delivery heads include best options, acceptable options, and not recommended for use for specific conditions treated
- Extra-large cone for handpiece allows for a larger region of interest to be treated at a time
- Treating larger areas faster allows technicians to treat primary and secondary factors of pain
- Quick-release attachments provide for ease in changing treatment heads (5 multipurpose heads)
- Easy-to-use finger-switch operation
- On-contact and non-contact delivery heads
- Features an ultra-durable, extra-long fiber-optic cable with built-in winder for simple storage between uses

InTENSity™ EX4

This advanced, 4-channel multifunction electrotherapy system offers a wide range of treatment options in one user-friendly, ergonomic design. It is equipped with a menu-driven, color, touch-screen interface that intuitively groups and displays clinical protocols, guiding the user step-by-step. The “favorites” feature allows user-defined protocols to be stored.
The 4 electrotherapy channels can be used in combination (linked) or independently, with different protocols running simultaneously.
The wide-ranging capabilities include:

- Interferential stimulation premodulated (2-pole IFC)
- Interferential stimulation traditional (4-pole IFC)
- Biphasic (TENS)
- Neuromuscular stimulation (NMS)
- Russian stimulation
- High-volt pulsed current
- Microcurrent

Companion 80™ Controlled Power Iontophoresis System
Allows patients to continue daily activities during treatment.
- 24-hour controlled power iontophoresis system with battery onboard
- Wireless system that allows patients to receive the benefits of iontophoreses while continuing their daily activities
- Current-regulating circuitry compensates for different patients' skin resistances
- Dose cutoff switch is activated at 80 mA-min
- Reserve battery capacity allows for long electrode life (no expiration date)
- Short-circuit protection ensures quality drug delivery
- Hypoallergenic adhesive is flexible, conformable, and stays on, even in the shower

(111-4704).....6/pkg
Contains: 6 electrodes, saline vials & alcohol preps.

IontoPatch® Iontophoresis
An extended time-release electronic transdermal drug delivery system. An innovative, self-contained battery produces an electric current to carry drug molecules noninvasively across the skin and to underlying tissue. Drug delivery is shut off automatically when the prescribed dosage has been administered. Single use and disposable.
- Approximate fill volume: 1.2 cc–1.6 cc
- Skin interface: synthetic, nonwoven absorbent material
- Patch adhesive: Breathable, highly flexible, and not made with natural rubber latex

IontoPatch® STAT
4-Hour, Dosage: 80 mA-min
(119-1981)..... 6/pkg
IontoPatch® 80
Designed to treat most anatomical areas, including elbows, knees, wrists, feet, and shoulders, in a 14-hour average patient wear time.
- Active area: 2.4"
- Approximate operating current: 0.1 mA
- Dosage: 80 mA-min

(863-4458).....6/pkg

Instrument-Assisted Soft Tissue Mobilization (IASTM) Tools

These tools enable clinicians to efficiently locate and treat individuals diagnosed with soft-tissue dysfunction. With a patented, cross-hatch gripping texture, the instruments are designed to decrease fatigue and slippage, and to assist in providing the best treatment experience for both provider and patient. Choose from a variety of 9 different tools made from the finest surgical-grade stainless steel on the market. Add the HawkGrips emollient to help instruments glide smoothly over the skin while also softening and protecting.

Please check with your state on regulations for dry needling usage. Each state has its own rules and standards.

Silicone Cups Set

This set of 4 silicone cups is ideal for those who enjoy the benefits of cupping. The cups physically create a vacuum on the skin, reversing pressure away from the body and pulling up on tight, deep muscle tissue. These softer, pliable cups are widely used in massage therapy because, unlike other types of traditional cupping, they can either be used on a single, focused area or in stroking sweeps around tight areas of the body.

Beartrap Recovery Tool and Beartrap Health

Beatrtrap Recovery Tool is a groundbreaking device that provides muscle pain relief and recovery and enables full-body muscle release. This horseshoe-shaped device features 12 mounting points, a variety of included attachments, and limitless combinations that allow it to be customized to the user's specific needs (most massagers do not conform to the body). Easy to clean: it needs only a warm, damp cloth and some mild soap. At about 15" tall and 12" wide, it is easy to store or take on the go.Beartrap Health is an upgraded version of the original Beartrap Recovery Tool and is designed more for practitioners. It helps minimize skin irritation with its softer PU polyurethane foam. It is more comfortable when applying pressure compared to the original (firmer) Beartrap.

PERFORM BETTER

Rollga Pro Roller

Made of expanded polypropylene (EPP) foam and extremely durable, the Rollga Pro is an omnidirectional functional training roller designed to stabilize hips, align the back, and increase range of motion. Ideal for muscle recovery, fascial health, and functional restoration of movement. Ordinary foam rollers cause discomfort and pain due to the unfitting design. This groovy foam roller is designed and contoured to fit the body and reach trigger points that are difficult to reach with an ordinary roller.

- 100% recyclable
- Extremely durable
- Protects the spine, hips, shins, and Achilles tendon
- Cross-directionally targets trigger points
- Naturally restores fascia lubrication
- Promotes restoration of movement
- Stimulates oxygen-rich blood flow for healing
- Omni-directional force reduces fascial fuzz
- The only targeted joint relief roller
- All the benefits of a flat/bumpy roller and more
- Dimensions: 18"L x 6" diameter
- Black

(136-7514).....ea

Foam Rollers Relieve Pain and Boost Circulation!

This is a great offering of different types of Foam Rollers to use in Rehabilitation and Strength Conditioning.

The Grid Foam Roller and Grid 2.0 Foam Roller

Features green technology with a revolutionary design. With varying density patterns, it mirrors the feeling of an actual massage: flat and wide (palm), firm and rigid tubular (fingers), and targeted high and firm (fingertips). The roller has channels to distribute blood and oxygen through the tissue as you roll.

Features:

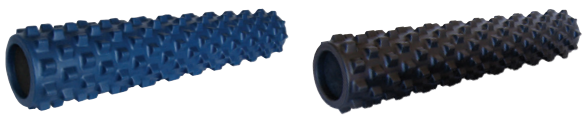

- Unique design with different density zones allows for more targeted massages
- Designed to withstand constant, heavy, and repeated use without breaking down
- Great for massaging all body parts as well as for a comprehensive core workout

RumbleRoller™ Deep-Tissue Massage Tools

RumbleRoller®

The RumbleRoller® Difference
High-profile bumps are a distinguishing feature of RumbleRoller products. Those bumps aren't just the whim of a crazy designer, though. Their size, shape, spacing, and elasticity all contribute synergistically to their effect. Only premium-quality materials are used to manufacture RumbleRoller products.

Blue, Medium-Firm
5" x 12"
(960-0256)..... ea
6" x 31"
(960-0254)..... ea

RumbleRoller products are carefully engineered to:

- Stimulate deeper layers of muscle tissue
- Stretch your muscle and fascia in multiple planes
- Concentrate massage pressure to more reliably enable autogenic inhibition
- Improve access to soft tissue near bony prominences (e.g., your spine, scapula, and pelvis)

Black, Extra Firm

TRIGGERPOINT PERFORMANCE

GRID® 1.0 and GRID® 2.0

The original roller, the GRID is equipped with a hollow core and a patented, multidensity surface for firm compression to guide blood and oxygen essential to repairing muscles in the right directions. Comes in 3 sizes to accommodate for all muscle injuries and is endorsed by experts such as sports doctors, chiropractors, and physical therapists. Patients find release in muscle tension and increased mobility.
- Hollow core makes it firmer than traditional foam rollers
- GRID pattern channels nutrients directly to tissue to aid in muscle repair
- Available in 3 sizes to roll wherever you work, live, or travel
- Superior construction won't break with repeated use
- Includes access to free online instructional videos

CORE Roller™

This solid foam roller with moderate compression is specifically engineered to loosen muscles and increase mobility. The high-density EVA foam is equipped with a patented surface pattern that varies in density, allowing the roller to increase blood and oxygen traveling to muscles. Good for anyone with a muscle injury, or who is new to foam rolling.
- Softer and less intense compression than the GRID
- GRID pattern channels nutrients directly to tissue to aid in muscle repair
- Available in 3 sizes to roll where you work, live, and travel
- Includes access to free online instructional videos

AcuForce® Star Massage Tool

The Massage Star has 3 applications. The wedge, on the top of the tool, is used to perform muscle-stripping and cross-fiber friction. The wide and narrow points are used to perform trigger-point therapy and reflexology.The Star weighs 11 oz, making it easy for virtually anyone to use it successfully.

(124-5423).....ea

AcuForce® Star XL Massage Tool

The Massage Star has 3 applications.
The wedge, on the top of the tool, is used to perform muscle-stripping and cross-fiber friction. The wide and narrow points are used to perform trigger-point therapy and reflexology. This tool is designed for those with larger hands, and weighs 16 oz.

(124-5426).....ea

Original HandHeld Backnobber Massager II

Hook device over shoulder or under arm and use its leverage to apply direct, deep, steady pressure to trigger points. S-shaped steel bar has wooden balls on each end (1 smaller, 1 larger).
#14-1330

(987-5738).....ea

AcuForce® 2.5 Massage Tool

The AcuForce 2.5 tool uses its own weight (2½ lb) to provide pressure during ltreatments, saving the hands and wrists from injury and fatigue. The tool has 2 applications to perform muscle stripping, cross-fiber friction, and trigger-point therapy.

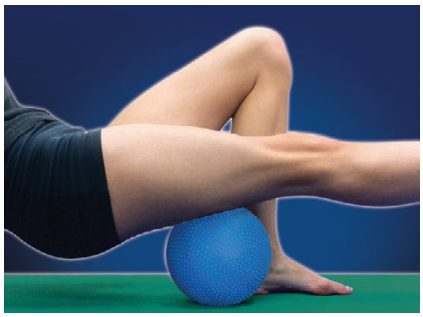

(124-5428).....ea

AcuForce® 7.0 Massage Tool

The AcuForce 7.0 is specifically designed to use its own weight (7 lb) in applying pressure during therapy treatments. This saves the thumbs, wrists, and elbows from fatigue and injury. The AcuForce 7.0 is used to perform muscle stripping, cross-fiber friction and trigger-point therapy.

(124-5424).....ea

The Orb

Deep Tissue Massage Ball
The 5" diameter, high-density ball provides *aggressive* deep-tissue massage to calves, quadriceps, hamstrings, and IT bands. The 7" diameter, high-density ball provides *moderate* deep-tissue massage to the back, quadriceps, hamstrings, and IT bands.

- Multidirectional roll provides focused, deep-tissue massage to target areas
- Reduces muscle fatigue and tightness
- Promotes flexibility
- Enhances performance

MEDI-DYNE HEALTHCARE PRODUCTS

ProStretch®

Even in noncontact sports, injuries range from nagging plantar fasciitis to Achilles tendonitis, ankle sprains, cramping calves, and hamstring pulls, among many others. The best way to treat an injury is to prevent it from happening in the first place! Many athletic injuries can be prevented by improving lower-extremity strength, balance and flexibility. ProStretch® is a unique performance-enhancement tool specifically designed to allow you to improve in all 3 of these categories, while reducing your overall risk of injury.

ENDURANCE

Perform Endurance Formula

A specialized sports drink with approximately twice the sodium of Gatorade® Thirst Quencher and the same carbohydrate energy to fuel working muscles. Elite and serious athletes lose large amounts of fluid and electrolytes–particularly sodium during intense training and competition. Replaces what is lost in sweat to maintain proper fluid balance.

Lemon Lime
(120-0090).....24 btl/case

ENDURANCE

Perform Gatorlytes

Formulated for athletes prone to muscle cramps. It contains a specialized electrolyte blend that, when coupled with sufficient fluids, can help prevent whole-body cramping. Add a Gatorlyte packet to a 20-fl-oz bottle of 02 Perform and drink 30 to 60 minutes before competition.

0.1-oz Packet
(120-0543).....20/box

Recover Protein Recovery Shake

Recovery, the body's return to a state of performance readiness.

- Ready-to-drink formula
- Formulated to help jump-start the recovery process
- Active ingredients are protein and carbohydrates. Does NOT contain the micronutrients (vitamins and minerals) that are in the the 01 Prime Nutrition Shake
- For after workout recovery vs a nutrition shake being used for a nutritious snack any time

11-fl-oz Cans.....12/case
Specify:
Chocolate **(120-1487)**

Gatorade 30 Gram Protein Shake

Contains 30-gm of protein to help rebuild muscles.

11.16-oz Bottles.....12/case
Specify:
Chocolate **(141-2942)** Vanilla **(141-2943)**

G2® Low-Calorie Electrolyte Beverage + Carbohydrate Blend

110 mg of sodium and 30 mg of potassium. A low-calorie thirst quencher that delivers functional hydration for active people during exercise, but with less than half the calories (and carbohydrates to fuel working muscles) of Gatorade Thirst Quencher®. Drink during training and competition.

20-oz Bottles.....24/case
Specify:
Grape **(121-0009)** Glacier Freeze **(121-8051)**
Fruit Punch **(121-0008)**

Gatorade Nutrition Shake

Provides energy and nutrients required for normal muscle growth and helps repair damage caused during training. The mix of protein, carbohydrates, fat, vitamins, and minerals helps athletes' bodies adapt to the demands of training. Ideal as a nutritious snack any time. Ready to drink.

11-oz Bottles.....12 btl/case
Specify:
Vanilla **(143-6008)**
Chocolate **(143-6007)**
Strawberry **(143-6009)**

SERIES

Gatorade Recover Whey Protein Bar

Offers 20 grams of high-quality, milk-based proteins, including whey, to help stimulate muscle recovery. Bar should be consumed as soon as possible following training or competition. NCAA compliant.

2⅖-oz Bars 12/case
Specify:
Chocolate Chip **(121-4863)**
Chocolate Caramel **(121-4864)**
Cookies and Crème **(121-4865)**
Chocolate Mint **(127-0167)**
NEW! Chocolate Peanut Butter **(127-0710)**
NEW! Chocolate Pretzel **(127-0711)**

Gatorade Powder Sticks

Just open a bag of instant Gatorade powder pack, mix it with fresh water, and hydrate instantly. Each 1.23-oz pack makes 20 oz.

Sticks.....80/case
Specify:
Lemon Lime **(139-9959)** Orange **(139-9960)**
Fruit Punch **(139-9958)**

Muscle Milk® Evolve®

Plant- and vegetable-based protein shake that is free from dairy, soy, gluten, and artificial flavors. Made with non-GMO ingredients. The Evolve® brand provides a delicious and nutritious plant-powered protein product that is sustainable. Protein shakes are made with non-GMO pea protein grown in North America. Evolve® supports the National Park Foundation to protect the national parks. Certified Vegan and Non-GMO Verified.

Chocolate Hazlenut Butter	**(135-5040)**

Pedialyte®

Oral Electrolyte Maintenance Solution
32-fl-oz Bottles

Using Pedialyte® at the first signs of diarrhea or vomiting can help reduce risk of dehydration. Beverages like soda and juices contain large amounts of sugar that can draw water into the intestines and away from the rest of the body, making the diarrhea worse and increasing the risk of dehydration.

(141-0108)..... ea

CRAMPX

CrampX

CrampX sport drink will do two things for cramping—first: relieve a cramp in seconds; second: prevent cramping when taken 5 to 10 minutes before a game, practice, or any activity, including sleeping, for nighttime leg cramps. A recent study shows that more than 45 million people experience leg and muscle cramps in a year. Many do not know there is new treatment. Instead, they revert to old methods. This is a healthier solution for your athletes.

Hydration Station Portable Drinking Fountains
Completely self contained battery operated, rechargeable portable drinking fountains. Ability to customize every unit with accessories. Utilizes the "Bend Water Valve" which is nearly indestructable and offers one hand operation. All Hydration Stations charge externally through a flexible charging port. Soft-ride no-flat tires are standard. Quick disconnect drain/suction hoses afford complete emptying of tanks. All units charge externally and have an LED battery meter so users can check battery charge.

Team Mate Hydration Station
- 20 gallon UV resistant tank
- 6 hoses with all-brass bend water valves
- 11" tank opening for easy filling with no-leak gasket on lid
- Heavy duty aluminum dolly with custom welded tank support

(129-9820).....ea

Mega Tanker Hydration Station
- 50 gallon UV resistant tank
- 12 hoses from 2 separate pump boxes with all-brass bend water valves
- Combination pull handle/tow fork for trailering by golf cart/utility vehicle
- Custom welded aluminum cart with galvanized industrial casters

(129-9823).....ea

Coil Cool MAX Water Chiller
Garden hose powered dual manifold PVC and horizontal copper coil holds 5 times as much water (as compared to our competitors) under ice to supply crisp cool drinking water. Innovative design to maximize cooling effect of ice.

Features:
- Towable aluminum cart
- Soft-ride no-flat foam tires
- 6 hoses with bend water valves
- 150 quart Maxcold cooler
- Internal manifold to keep water cool
- No external frames to re-heat water

(129-9824).....ea

Hydration Station Del Sol 20
Completely charged by the sun, and powered by a lithium ion battery, the Del Sol eliminates daily charging—it charges while in use, even on cloudy days! Automatic pump protection circuit to turn pump off if inadvertantly left on.

Features:
- Retractable, sliding solar panel
- 14Ah lithium ion battery
- Insulated 20 gal. tank
- Illuminated LED battery meter
- Automatic pump
- Water filter standard
- 6 bend water nozzles
- 11" easy fill tank opening
- Custom graphics available

PowerFlo™ Pro 20

A semi-clear tank with a 20-gal water capacity and rounded corners for easier cleaning and maintenance.

- Large 6½"-opening in tank for convenient ice pouring
- Tank is designed with narrow footprint for storage and maneuvering through doorways
- Drain assembly allows emptying of tank without removal
- Custom, heavy-duty aluminum cart provides lightweight, ultra-durable, and corrosion-free construction
- Zero maintenance tire system incorporates a solid filled tire that will never go flat, but still maintains a wide tread for off-road and real turf situations
- The solid filled tires maintain an appreciable level of bounce and softness while continuing to provide easy pushing and pulling for a smooth ride
- Quick plug charging system makes charging your battery faster, easier, and more reliable—no more removing or disconnecting wires—simply plug the charger directly into the cabinet
- Interior manifold moves all the most susceptible components inside the control box, protecting them from harmful UVA/UVB rays and impacts
- Lighter weight, durable cabinets made from the same material used in football helmets
- Mounting tabs add a replaceable breakaway function so the cabinet is less likely to be damaged
- Highest quality fittings for the best in longevity and dependability
- 6 drinking stations with self-retracting UVA/UVB-resistant blue coiled hoses
- Custom-manufactured drinking nozzles
- Mounted to the external manifold to provide easier access, cleaning, and winterizing
- Every component that contacts drinking water is made of an FDA-approved material or is a water-portable component

(135-0393).....ea

PowerFlo™ 50 Hydration System

Proper hydration and heat-related illnesses are always issues when dealing with athletes, just like dependability, safety, and storage are always issues when considering a piece of equipment. Built to satisfy all these demands and help keep your players safe and on the field. Power-coated metal cart provides an excellent platform for the 50-gal tank. Its durability is matched by the unique antitip autosteering system and 10 pneumatic tires. Utilizing the same proven pump and battery system of the PowerFlo allows for easy access to replacement parts when it is time to service the unit. Every component of this unit that comes into contact with the water is either water-potable or made of an FDA-approved material for drinking water.

(698-0008)..... ea

ThermoFlo Max™

Its lighter weight provides potable and portable on-field hydration with an unlimited water supply. Hooks up to an outside water supply using the high conductive properties of copper coils for a continuous flow of chilled water. Just add ice.

- 120-qt cooler and dual 30' copper coils effectively cool water
- Highest quality fittings
- Every component that contacts the drinking water is FDA approved material
- Quick-disconnect feature
- Six drinking stations feature self retracting UVA/UVB resistant blue coiled hoses on an external manifold provide easy access to facilitate easier cleaning and winterizing
- Improved rugged 4-wheel metal cart is powder coated and reinforced with extra straps
- Tubeless tires are fitted with an inner tube for unmatched dependability
- Bushing system replaces the old bearing-style wheel

(698-0276).....ea

PowerFlo™ Pro 20 without Tank

Transform your current PowerFlo™ 20 into the PowerFlo™ Pro by utilizing your current 20-gal tank and combining it with the custom aluminum cart with solid filled tires. Includes new quick plug system to charge the battery faster, easier, and more reliably. All susceptible components are contained inside the control box and every component that contacts drinking water is made of an FDA-approved material.

BugX30 Insect Repellent Spray

Containing 30% DEET, this EPA-registered formula allows the DEET to be released in a controlled manner, permitting longer-lasting performance once obtained only by high concentrations of DEET. This type of formula provides a high degree of protection against vector-borne diseases such as dengue fever, West Nile virus, and Lyme disease. It also provides effective protection from mosquitoes, ticks, chiggers, fleas, gnats, no-see-ums, and multiple kinds of flies (sand, deer, stable, and black flies).

RETURN FORM

Every effort has been made to assemble and pack your order with exacting care. If there is a problem with your order, we would like to rectify it and make sure you are completely satisfied with the result.

https://www.henryschein.com/us-en/medical/help.aspx
We're sorry that we cannot accept any returns without prior authorization.

Before Returning:

Before calling for your return authorization, please have the following information ready:

- **Expiration Date Problems** – Double-check the date because some dates stamped on merchandise are the **date of manufacture,** not expiration
- **Equipment** – Opened and used equipment may not be returned for credit. Before opening your purchase, we suggest that you check the shipping container and packing list to ensure that you are getting exactly what you ordered. Equipment is backed by the manufacturer's repair or replacement warranty. Please read and return all warranty information required immediately upon taking delivery of your new equipment.
- **Computer Software** – Opened computer software may not be returned.
- **Immune Globulin Products** – May not be returned
- **Flu Vaccine** – May not be returned
- **Special Order Items** – May not be returned
- **Hazardous Materials** – Please call our Customer Service Department
- **Questions** – **https://www.henryschein.com/us-en/medical/help.aspx**
- **International/Customs** – Before returning any items, please contact us at: **https://www.henryschein.com/us-en/medical/help.aspx**

For Quick-Return Processing:

- **How to Package** – Please use the original shipping carton or a strong, corrugated carton, and adequately cushion the products to prevent damage during shipment.
- **Documentation** – Please include the Packing List with the Return Information clearly filled out. This will help to process your return promptly and accurately. Please include the Reason Code to help us prevent future problems.

Returns on specific items (as indicated in the catalog under Terms of Sale) are subject to a restocking charge. All returns processed 30 days after invoice date will be assessed a 15% handling charge.

ATTN.: RETURNS DEPARTMENT

THANK YOU FOR LETTING US SERVE YOUR NEEDS

THE HENRY SCHEIN PRICE POLICY: **We endeavor to maintain prices for the duration of a catalog, but we reserve the right to make price adjustments in response to manufacturers' price increases or extraordinary circumstances. Prices are subject to change without notice.**

Henry Schein, Inc. ("Henry Schein") and customer agree that the terms and conditions hereinafter set forth shall govern the relationship between Henry Schein and the customer to the extent that the parties do not have a written agreement in effect that conflicts with such terms and conditions. Customer acknowledges and accepts all such terms and conditions by placing an order for goods with Henry Schein, and upon Henry Schein's delivery of the order to the customer.

Choose Your Payment Method

Reduce the cost and administration of paying Henry Schein– Pay electronically (ACH Debit) or set up AutoPay. Please call Customer Service for details.

For your convenience, we provide several payment alternatives. Orders billed to your account may be paid by ACH Debit, Check by Phone, or Check. If you prefer, you may use your Henry Schein Credit Card, American Express, Visa, MasterCard or Discover Card when placing your order. All sales are subject to our normal terms and conditions. **Unless otherwise instructed, check payments must be mailed to: Henry Schein, Inc. • Dept. CH 10241 • Palatine, IL 60055-0241**

All sales are subject to credit approval. Invoices are payable within agreed terms of sale. Henry Schein and its affiliates reserve the right to offer a dual pricing system for payment by check, Henry Schein-approved ACH and/or Henry Schein-approved EFT vs. any other payment method and, to the extent permitted by law, reserves the right to surcharge for payment by credit card and/or other methods incurring a fee to Henry Schein.

Open Accounts Receivable:

All unpaid accounts receivable past due are subject to a 1.5% finance charge.

DELIVERY TERMS: Delivery dates are not guaranteed. Purchase orders are subject to product availability. Customers' sole and exclusive remedy for failure to deliver shall be refund of monies paid for the products at issue. Unless otherwise agreed, freight terms are FOB Shipper's Dock ("Ex Works" outside North America). Except as noted below, title passes at the time the shipment is loaded at the shipper's dock.

California: For all shipments of goods to customers located within California, title will pass upon receipt of goods by California customers.

Continental U.S.: All orders will be subject to a handling charge. This charge includes freight, except for additional carrier charges related to special delivery services and hazardous material shipments. Special orders are subject to additional freight charges.

Alaska, Hawaii & Pacific Protectorates: Standard shipping methods provide direct, reduced cost, expedited air delivery service to all accounts in Alaska and Hawaii. Customers in the Pacific Protectorates are offered direct surface transport, or postal services for reliable delivery. No additional surcharges apply, except when special services are requested. Low-level hazardous items (dangerous goods in accepted quantities and Consumer Commodity ID 8000) are now available via UPS 2nd-day air.

Guam, Puerto Rico, U.S. Trust Territories & Virgin Islands:

• All orders will be subject to a handling charge. This charge includes freight through the United States Postal Service (USPS) • Special delivery orders and hazardous material shipments can be shipped via United Parcel Services (UPS) for an additional charge. No minimum order amount or weight applies. Speak to your International Representative for details.

Outside U.S. (50 states): If your order is being shipped outside the U.S. (50 states), please refer to the International Terms & Conditions at henryschein.com. Unless otherwise agreed, freight terms are FOB Shipper's Dock ("Ex Works" outside North America). Title passes at the time the shipment is loaded at the shipper's dock. Customer is responsible for compliance with any applicable import requirements.

RX PRODUCTS & CONTROLLED SUBSTANCES:

• Regulations require us to limit the sale of Rx and controlled substances only to registered, licensed healthcare professionals. If you are a new customer or have recently moved, please furnish us with a copy of your updated state and federal registrations verifying your shipping address. Please note that all orders for controlled substances are subject to a due diligence review process. Schedule II controlled substances can be ordered electronically or by mail. For more information on our Controlled Substance Ordering System please visit www.henryschein.com/e222; if you prefer to continue using Federal 222 Forms to order Schedule II controlled substances, mail the form to: **Henry Schein, Inc. • 5315 West 74th Street • Indianapolis, IN 46268**

• Henry Schein restricts the sale or other transfer of medications to prisons/correctional facilities for use in lethal injections, based on our manufacturer agreements. The goods Henry Schein sells are intended to be used for their label-approved purposes or applicable standards of care, which do not include human lethal injection.

THE DRUG SUPPLY CHAIN SECURITY ACT (DSCSA):

(MN, DM, WH, M2) The Drug Supply Chain Security Act (DSCSA) information related to prescription drug products is available on our website www.HenrySchein.com/pedigree. If you have any problems accessing our website or would like to receive a copy of DSCSA documentation via fax, mail or email, please contact our customer service department at 1-800-472-4346.

REGULATORY REQUIREMENTS: Local regulatory requirements may apply to use or installation of certain products. Be sure to understand and comply with any such requirements prior to purchase, use, or installation of products.

RETURNS: WE CANNOT ACCEPT ANY RETURNS WITHOUT PRIOR AUTHORIZATION. To arrange for a return, simply call our Customer Service department or contact your Sales Consultant. The following conditions must be complied with:

• All returns must be accompanied by a copy of your invoice and a reason for the return.
• Merchandise must be returned in its original unopened container, unmarked, and properly packaged • Returned products must have been purchased within the previous thirty (30) days. Any returns past thirty (30) days are subject to a restocking fee.
• Shortages or errors in shipments must be reported within seven (7) days of invoice date to issue credit (if applicable) • Shipping charges will apply on all returns.

Exceptions: The following special, customized, or government-regulated items are not returnable:

• Immune globulin products • Special order items (products that we do not ordinarily stock) Personalized and imprinted items • Opened computer hardware and software Hazardous/flammable materials • Expired products • Items that cannot be returned to the manufacturer Any item marked nonreturnable •Items required to be shipped and stored frozen •Any drop-shipped products • invitro diagnostics products

Equipment:

Opened and used equipment may not be returned for credit. Before opening equipment, we suggest that you check the shipping container and packing list to ensure that you are getting exactly what you ordered. Equipment must be returned in the original unopened packaging, unmarked and properly packaged. Special order equipment is not returnable. All equipment returns are subject to a restocking fee. Equipment is backed by the manufacturer's repair or replacement warranty. Please read and return all warranty information required immediately upon taking delivery of your new equipment. Open or defective equipment is subject to the manufacturer's warranty.

Prescription Drug Returns: Please note that, in order to comply with Federal and State traceability requirements, prescription drugs may be returned providing that the following key elements are met: **1)** Returns of prescription drugs will only be accepted if Henry Schein is notified within 30 calendar days of shipment date and valid return authorization is issued by Henry Schein. **2)** The Prescription Drug Marketing Act requires any customer returning prescription drugs to complete and return a Prescription Drug Return Authorization form. Federal law requires that the healthcare entity returning prescription drugs document that the product was kept under proper storage and handling conditions while in their possession and during the return of the product. To get a copy of the form and proper return authorization, please contact Customer Service. **3)** In addition, traceability regulations require that the healthcare entity returning prescription drugs certifies that the product being returned is the same exact product purchased from Henry Schein. **4)** Henry Schein will not issue credit for any returned prescription drugs which return was not authorized as provided herein, have been tampered with or where the labeling has been altered in any way.

INSTITUTIONAL & CORPORATE ACCOUNTS:

Terms of Sale follow the same guidelines unless denoted differently in a contract. Some offers and promotions outlined in the catalog may not apply. Requests for bids and proposals may be sent to: **Henry Schein, Inc., Medical Bid Department (Mail Route E-270) 135 Duryea Road, Melville, NY 11747**

INTERNATIONAL AND CANADIAN ORDERS:

We proudly serve healthcare professionals, governments, and dealers throughout the world. To place orders or for inquiries on export terms and conditions please contact the International Department (USA) at, phone: 1-631-843-5325, fax: 1-631-843-5676, or send us an e-mail at: export@henryschein.com.

ARBITRATION: All Claims related to or arising under or relating to this Agreement except for Claims for non-payment of amounts due to Henry Schein for the sale of products) are to be exclusively and finally determined by binding arbitration in the state of New York, or another location mutually agreeable to the parties. Any and all Claims must be arbitrated on an individual basis, and there shall be no right or authority for any Claims or disputes to be arbitrated on a class action or collective basis. For avoidance of doubt, each party irrevocably waives any right to: (i) have any Claim resolved in connection with any class action or collective action, or (ii) recover any damages or relief directly or indirectly as part of any class action or collective action. The arbitration shall be conducted on a confidential basis pursuant to the Commercial Arbitration Rules of the American Arbitration Association, or if applicable, under its Procedures for Large, Complex Commercial Disputes. Any decision or award as a result of any such arbitration proceeding shall be in writing and shall provide an explanation for all conclusions of law and fact and shall include the assessment of costs, expenses and reasonable attorneys' fees. Any such arbitration shall be conducted by an arbitrator experienced in the disputed subject matter and shall include a written record of the arbitration hearing. The parties reserve the right to object to any individual who shall be or has been at any time employed by or affiliated with a competing organization or entity. An award of arbitration may be confirmed in a court of competent jurisdiction. To the extent that any Claim or dispute is determined to not be subject to arbitration, all other Claims or disputes that would otherwise be subject to arbitration must be arbitrated. As used in this Agreement, "Claims" shall mean any and all liabilities, disputes and expenses whatsoever including, without limitation, claims, adversary proceedings (whether before a court, administrative agency or any other tribunal), damages (whether compensatory, multiple, exemplary or punitive), judgments, awards, penalties, settlements, investigations, costs, responses to subpoenas or other governmental directives and reasonable attorneys' fees and disbursements with respect to any claims that may be sustained, suffered or incurred by a Party hereto.

WARRANTIES: Henry Schein will pass through to the customer, at the time of sale, any transferable product warranties, indemnities and remedies provided to Henry Schein by the applicable manufacturer. EXCEPT AS OTHERWISE PROVIDED HEREIN, TO THE EXTENT PERMITTED BY LAW, HENRY SCHEIN PROVIDES NO WARRANTIES OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION ANY WARRANTY OF MERCHANTABILITY, FITNESS FOR PARTICULAR PURPOSE OR NON-INFRINGEMENT, AND THE CUSTOMER SHALL LOOK TO THE MANUFACTURER OF THE PRODUCT FOR ANY WARRANTY THEREON.

LIMITATION OF LIABILITY: The customer agrees to look solely to the manufacturer of the product for any claim arising due to loss, injury, damage or death related to the use or sale of products. HENRY SCHEIN SHALL NOT BE LIABLE FOR INDIRECT, INCIDENTAL, PUNITIVE, SPECIAL OR CONSEQUENTIAL DAMAGES INCLUDING, BUT NOT LIMITED TO, LOST PROFITS AND LOSS OF GOODWILL, ARISING FROM OR RELATING TO ANY BREACH TO THIS AGREEMENT (OR ANY DUTY OF COMMON LAW, AND WHETHER OR NOT OCCASIONED BY THE NEGLIGENCE OF HENRY SCHEIN OR ITS AFFILIATES), REGARDLESS OF ANY NOTICE OF THE POSSIBILITY OF SUCH DAMAGES.

DISCOUNTS, REBATES AND DISCLOSURES: **Invoice or statement prices may reflect or be subjected to a bundled discount or rebate pursuant to purchase offer, promotion or discount program. You must fully and accurately report to Medicare, Medicaid, Tricare and/or any other federal or State program, upon request by such program, the discounted price(s) or net price(s) for each invoiced item, after giving effect to any applicable discounts or rebates, which price(s) may differ from the extended prices set forth on your invoice. Accordingly, you should retain your invoice and all relevant information for your records. It is your responsibility to review any agreements or other documents, including offers or promotions, applicable to the invoiced products/prices to determine if your purchase(s) are subject to a bundled discount or rebate. Any such discounts must be calculated pursuant to the terms of the applicable purchase offer, promotion or discount program. Participation in a promotional discount program is only permissible in accordance with discount program rules. By participation in such program, you agree that, to your knowledge, your practice complies with the discount program requirements.**
