

HEART HEALTH

PRODUCT GUIDE 2026

Your **One Source** for a **Thriving Practice**

prevention is power™

Patients are **twice as likely** to die from a heart attack and **three times as likely** to die from a stroke if they have gum disease.

2 in 5 of your patients have gum disease.

Let's educate **patients together.**

Prevention Is Power helps health care professionals link oral health to overall health, empowering patients to take charge of their wellness.

Scan the QR
to Learn More

Healthy Heart, Healthy Mouth, it goes both ways.

What's in your patient's mouth
affects their heart — and their
heart **affects their mouth**.

Oral germs can fuel inflammation
linked to heart disease, while high
blood pressure can harm teeth
and gums.

 HENRY SCHEIN

Cares[?]

For 25 years, Henry Schein Cares has supported nonprofit and community partners in promoting high-quality and holistic wellness and prevention.

To continue raising awareness about the importance of preventive health care, **Prevention is Power** promotes screening and early detection through coordinated care for prevention, early intervention, and better overall health.

We proudly sponsor, support, and stand with organizations that recognize the connection between oral and overall health such as the American Heart Association and the National Association of Community Health Centers.

DID YOU KNOW?

In the United States, heart disease is the leading cause of death for men, women, and people of most racial and ethnic groups.¹

One person dies every 34 seconds from cardiovascular disease.¹

In the United States, someone has a heart attack every 40 seconds.²

By living a healthy lifestyle, you can help keep your blood pressure, cholesterol, and blood sugar levels normal and lower your risk for heart disease and heart attack.³

Connex[®] Cardio ECG

BAXTER

This ECG provides results that can be trusted in an easy-to-understand format designed with workflow in mind.

- Captures best 10 seconds of ECG data from memory, reducing need for repeat ECGs
- Complies with ACC, AHA, and HRS recommendations for adult and pediatric patients
- Streamlines workflow by capturing and saving an ECG in as few as 2 clicks

Digital Blood Pressure Monitor 1700 Series with SureBP[®] Technology

BAXTER

The same SureBP technology used by doctors and hospitals worldwide, but with one-button operation for accurate results made easy.

- Captures blood pressure readings on inflation in just 20 seconds
- Even in presence of motion, provides accurate readings at the rate of 97%
- Free smartphone app allows user to monitor and track readings over time

Welch Allyn Spot Vital Signs[®] 4400 Device

BAXTER

With SureBP[®] Noninvasive Blood Pressure and SureTemp Plus Thermometer

- SureBP[®] technology can record blood pressure in just 15 seconds
- Blood-pressure averaging helps ensure accurate hypertension detection
- SureTemp[®] Plus oral/axillary thermometry
- Option for Nonin[®] SpO₂ technology
- 7" color touchscreen for a simplified workflow
- Options for documenting patient observations (like respiration rate and body mass index)
- EMR connectivity helps the care team avoid documentation errors
- Ships with one adult blood pressure cuff

Sprague Rappaport 640 Proscope[™] and 641 Adscope[™] Stethoscopes

AMERICAN DIAGNOSTIC CORPORATION

The Sprague stethoscope is a rugged instrument specially designed to suit most professional requirements. The 640 series features a threaded chest-piece drum that permits the use of 5 interchangeable chest pieces: an adult and pediatric diaphragm, and 3 bells (1¼", 1", ¾"), all included, for accurate detection of high, middle, and low frequency sounds in children and adults. Proscope 640 features 16" tubing and 1-year warranty. Adscope 641 features 22" tubing and 5-year warranty. Black.

- Double tube configuration improves acoustic separation
- Large bore improves amplification
- Rugged design for years of dependable service

#640BK, 640 Proscope with 16" Tubing (130-4148) ea

Contains: Stethoscope with an accessory pouch containing the bell chest pieces, 2 spare diaphragms, 2 extra pairs of eartips & a comprehensive owners' manual.

#641BK, Black (130-7021) ea

Contains: 1 stethoscope, 3 bell chest pieces, 1 chest-piece key, 2 spare diaphragms, 1 pair of silicon ear tips, 1 pair of mushroom ear tips & 1 accessory pouch.

Deluxe Sphygmomanometer TECH MED

Each features a calibrated nylon cuff with a hook-and-loop-type closure. Bulb has deluxe air release valve with built-in filter and extra-large knurled release knob. Two-tube latex bladder. Precision manufactured manometer measures blood pressure from 20 mmHg to 300 mmHg. Lifetime calibration warranty.

Adult, Blue (100-2396) ea

Contains: 1 of each: sphygmomanometer & instructional manual.

Child, Black (849-5460) ea.

Advantage[™] 2200 Fingertip Pulse Oximeter AMERICAN DIAGNOSTIC CORPORATION

This portable device is perfect for use at home, during sports activities, or in aviation. It offers precise readings with an SpO₂ accuracy of +/-2% and a heart rate accuracy of +/- 5 BPM.

Key features include:

- 2 adjustable display modes
- Bright red LED display
- Compatible with finger thickness of 0.31" to 0.79"
- Includes a carry lanyard and instruction booklet
- Powered by 2 AAA batteries (included)
- 1-year limited warranty

(124-6142) ea

Non-Contact Infrared Thermometer #IR 300

MEDSOURCE INTERNATIONAL

Provides instant temperature readings without worry of physical contact or cross contamination. Measuring distance of 0.4"-2". Temperature displays in <2 seconds. Color digital screen changes color to indicate normal, medium, or high temperature. Automatic power-off in <18 seconds. Memory function records temperature settings for up to 50 groups on 2 AAA batteries. Batteries included. 1-year device warranty.

Model #IR 300 (137-8300) ea

Digital Electronic Eye-Height Scale

Compact, eye-height digital scale that features an integrated mechanical height rod, large backlit LCD display, and BMI calculator. Weight capacity up to 500 lb (225 kg). Low profile for easy access—platform is only 2½" high. Sta-Bilt stabilizing software ensures an accurate measure, even if the patient is moving. Autohold feature allows the weight to continue to be displayed after the patient has stepped off the scale. Integrated USB interface allows data to be transferred to a computer. Includes 2-year warranty. 22" x 15" x 53"

(112-7154) ea

Aneroid Deluxe Blood Pressure Cuff

- Contemporary black enamel, 300 mmHg, CE-marked, no-pin stop manometer provides day-in, day-out dependability
- Nylon cuff with proprietary Size Guide™ marking system prevents miscuffing
- Dip-molded latex inflation bladder withstands heavy use
- Chrome-plated brass air-release valve
- Leatherette carrying case with durable nylon zipper
- Assembled, inspected, and packaged in the USA from foreign components

**Ritter®
225 Barrier-Free®
Examination Chair
MIDMARK**

The number of elderly and obese in the U.S. is steadily growing, and over one fifth of adults in America are disabled. Assisting patients with mobility limitations onto exam chairs has become a frequently performed task. Although caregivers working in health-care facilities are in one of the most at-risk professions for musculoskeletal disorders, little has been done to evaluate and reduce risk. The Ritter 225 is designed to offer low and high positioning heights so you can provide the best care to all patients, whether treating the elderly, expectant mothers, or patients with disabilities.

- #225-002, Without Clean Assist Roller System (133-0279)ea
- #225-003, With Clean Assist Roller System (133-0290) ea

- #464-002-80, Swivel Base, With Tilt (136-8744)ea

*ADA compliant with transfer support accessory for easy patient ingress/egress

**Versa Exam Table
BREWER**

The Versa exam table provides the ability to readily and cost-effectively adapt to changing needs. When it comes to care, the Standard model provides a new standard of quality and efficiency for most practices. Easily convert to a pediatric top to safely and effectively care for children from newborns to adolescents.

- Improves the patient experience with a stable platform to support patients of all builds, and supports patient self-positioning
- Easy to connect and a removable upholstery top is available in standard adult and pediatric sizes to meet the changing needs of a facility
- Customizable to choose the options that fit within a budget
- Includes an ergonomically designed pass-through side drawer purposefully positioned at waist height to reduce bending and twisting for caregivers, while providing a generous 3.7 cubic feet of storage space

- Standard..... ea

ePM 10A Configured Patient Monitor MINDRAY

Exceptional user interface and enhanced parameter functionality, delivering a monitoring solution to fit multiple care environments. Immediate and measurable benefits of the smartphone-like user interface that delivers 98% of all common monitoring functions with just 2 gestures, reducing time clinicians spend navigating monitor functions, and more time on what matters most: patient care. Advanced monitoring options include 3- and 5-lead ECG, SpO₂, NIBP, respiration, and temperature supporting multiple clinical workflows. ePM 10A has a compact, ergonomic design that is perfectly suited for healthcare facilities managing a steady flow of patients daily. Add optional CO₂ capability to aid clinicians to identify signs of patient deterioration due to respiratory distress. Manufactured with industry-leading plastics that stand up to the most stringent medical-grade cleaners. The concealed grab-and-go handle eliminates hard-to-clean crevices and eases clinical workflow while on the move. Flexible mounting options for bedside and transport.

- Dimensions: 10.6" x 9.9" x 6.3"
- Weight: 8.8 lb
- Warranty: 3 years

TO PERFORM HIGH-QUALITY, HANDS-ONLY CPR:

All ZOLL® AEDs include integrated, real-time CPR feedback technology developed to meet the recommended guidelines of the AHA.

- Push hard and fast in the center of the victim’s chest
- Maintain a compression depth of 2 to 2.4 inches
- Allow full recoil of the chest between compressions
- Perform 100 to 120 compressions per minute
- Administer continuous CPR with minimal interruptions (pauses >10 seconds if possible)

Any CPR is better than no CPR, but aim for high-quality CPR.

Product Featured: ZOLL AED 3 Automatic | Part Number 1385147 | ZOLL Medical - 8511-001102-01

ZOLL AED Plus® ZOLL

Bringing Lifesaving Defibrillation to Everyone

The only AED with CPR feedback and an ECG waveform. By supporting CPR as well as defibrillation, this device can help every unresponsive victim. Features Real CPR Help®, a tool that is able to actually see what user is doing and provides audio and visual prompts to help them do it with confidence and clarity.

- Provides a one-piece electrode for accurate placement
- Uses consumer lithium batteries that are easy to replace, long-lasting, and inexpensive

- Gentle cleansing agent, pH balanced
- Contains 2% coconut oil-based soap solution

2" x 2 1/4"
(610-0148)100/box

Ear Wash System

A safe and effective option for removing earwax (cerumen).

- Flexible hose and rigid tube options include the bottle of ear wash fluid, trigger mechanism, and 3 tips
- Accessories, including a basin, additional tips, and splash shields for the rigid tube unit, are sold separately*
- Basin is ergonomically molded to fit under the ear
- Simply fill the bottle with warm water, secure the trigger mechanism onto the bottle, twist a disposable tip into the end of the nozzle, and press the trigger to pump the water through the nozzle into the ear
- User should place the basin under the ear to catch the water being flushed out

HYPODERMIC SAFETY NEEDLES
WITH ISO COLORED PLASTIC HUB

- Two single-handed safety activation methods include hard surface and thumb activation, which may help reduce the risk of accidental needle stick injuries
- Easy-to-use and compatible with all standard luer lock and luer slip-tip syringes
- Hubs and protective shield are color-coded according to ISO standards to facilitate easy and quick identification of needle gauges
- Bevel-up needle allows for low-angle injections
- Protective arm allows for clear visibility of the injection site, ensuring an unobstructed pathway
- Single use

I.V. Medication Delivery

From A Name You Can Trust.

Medication Delivery Sets and Connectors

Henry Schein provides market-leading infection control technologies to help minimize bacterial contamination. We carry a wide selection of injection and needle-free medication delivery ports to meet a variety of medication delivery needs.

Features & Benefits:

- Flat top needle-free valve with tight septum seal helps to support effective disinfection
- Metal free for MRI compatibility
- DEHP-free, latex-free and sterile

EXAM GLOVES

CRITERION™ Nitrile N100

Nitrile Powder-Free Exam

Durable nitrile construction for reliable protection and tactility. Chlorinated for reduced friction and easy donning. Soft and stretchy, this nonchlorinated glove is the ideal alternative to latex. Textured fingers provide an enhanced grip. Chemotherapy tested to the ASTM D6978 standard. Beaded cuff. 3.15-mil thickness at the palm. Blue.

Gloves..... 100/box

Specify:

X-Small	(111-8533)	Large	(111-8537)
Small	(111-8535)	X-Large*	(111-8539)
Medium	(111-8536)		

*90/box

CRITERION™ Nitrile N200

Nitrile Powder-Free Exam

Slightly thinner than the N100, the durable nitrile construction provides reliable protection and tactility. Chlorinated for reduced friction and easy donning. Textured fingers provide an enhanced grip. Chemotherapy tested to the ASTM D6978 standard. Beaded cuff. 2.36-mil thickness at the palm.

Periwinkle Blue..... 200/box

Specify:

X-Small	(900-7437)	Large	(900-7440)
Small	(900-7438)	X-Large*	(900-7441)
Medium	(900-7439)		

Gloves..... 200/box

CardioChek® Plus Analyzer HENRY SCHEIN®

Fast, Accurate, Efficient Lipid and Glucose Results at the Point of Care

Recognizing the strong connection between heart attack, stroke, and diabetes, the CardioChek® Plus Analyzer provides rapid, on-site blood-chemistry values and measurements to help identify at-risk individuals.

- Fast: On-site lipid and glucose results in as little as 90 seconds; simple, quality-control testing
- Portable: compact and lightweight, easy to transport and store; handheld and battery-operated; and room-temperature test strips
- Patient-friendly: fingerstick with sample size of 1.1 µL to 40 µL
- Wireless communication: easy data transfer
- Measures total and HDL cholesterol, triglycerides, and glucose
- Calculates LDL and non-HDL cholesterol as well as TC/HDL and LDL/HDL ratios
- Certified accuracy
- CLIA waived
- Meets NCEP guidelines for accuracy and precision
- FCC- and ISO-certified wireless communications
- CRMLN-certified for CHOL and HDL tests
- FDA cleared

Glucose 201 Analyzer

HEMOCUE

The HemoCue Glucose Systems are based on a glucose-dehydrogenase method and consist of a small, dedicated analyzer and a unique, disposable microcuvette. They will produce lab-accurate results for diagnosing or monitoring diabetes, as well as monitoring neonatal blood glucose levels.

- More accurate and 68% higher reimbursement than glucose meters
- FDA-compliant unit when screening and diagnosing
- Analyzer: 0–444 mg/dL (0–24.6 mmol/L)
- Only 5 µL of capillary, venous, or arterial blood is needed
- No inherent limitations related to hematocrit or known drug interferences
- No recalibration needed between cuvette lots
- 3-year warranty

POINT-OF-CARE TESTING

CoaguChek®

Realize the value of Point-of Care INR testing with CoaguChek® solutions

Point-of-Care (POC) INR testing can be a valuable component of a successful warfarin therapy program.

Rather than sending patient blood samples to the lab and waiting days for results, in-office testing:

- Enables immediate therapy decisions by delivering on-the-spot results
- Saves valuable time and unnecessary steps
- Helps reduce risk and cost of treatment related complications¹

To learn more about POC INR testing with CoaguChek systems, visit go.roche.com/coaguChekproducts

¹ COAGUCHEK ark of Rochea 2223 RaceMC-US-000 Water Metal Marag2002PM 2002

- CLIA waived
- Neutralizes therapeutic levels of heparin and LMWH
- INR corrected for hematocrit within specified range; manage a broad array of patients with a single device
- Small sample size (8 µL) for easy dosing
- Strip allows dosing from either top or side for simple blood application
- Small, battery-powered, handheld meter for portability and efficiency
- New onboard controls; no external QC necessary
- Auto-on with strip insertion and auto-off capabilities
- 18-month strip shelf life; no refrigeration needed

CoaguChek XS® System ROCHE DIAGNOSTICS

PT/INR Monitoring Solution

The next generation in point-of-care international normalized ratio (INR) testing, this new system uses exclusive smart technology to help ensure accurate results and offers the flexibility and control that healthcare professionals need to confidently manage a wide range of anticoagulated patients. It is the only system to perform onboard quality control and determine patient results in a single test chamber.

Cholestech LDX™ System
ABBOTT

Complete Lipid Profile, Glucose

Lab-accurate lipid profile and glucose results in about 5 minutes from a simple fingerstick. Allows provider to get results while patient is still in office—provider can counsel and intervene face-to-face. This improves patient compliance and increases control and management of heart disease and diabetes. Reimbursable by Medicare and most private payers.

- CLIA waived
- Procedure saves time and enhances productivity
- Small, tough, and portable
- Eliminates anxiety of venipuncture; requires only a fingerstick
- On-the-spot adjustment of therapy and improved patient compliance
- Accuracy comparable to laboratory tests
- Saves time: fewer follow-up visits required
- Enhances compliance through teachable moments between health care providers and patients

CytoChip | HENRY SCHEIN

Monthly QC & Low Maintenance

The analyzer can be powered on quickly and ready for testing in 3 minutes. QC of the analyzer is performed minimally every month to ensure functionality. LIS connectivity is supported.

Simplify Operation with CLIA Waiver

- Easy to operate by nurses or medical assistants.
- On-site result streamlines the visit and reduces follow-up.

Essential for Urgent and Primary Care

- Informative flag messages highlight clinical abnormalities.
- Objective data to assess patient acuity and underlying conditions.

POINT-OF-CARE TESTING

CitoCBC® System CYTOCHIP, INC.

An automated, CLIA-waived hematology analyzer that is intended to analyze venous human whole blood in K2EDTA vacutainer and report results of 16 hematology parameters with a 5-part differential. System uses One-Chip® microfluidic technology, which delivers accurate results from a 15-uL sample.

- CLIA waived
- Self-contained test cartridge
- Easy-to-use touch screen with step-by-step instructions
- Informative flag messages highlight clinical abnormalities
- Results available via LIS connectivity, on-screen display, or printed hard copy
- 8-minute time to result
- Monthly QC and minimal maintenance

Beckman Coulter Chemistry
and Immunoassay Systems

(#104-7912)

Access[®] 2 Immunoassay System BECKMAN COULTER

With an intuitive operator interface, enhanced sample handling, and innovative menu, the state-of-the-art Access 2 system delivers new levels of laboratory efficiency, standardization, and cost effectiveness. A broad menu of high-quality assays from Beckman Coulter and productivity-enhancing features on the Access 2 offer laboratories a flexible option for immunoassay testing. Maximum throughput of 100 tests per hour for one-step assays and 50 tests per hour for two-step assays. Product features:

- Internal barcode reader automatically identifies reagent packs, decreasing operator loading errors
- Ergonomic workstation provides comfort to all system operators
- User-friendly fluidics tray includes custom consumable slots, improving productivity
- Top-mounted status light-bar notifies operators of instrument status, regardless of where they are in the laboratory
- Remote monitoring capability improves instrument diagnostics
- Magnetic particle separation with chemiluminescent detection technology achieves wide analytical range and fast assay processing
- 24 resident assays with continuous random access and STAT capability
- Onboard refrigeration enhances reagent stability

DxH 500 Hematology Analyzers BECKMAN COULTER

These new, 5-part differential analyzers feature a minimum footprint and promote maximum productivity. Spend more time on patient care and less on operational tasks with the powerful, compact DxH 500 Series analyzers, which provide a low-volume solution. Labs can deliver critical first results accurately, with as little as 375 µL microtainer fill-volume and an aspiration of only 12 µL/17 µL.

UniCel[®] Dxl 600 Access[®] Immunoassay System BECKMAN COULTER

Why have 50 Reagent spaces on-board? To provide the flexibility you want.

With up to 50 reagents onboard, the UniCel Dxl 600 Access Immunoassay System enables you have the flexibility to run both routine and specialized tests. The Dxl 600 allows laboratories to decrease process steps and improve turnaround time, with astounding ease of use. Uses the same reagents as other UniCel Access systems, so your laboratory can deliver consistent patient results, no matter which Beckman Coulter immunoassay system performs the test. A broad menu across a wide variety of disease states enables your laboratory to consolidate workstations and recapture testing currently being sent out. Load reagents and all consumables on the fly, without using the console computer or pausing the instrument, minimizing operator intervention. Large onboard capacity of up to 60 samples at once with continuous loading sample racks allow samples to be loaded directly from the centrifuge, reducing manual processes.

Product features:

- Onboard capacity of 50 refrigerated reagent packs enhance flexibility
- Large onboard reagent capacity simplifies reagent management
- Rapid assay kinetics improve turnaround times
- System supports multiple assay protocols
- Magnetic particle separation with enhanced chemiluminescent detection delivers exceptional clinical performance
- Routine sample loading can be interrupted to load STAT samples quickly
- "Point-in-space" pipetting technology aligned with CLSI guidelines allows integration with laboratory automation systems
- Automatically creates aliquots based on the volume of requested tests
- System can be configured to aspirate additional volume required for user-defined reflex or rerun test scenarios
- System stores aliquots for up to 3 hours in a refrigerated, low-evaporation compartment
- Auto-matched pipettors work in parallel to deliver sample and reagent into the reaction vessels
- Achieves a peak throughput of 200 tests per hour

AU480 and AU680 Clinical Chemistry Systems BECKMAN COULTER

AU chemistry analyzers are built on a solid reputation of reliability. They provide fast and precise analysis complemented by outstanding low-maintenance requirements, and offer operator convenience.

- Easy to use
- Intuitive graphical user interface
- Touch screen
- Quick access jump buttons
- Customizable user menu
- Sample tracking and patient statistics available with touch of the screen
- Quality Reagents
- Ready to use
- Liquid
- Bar-coded
- Long open container stability
- One of the largest reagent offerings in the industry. 125+ tests available, including therapeutic drug monitoring, proteins, and user-defined reagents
- Cost-efficient
- High-quality, permanent glass cuvettes reduce disposable costs
- Highly concentrated reagents available in 15-mL, 30-mL, and 60-mL bottles allow lab to choose most cost-efficient option
- Reliability second to none
- Average meantime between failure is 39 weeks
- Best-in-class ISE electrodes
- Easy operator maintenance
- Daily maintenance under 10 minutes
- Advanced auto QC and calibration
- Common customer-replaceable parts require fewer than 3 steps, less than 60 seconds, and no tools to replace
- Other key benefits:
- High-precision microsampling is ideal for pediatric and geriatric testing
- Fast turnaround time improves patient care and practice efficiency
- Standardization across the AU platform includes operation, reagents, and results

Alinity i Immunoassay System

ABBOTT

Utilizes proven CHEMIFLEX chemiluminescent detection technology with an assay design that is free from biotin interference to provide greater confidence in results.

- Method: chemiluminescence
- Sample type*: serum, plasma, whole blood, urine
- Sample capacity: 150
- Reagent capacity: up to 47
- Maximum throughput: up to 200 tests per hour

#03R6501
(137-2920) ea

*Assay dependent

Alinity c Chemistry Analyzer

ABBOTT LABORATORIES

Maximizes testing throughput with high-quality assays to deliver efficient and accurate results for greater productivity.

- Method: photometric and potentiometric
- Sample type*: serum, plasma, urine, cerebrospinal fluid, hemolysate, and whole blood
- Sample capacity: 150
- Reagent capacity: up to 70
- Maximum throughput: up to 1,350 tests/hour

#03R67-01
